

## Frank Gaffney is Mad as Hell and He is Not Alone

America is facing one of those dark times in history. Poll after poll shows Americans believe our nation is on the wrong track. People are waking up to what is really happening, and more and more are asking what else they can do to protect America's values.

We invited Frank Gaffney into the Economic War Room® for this week's briefing. He been on the front lines for our nation's security since the Reagan administration. He stood with America against communism, Islamism, and the China threat. He also recognizes the enemy within and wants to preserve truth, justice, and the American way.

Frank summarizes the situation best with this one quote:

"The polls are evidence that the common sense of the American people is operating. What they're witnessing all around them, domestically and internationally, is evidence of what I believe is a wrecking operation by the Biden administration. I don't think you can attribute this sort of comprehensive malfeasance to just incompetence. I think it's purposeful. And I think the problem is, it is weakening our country and endangering it at a moment when adversaries are very anxious to exploit such weakness and lack of resolve."

People are getting "Mad as Hell" to what is being done to America! Frank Gaffney shares more on the threats we face, the tactics of our enemies, and how you can make a difference as part of the "Mad as Hell" coalition.

**Your Mission:** To understand the Foreign and Domestic threats against America and you! Also, to join the "Mad as Hell" coalition.

"This is a time when I think, 'all things are possible with God,' is certainly true. And without Him we're in mortal peril. So, I'm praying that we will see our American people finding once again their faith and putting it into practice, even if it means they're mad as hell with what's going on here." -Frank Gaffney

Ep. 5-187 (OSINT) Open-Sourced Intelligence Report. This briefing includes conversations with Kevin Freeman and Frank Gaffney. Frank Gaffney is the Founder and Executive Chairman of the Center for Security Policy in Washington, D.C., a not-for-profit, non-partisan educational corporation established in 1988. Under Mr. Gaffney's leadership, the Center has been nationally and internationally recognized as a resource for timely, informed, and penetrating analyses of foreign and defense policy matters.

Mr. Gaffney is the host of *Secure Freedom Radio*, a nationally syndicated radio program heard weeknights throughout the country. He is an associate author of highly acclaimed *Shariah: The Threat to America* and the publisher of over a dozen other books and monographs from the Center for Security Policy Press.

In April 1987, Mr. Gaffney was nominated by President Reagan to become the Assistant Secretary of Defense for International Security Policy, the senior position in the Defense Department with responsibility for policies involving U.S.-USSR relations, nuclear forces, arms control, missile defense policy and U.S.-European defense ties. He acted in that capacity for seven months during which time he was the Chairman of the prestigious High-Level Group, NATO's senior politico-military committee. He also represented the Secretary of Defense in key U.S.-Soviet negotiations and ministerial meetings.

Mr. Gaffney holds a Master of Arts degree in International Studies from the Johns Hopkins University School of Advanced International Studies and a Bachelor of Science in Foreign Service from the Georgetown University School of Foreign Service.

Mr. Gaffney's leadership has been recognized by numerous organizations including: the Department of Defense Distinguished Public Service Award (1987), the U.S. Business and Industry Council's Defender of the National Interest Award (1994), the Navy League of the United States' Alfred Thayer Mahan Literary Achievement Award (1999), and the Zionist Organization of America's "Louis Brandeis Award" (2003), the Western Conservative Summit's Stephen H. Long Award (2015), the Council for National Policy's George Washington Military Leadership Award (2016) and the IMPACT Award from Ginni Thomas and United in Purpose (2017).

## 1. There is a wrecking operation to take down America.

**Frank Gaffney knows what good foreign policy looks like. He watched President Reagan literally dismantle the Soviet Union's control over Europe and other places.**

When asked to compare Reagan's leadership to what the Biden Administration seems to be doing today, Gaffney explains it as a wrecking operation mantra:

⚠️ "It's easier to identify what doesn't. Honestly, I can't think of a single policy initiative of the present administration that doesn't fit basically that mantra." –Frank Gaffney

- › Look at the takedown of the dollar as a prime example of a self-inflicted economic warfare defeat.
- › The opening of our border to what is now unmistakably an invasion. It's only gotten worse, especially with Title 42 being removed.

- » The extent to which we have seen in the Afghanistan exit, is not just a defeat, but a humiliation.
- » This is compounded by the bequest to our mortal enemies of \$85 billion dollars of military equipment.

**Really, think about it. With the Pentagon withdrawing could they be so stupid as to leave that much stuff there by accident?**

"It is not a matter of stupidity. It is a designed act of sabotage of our country. The military was obliged to go along with it. Because the commander-in-chief ordered it.

These were lawful orders, as were the orders to remove their personnel before they got the civilians out, and to turn over Bagram Air Force Base to the Chinese Communist Party." -Frank Gaffney

**ALERT: China has taken all these things we left behind. Does that make sense???**

**2. Gaffney explains that there are two common denominators to the entirety of this sorry story of wreckage.**

**First:** It has been harmful to the United States.

**Second:** It has benefited the Chinese Communist Party without exception.

**Here are the facts:**

- » China can now operate from Bagram Air Force Base.
- » They can go after the lithium deposits in Afghanistan.
- » They can train the Taliban and others with American weapons, to wage jihad against us is all. **This is to the benefit of the Chinese communists!**

"One can argue that some of these may be short-sighted steps on their (China's) part. Arming and training jihadis can be a problem when you're engaged in genocide against an entire population of Muslims.

But on the other hand, this so-called proto-caliphate\*, the Organization of Islamic Cooperation, just recently brought in the Chinese and made them welcome at their summit in Pakistan.

Scarcely a word was said about the mass murder and other horrors being inflicted on their co-religionists. So, I think the Chinese feel that they can engage in this kind of behavior with impunity, as in so many other areas.” -Frank Gaffney

\*Proto-states share at least four distinct characteristics: they are intensely ideological, internationalist, territorially expansive, and irredentist. They also devote significant resources to effective, if harsh, governance. The article argues that forming Islamic emirates and proto-states represents a bid for increased power and influence vis-à-vis rival Islamists. The uncompromising strategy pursued by jihadi proto-states is a result of the intense rivalry with other Islamist rebels as well as the proto-state's dependence on external (“global jihadi”) constituencies whose allegiance and support can only be maintained by demonstrating a high ideological commitment. ### 3. The Laptop and a Compromised President?

**Note: Both *The New York Times* and *The Washington Post* have both now admitted that the laptop is real.**

**On one side,** Joe Biden holds himself up to Americans, as I was a senator, I was Vice President, I love America, and I'm “Joe lunch pail,” all American.

**In reality,** the laptop that came out contained two big glaring stories. They involved **Ukraine and China, both giving enormous amounts of money to Hunter Biden.**

**China, Ukraine, and Russia, Russia, Russia – The truth about Russia may be in the news if they report it this time.** We're still now gaining access to more and more information.

**Gaffney shares it's not just Ukraine and China. It's Russia as well as others!**

"The interesting thing is, as we're talking, the guy who has done, I think, an incredibly important job of forensically examining and making accessible, not just what was known about the laptop back when *The New York Times* and *The Washington Post* and the social media platforms were all ignoring it and suppressing information about it, but also in the period we were told about says there's more. There's a lot more where that came from, and we're still exhuming it."

**CAUTION: "I think we're going to find Joe Biden is corrupt, has compromised not only himself and his family, but our country to our mortal enemies. And some of this wreckage is being done at their behest as well." –Frank Gaffney**

"Biden may be not only corrupt, but now we've got a question of whether he's capable." –Kevin Freeman

**4. A look at the concept of all enemies, foreign and domestic.**

The Constitution talks about protecting against all enemies, foreign and domestic. In the Biden administration, we see both the foreign and domestic enemies trying to take down America.

**First, a quick overview of our foreign enemies: (We will get into the Domestic Threats later in this briefing.)**

Gaffney shares his insights as it relates to foreign enemies and the Geopolitical implications we are seeing today.

"Let me just predicate it by saying I swore an oath repeatedly when I was serving in the Senate and then in the Executive Branch to protect and defend the Constitution of the United States against all enemies, foreign and domestic. That's what you're referring to. And the numbers of those enemies, now, are legion." –Frank Gaffney

**The obvious, and most serious of all, is the Chinese Communist Party.**

**Even more concerning is that the Chinese communists are now allied with a whole host of other characters. This includes some that are their natural enemies.**

"I think that the Russians are frankly going to find themselves at the losing end of a death struggle with the Chinese in due course." -Frank Gaffney

» For now, Putin and Xi are connected with Putin as the junior partner and the Chinese, are in the dominant position.

» Other Foreign Enemies include:

→ North Korea

→ Iran

→ A whole array of despots in Latin America, most of them are communists now.

→ Pakistan

→ Taliban

→ India (while not an enemy, they seem to be siding with China and not the US and our allies.)

"This is shocking because the border issues with China, and natural animosity with Pakistan, and yet somehow, they've got India where they're not siding with the West against Putin." -Kevin Freeman

**WARNING- Is it now better to be either America's Enemy or at least not a friend?**

**The India example,** I think this is the kind of calculation that a lot of countries are making now. Some may go all the way over to joining the enemy camp, but an awful lot of them are just going to sit it out.

**WARNING: This includes even nations that have been historically allied with us because they have now reached the conclusion that it's better to be either America's enemy or at least not its friend, than to be its ally.**

"And that's a formula for having a lot more enemies or people who are helping your enemies." -Frank Gaffney

**5. Remember the Trump foreign policy? No matter how you look at it, the stature of the US today has fallen under a Biden Presidency.**

“It seems like the stature in the world did not rise with the election of Joe Biden. It fell dramatically. People, at least, had some respect for President Trump.”—Kevin Freeman

**Frank Gaffney shares how the Biden Campaign was one of the great bait and switches of all time!**

The Biden team trotted out that they were going to have all these adults, and they were going to be the professionals, and they were going to be people you could absolutely have confidence in.

Remember when they said: America would have renewed standing, and the world would be engaged.

**The truth of the matter is, our adversaries, as well as our friends, were recalculating. They knew American would be weakened.**

- » They knew we had a weak individual. Many of them had taken his measure in the past as a senator, as a Vice President. They knew Joe Biden even when he was younger and stronger.
- » Vladimir Putin did not even bother to conceal his utter contempt for the man when he was Vice President.
- » Xi Jinping spent a lot of time with him and certainly understood his weaknesses as well as the fact that he’s on the take to the Chinese communists.

But when you look at this larger pattern and that weakness has now been made absolutely manifest.

**We talked about Afghanistan earlier in this briefing.**

- » **IT SHOUTED TO THE WORLD THAT THE US LEADERSHIP IS WEAK** -With the botched execution of the Afghanistan withdrawal, one can’t imagine a more **impactful message of weakness** being sent.
- » There is irresolution, as well as a seeming determination to make things as bad as they can.

The communists have long had the expression, "the worse, the better." They'll benefit from things being as bad as they can be made. That seems to be the script that is being followed by the President of the United States and his team.

"I never thought in my lifetime or anyone's lifetime that we would see a more tragic ending than Vietnam. But I think we just did." -Kevin Freeman

**A comparison of Patriotic American Vietnam political refugees coming to America compared to mainly Afghanistan military age males, some that are Taliban, brought to America.**

"We haven't seen the full extent of it yet, I fear, because where we took in large numbers of boat people from Vietnam who became part of the fabric of America, foreign-born American patriots, that have enriched us immeasurably with their industry and their love of this country and their hard work." -Frank Gaffney

**Unfortunately, this could be a different story with the unvetted Afghanistan evacuation.**

**ATTENTION:** "We've taken 100,000, maybe 125,000, as best I can tell, mostly unaccompanied military age males from a Sharia supremacist society, some of whom are out and outright Taliban. We don't know whether there's al Qaeda, or there's ISIS in the mix. We don't know who these people are. And they've now been distributed all over the United States, moved into our communities. And the moment when they're called to jihad, I think you're going to see, if I can use the expression here, 'all hell breaking loose.'"

-Frank Gaffney\*

\*Clearly, America should have been there for the Afghanistan people who were allies of the US, helped our troops, and believed in Liberty. The concern is in how the Biden Administration executed the withdrawal with no vetting of who they were loading on those planes.

6. The *Mad as Hell* Campaign – **Are you mad as Hell yet?**

The Center for Security Policy and Frank Gaffney have launched an awareness and action campaign to help American's understand how we are helping to fund our own demise.

The two key economic team members helping with the *Mad as Hell* campaign include:

**Kevin Freeman serves on economic team for the Mad as Hell coalition along with others.**

“With your leadership, Kevin, you’ve taught me most of what I know about economic warfare, and I’m so grateful to you for that.” –Frank Gaffney

**Roger Robinson is another of the colleagues working to educate America on the Economic War.**

- » Roger is another hero. He is the man who was instrumental to Ronald Reagan’s strategy of taking down the last totalitarian communist regime that sought our destruction, namely the Soviet Union and the Communist Party that ruled it.

**Next, let’s better understand some of the key issues and how America got to where it is.**

“We’ve funded all of this (much to our demise) through the Chinese Communist Party. America and many of our investment dollars have been funding them.” –Kevin Freeman

**CAUTION: If you are not mad already, you will be after this! Are You Ready?**

By some estimates, up to \$7 or \$8 trillion that has been migrated by Wall Street to the Chinese Communist Party **through its various front organizations in the form of investments of our money.**

“This is your money, invested in China’s interest and stocks for heaven’s sakes. And this is what makes it a *Mad as Hell* campaign. They’re doing this harm to our country, not with Larry Fink’s money or Steve Schwartzman’s money or Ray Dalio’s money or Vanguard’s. It’s your money and my money.” –Frank Gaffney

**Where The Mad as Hell, name came from and what is meant by it.**

---

There was a 1970's movie, *The Network*. A common phrase became popular from this line. [Click here to see the clip.](#)

"I want you to get up right now and go to the window, open it, and stick your head out and yell, I'm as mad as hell and I'm not going to take this anymore."

**Gaffney shares why all liberty-minded Americans should feel this way and not be willing to take it anymore.**

**ATTENTION: "Just like the guy screaming out the window, when you realize that people who have essentially sold out our country have made decisions that not only are likely to affect all of our lives and perhaps our survival, certainly as a nation, are doing it mostly without our knowledge, let alone our permission."**

They are literally doing it with the money that we've entrusted to them to invest for us!

---

"It's our money, pension funds, 401K plans, mutual funds, and investments. And the point of this is to say: 'Stop. No more.' We must now invest -ideally, patriotically!

Kevin Freeman and the Economic War Room are making a significant contribution to that effort with the NSIC Institute." -Frank Gaffney

**Mad as Hell still? We covered foreign threats against America. Let's look closer at the domestic threats within Wall Street, this is how bad it has gotten:**

"There was a moment during the Trump years when these fat cats on Wall Street, Larry Fink among them at BlackRock, were determined to have the money of civil servants and military personnel, veterans serving, put into a fund that would go into China." -Frank Gaffney

- » If this went forward, our military personnel would be funding companies like those of the People's Liberation Army itself.

- » We were paying to build weapons with which to kill some of those same military personnel that help fund the CCP military.
- » This was just insane!

To his credit, Donald Trump found out about it and stopped it. That was one of the high points of his presidency. **Unfortunately, under Biden, it is being reversed!**

**We can thank Joe Biden for this one as well. Here's another fact that most people don't know as it relates to their investments in China over America.**

- » This movement of US capital to China has largely been done thanks to a deal that was engineered by then Vice President Joe Biden back in May of 2013.
- » Biden arranged for these funds to be made available to the Chinese, not just on large volumes, but on a preferential basis!
- » **He said, with this deal that they don't have to meet the same laws and regulations that American companies must meet to protect the investor from fraud, other accounting transgressions, a lack of transparency, or bad governance.**
- » China has taken advantage of this massively, and to the great betterment of those fat cats on Wall Street. They've made the commissions and the fees and the other sweetheart deals.
- » These are deals that benefit them, but not necessarily their clients, or our country.

It is crazy and it must stop! And there are some practical things we believe that can be done to do that, which we will cover a little later.

**The same group -- the Larry Fink's, the BlackRock's, all of them -- that group has also been funding the undermining of America domestically.**

- » They've been holding us to high standards that really are impossible, in some ways, on the environment.
- » They've been pushing social justice, critical race theory.
- » They've been forcing this gender quota agenda, including LGBTQ issues on American companies.
- » And they're doing it with the force of government.

President Trump had the Labor Department stop that nonsense above regarding pension funds. Now, the Biden administration is picking it up and running with it again.

**The Securities and Exchange Commission (SEC) is another reason to be Mad as Hell.** They are hampering our economy while they're failing to hold anyone in China to that standard.

“If it were just hampering, it'd be one thing. They're actually taking it (our economy) down.” –Frank Gaffney

- » The energy sector, for example, is another wrecking operation. Clearly there are domestic enemies within the US and our leadership.
- » We need to recognize the fact that we have Marxists in this country and they're doing business under a whole lot of brands. They're progressives, they're leftists, they're liberals, they're communists.
- » Some self-professed communists, include the leaders of Black Lives Matter.
- » Some of them are doing business under banners like Black Lives Matter, or Antifa. Some of them are Democratic Socialists.
- » Some of them are Liberation Road and Freedom Road Socialist Organizations.

**CAUTION: Beware of the words, “Fundamentally Transforming America.”**

These are in most cases, though, if not in every case, creatures of the so-called United Front work department of the Chinese Communist Party. Those ties are unmistakable and are adding to the danger. Also, look at the Green New Deal activists, the social justice warriors, the critical race theorists, and it goes on and on.

“They share this overarching objective of ... **Barack Obama put a fancy term on it. He called it ‘fundamentally transforming America.’** That means fundamentally destroying it and making it over in the form of either a Chinese communist enterprise or at least submissive to China.” –Frank Gaffney

**7. Highlights of some of the key initiatives that are part of a Mad as Hell campaign:**

**One is we have a very short, very easy directive that can be sent to your financial manager.**

- » It basically says, I don't want my money in China. Fix it or I'm going to take my business elsewhere!
- » The NSIC Institute is valued added service equipping financial advisors to understand and help protect their clients. NSIC advisors will also be helping to save America from the Economic War being waged against it. Also, it will be preferred by clients who love America and are concerned about Liberty, Security and Values.

“Kevin, you have spawned a fantastically important initiative that can help those financial managers understand how to do that at no loss in terms of value to their customers, but ideally to invest patriotically instead of in our enemy.” –Frank Gaffney

**Second, is to have the federal government ideally, or at least states, designate or declare the Chinese Communist Party to be what it is: a transnational criminal organization.**

- » That means that everybody, whether it's in the financial sector or whether it's in the business sector more generally, who is doing business with them risks being identified as an accomplice, after the fact.
- » That's a serious fiduciary risk to shareholders and boards of directors. Everybody should be aware of the risk.

**Third, is an idea which is still in the works, but I think has real promise. It is a class action lawsuit against people who are investing our monies in companies they do not know are fiduciarily sound.**

- » That is a way that can immediately chill the appetite for doing this kind of thing.

There are several other ideas in development. **The key point is we can take this back from those who are now using our money to endanger our country.**

---

### Blatant Hypocrisy

One of the most important things we can do is point out the blatant hypocrisy. You look at **Disney, for example. They're opposing the law in Florida that basically tells you not to sexualize kids under a certain age, but young children. Don't sexualize them!**

**At the same time, Disney doesn't say anything in China about the repression that happens in China or the support of all kinds of other governments that do bad things.**

What we **see** **as a** **MARKETPLACE**  
our enemies **view** **as a** **BATTLESPACE™**

## Why Should You Care?

- » Your money is being used against your values and against America.

- » More and more evidence on Hunter Biden's laptop indicates that our president may be compromised.
- » Weakness is a tool of the communist. Unfortunately, our actions are projecting American weakness right now.

## Shareable Quote:

“They will tell us that nothing is more important than the environment and social justice and good governance. And they are perfectly prepared to ignore the fact that a country that abhors all of them and actually crushes them, China, is the place that they would like to send our money. We need to appeal to Jesus Christ for His help in this moment.”
