

American Sovereignty Hangs in the Balance

Alarming developments, concerning American sovereignty, freedom, and the implications of potential treaties with the World Health Organization (WHO), serve as a reminder that the globalist elite are always plotting our subservience. The lockdowns of 2020 during the COVID-19 pandemic were a test run of a far more sinister plot, desensitizing us so less of us feel the sting of the next attack. This enemy seeks not to engage us in open conflict but to silently erode the bedrock of our liberties through legal and political maneuvers that could bind our nation to the whims of international arbiters. Understanding these issues is crucial for every patriot willing to preserve and pass on American liberty to future generations.

In this briefing we will discuss the following:

- » The WHO's Threat to American Sovereignty
- » Implications of WHO Directives on States and Individual Freedoms
- » The Path Forward: "Not Now" Campaign and Senate Involvement

YOUR MISSION: Learn about the new threats to national sovereignty and personal freedoms and join the concerted effort to repel attempts by the WHO and its affiliates to undermine U.S. sovereignty through legally binding treaties that could transfer decision-making power from American hands to an international body controlled indirectly by adversarial states.

ATTENTION: The future of our nation is at stake! This threat seeks to crush American liberty using a new health 'crisis' to enforce lockdown policies and vaccines while declaring any who resist to be criminal offenders.

WHY YOU SHOULD CARE

- » If the WHO is successful in passing these treaties unelected officials will be able to determine the pandemic response that will legally be enforceable where you live.
- » These pandemic responses will likely be far more intense than those experienced in 2020, especially in states where mandates and lockdowns did not last long.
- » Your freedoms could be taken away as new policies could be enforced by the WHO, UN, at the direction of other member nations (think China).
- » WHO leaders are not accountable to the people, state officials are. Grievances with the WHO will be difficult to challenge.

Ep. 8-291 (OSINT) Open-Sourced Intelligence Report. This briefing includes a conversation between Kevin Freeman and Frank Gaffney. Frank is a friend of the Economic War Room® and an American Patriot.

Frank Gaffney is the Founder and Executive Chairman of the Center for Security Policy in Washington, D.C., a not-for-profit, non-partisan educational corporation established in 1988. Under Mr. Gaffney's leadership, the Center has been nationally and internationally recognized as a resource for timely, informed, and penetrating analyses of foreign and defense policy matters.

Mr. Gaffney is the host of Secure Freedom Radio, a nationally syndicated radio program heard weeknights throughout the country. He is an associate author of highly acclaimed Shariah: The Threat to America and the publisher of over a dozen other books and monographs from the Center for Security Policy Press.

1. The WHO's Threat to American Sovereignty

The World Health Organization (WHO) is the health services branch of the United Nations (UN).

Over the last few years, the WHO has been plotting ways to increase its control over global pandemic (and other 'health crises') response strategies and policies.

Their plan is to become the sole power behind the definition and declaration of global health crises and pandemics.

This would include climate change, new diseases, or any other threat to humanity they can fabricate in or outside of the labs.

There are currently two treaties in play, maneuvered by the WHO, posing as non-treaty agreements to bypass traditional ratification processes and critically impact U.S. sovereignty and freedom.

The treaties aim to bestow upon the WHO Director-General unprecedented authority in declaring and managing public health emergencies, potentially extending to areas impacting American civil liberties directly.

“They will transform a man who currently has advisory authority as the director general of the World Health Organization, or WHO, into a global dictator of what is a public health emergency of international concern, as they call it, and then what must be done in response. Both of which are frontal assaults on our sovereignty as well..” –Frank Gaffney

According to the US Constitution, any treaty to be signed by the US must be essentially ratified by the US Senate.

The tactics employed by the WHO include stealthy advancement of treaties, deception about their true nature, and exploitation of executive agreements to circumvent Senate oversight.

This is a direct and purposeful attack against the American people and the foundational pillars upon which the founding fathers designed our nation.

It is an intentional subversion and usurpation of the powers granted to the US Senate that is supposed to function as a check and balance between the legislative and executive branches of the US government.

“There are now very few instances where the Senate actually goes through the formal ratification process. The vast majority of treaties are now with, I guess, the Senate’s sort of blessing, albeit not formal, dealt with as executive agreements by the president requiring nothing more than his signature, and even things that should have been very much treated as treaties, like, for example, the whole, climate change, claptrap and the, so-called Joint Comprehensive Plan of Action, the Iran deal. These were not dealt with as treaties by the Senate. And we are the worst for that arrangement being practiced.” –Frank Gaffney

Sadly, this is a trend in American politics as the Senate has decided not to perform this aspect of its duty multiple times over the last few decades.

If the Senate does not step up to the plate and fulfill its duty to the American people now, these two treaties will give unprecedented power to the WHO’s director general.

These treaties threaten to dilute national sovereignty by allowing the WHO to dictate global health policies when those powers were intended to be held by the States.

 **Attention: Unelected officials of the WHO who do not represent your best interests will be granted power over global health policies if these new treaties are passed.**

NOTE: There have been some revisions to the treaty since we interviewed Frank Gaffney with language appearing to give individual nations the ability to withdraw from or even ignore WHO guidelines. This is NOT a solution to the problems we have described, however. Instead, even if the revised “compromises” were valid, the treaty empowers the WHO and our Federal Government to collude against states and the people. Further, it emboldens private censorship of opposing thoughts by social media. To see why the “revised” version remains dangerous, check out this from the Heritage Foundation:

[The WHO Pandemic Treaty Fails Again April 19, 2024](#)

2. Implications of WHO Directives on States and Individual Freedoms

The leaders of the WHO are unelected bureaucrats who are not representatives of the American people, but instead represent only the interests of the globalist elite who placed them there.

Tedros Ghebreyesus the current director-general of the WHO has a history in politics, with large amounts of Chinese funds flowing through his office throughout his career.

During the 2020 COVID pandemic, Tedros lauded the “success” of the Chinese strategies of mask mandates and lockdowns, while denying that the virus originated in a lab in Wuhan.

In other words, he is a lying puppet of the CCP who defended the Chinese regime and allowed millions of people around the world to die because of these bad policies.

“[Under these treaties] Tedros Ghebreyesus will not only be your new doctor, he will be the new arbiter. And again, folks, don’t take our word for it. We saw what he did in the pandemic. That was bad enough without the kind of authorities that he will have now.” –Frank Gaffney

During the pandemic, Tedros and the WHO were limited in their power such that they functioned primarily as advisors to world leaders. They could not directly demand or enforce policies.

Instead of recognizing their failures, the leaders of the WHO have decided instead to blame the failures on their lack of power over policy.

If the WHO is granted this expanded authority, it could dictate policies directly impacting state rights and individual freedoms on matters related to health, environment, and even speech, under the pretense of addressing public health emergencies.

“All of that garbage that was thought-control that locked you in your homes could be coming back on steroids. It’s a complete Marxist takeover of every aspect of life.” –Kevin Freeman

Mask mandates not only failed, they have empowered criminals with an excuse for covering their faces to avoid punishment for their crimes.

Lockdowns were detrimental to the education of America’s children and also drove many Americans to suicide as loneliness and isolation crushed their will to live.

The WHO lied to the whole world to protect the interests of the Chinese Communist Party, causing countless deaths.

Ivermectin and Hydroxychloroquine were intentionally shut down as treatment options so the experimental COVID-19 vaccines would be enforced around the world.

Under the treaty, even if the Feds have the option to follow or ignore WHO mandates, individual states would not have such a veto. If the feds agreed, states would be bound without recourse. And that is how you make it look voluntary while actually being mandatory.

At its core, the WHO is not only a failure, it is a prime example of the human greed which drives much of the evil in the world.

⚠ Attention: The WHO intends to bypass the intended constitutional safeguard of a two-thirds Senate majority requirement, in their quest to erode state-level sovereignty and usurp policy-making capabilities.

3. The Path Forward: “Not Now” Campaign and Senate Involvement

To prevent the WHO takeover, Frank Gaffney suggests a “Not Now” campaign, aimed at delaying the vote on these treaties and insists that any agreement must go through the Senate for advice and consent, preserving constitutional checks and balances.

For the Senate to approve such a treaty, it would require a two-thirds majority vote.

With the current makeup of the Senate, there is no way these treaties would pass through the Senate chambers.

“The framers of our Constitution were brilliant men, and what they came up with was this elaborate structure to prevent the abuse of power through checks and balances... A corrupt, malfeasant, perhaps treasonous president making a deal with some international power or entity that would have a direct impact on our Constitution, on our freedoms, on our checks and balances. And they said the Senate will have to serve as the watchman on the wall. For that, they will have to be the quality control mechanism. Not only that, but they said, this is such an important responsibility that we’re actually going to make it obligatory that to be approved by the Senate for its ratification, a treaty has to get a two-thirds majority. That’s a high bar.” –Frank Gaffney

The founding fathers understood the threats posed by inept or malicious leaders and were unwilling to allow such leadership to crush the American people and the liberty they had fought and died to earn and preserve.

However, it is the responsibility of the people to keep the government in check by holding elected officials accountable

“This administration is determined not to allow the Senate, even as the representatives of the American people, to exercise the quality control that our Constitution requires. For all these reasons, we believe two things need to happen. One, that we postpone the vote, and two, we establish that the Senate will have to advise and consent before anything is done with these agreements.” –Frank Gaffney

The only way forward is for the American people to stand up to tyranny and demand that the representatives they elected fulfill the duties of their offices. Public servants must serve the public.

If the public remains unserved and the people are ignored, the people must rise up and demand a change.

Bad representatives must be replaced by true American patriots who hold the values of the founding fathers and will fight to preserve American liberty.

⚠ Attention: The American people must rise up and fight for liberty by refusing to allow these treaties to pass now, and demanding that they be considered by the senate for approval.
