

## Why Made in America Is More Important Than You Think!

Made in America. It's a term we seldom see today. Without it, America is losing her sovereignty. Our clothing, pharmaceuticals, and electronics are no longer made in America. It is an economic war against America and it is a national security threat.

"Retailers make significantly more profit on imported products that often use slave-type labor in countries with little-to-no taxes or environmental regulations. Consequently, they are removing American made products from their shelves forcing consumers to buy foreign-made products." -MadeinAmerica.com

For your briefing this week we invited Don Buckner, founder of [MadelnAmerica.com](http://MadelnAmerica.com), into the Economic War Room to discuss what is happening with America's manufacturing base and the national security risk ahead.

Also, he shares new solutions his team is developing to protect our sovereignty and how American businesses can succeed in the economic war being waged against them. Predatory pricing, IP theft, and money flowing out of the US are all threats that need to be addressed now. We can make a difference by weaponizing our money, our investments, spending, and giving.

## Your Mission: To buy American and support America's Manufacturers.

Growing the economy depends on a strong and flexible manufacturing community. The Goals of [MadelnAmerica.com](http://MadelnAmerica.com).

- » Inspire American Made Innovation, Drive, and Passion.
- » Showcase American Manufacturers and Products at the Highest Level.
- » Advocate for American Manufacturing & American Jobs.

Ep. 4-153 (OSINT) Open-Sourced Intelligence Special Report. This includes conversations with Kevin Freeman and Don Buckner

Don is an American entrepreneur created Vac-Tron where he conceived and created American Manufacturing, a never-before-seen "virtual" manufacturing company. Using his knowledge in steel fabrication, and by using other companies to fabricate, he developed very special vacuum units for what eventually became his signature brand Vac-Tron Equipment, which ultimately revolutionized an entire industry.

At age 38 In 2000 Vac-Tron was named one of the 13th fastest-growing privately held companies in the U.S. by INC. Magazine, growing to more than 6500% in 3 years. He developed 30 industrial vacuum products with 100's different uses. He developed over 40 national dealers and 120 dealer outlets throughout the U.S. and abroad, as well as a team of 100+ employees.

During this time Don acquired many awards, including "Florida's Entrepreneur of the Year," "Young Innovator in Trenchless Technology" and "Industry and Business of the Year." However, the achievement Don was most proud of was generating more than \$300 million dollars for his local community and witnessing the significance of manufacturing jobs firsthand.

Today he is founder of MadelnAmerica.com, MadelnAmerica.org, and MadelnUSA.com working to help rebuild America's manufacturing.

### Made in America - Consumer Insight

**8 IN 10**  
AMERICANS

Almost 8 in 10 American consumers say they would rather buy an American-made product than an imported one, according to a Consumer Reports survey. More than 60 percent say they're even willing to pay 10 percent more for it.

Source: [MadelnAmerica.com](http://MadelnAmerica.com)

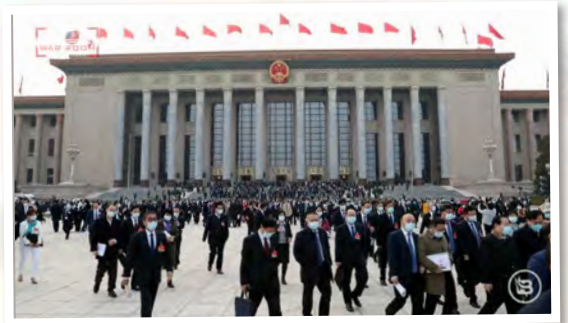

## 1. The trouble for America and our economy!

Our wealth is leaving the country at a record pace!

In an Economic War, the **money is where the power goes.**

- » We have given a lot of our economic power to other countries, and China had benefited most.
- » China has been very effective at manipulating our economic system.
- » The Chinese government has taken advantage of America's trade practices.
- » They have taken advantage of international organizations and stolen a lot of intellectual property.
- » They have conned a lot of businesses into coming to China on the hope of a huge new demographic only to watch their technology be taken. The Chinese government then undercuts those same businesses with cheap labor and almost no environmental standards, regulations, or taxes.

**While they do this, we are not allowed to say anything negative about China in mainstream media.**

- » We are not allowed to criticize China's policies.
- » We cannot easily discuss the fact that COVID came from Wuhan, China.
- » As they infiltrate US companies and buy them often with our money, China's influence controls Hollywood where movies are not allowed to criticize China.

## 2. American made products are important to America and Americans! The facts are that very few of our products are made in the USA.

- » 97% of our clothing is not made in America.
- » 80% of our pharmaceuticals are not made here.
- » Almost none of our electronics are made in America.

“If they cut us off today, six months from now, we’d be naked, we’d be sick, and we’d literally be Neanderthals without our electronics.” –Don Buckner

America’s sovereignty is long gone, but it is critical we determine how to get that back. It may be through new technologies or even US policy. But we must figure out how to start making these products here as part of our own National Security.

**3. Made in America initiatives are formatted around the three-legged strategic stool.**

**MadeInAmerica.com - Promoting awareness through Trade shows.**

Bringing U.S. Manufacturers together to showcase and highlight American Made machines and products. Currently there are about 400 manufacturers participating. Many of these are small business with under 50 employees.

- » The event is open to the American public, anyone who spends dollars.
- » At this event they work to invite other leaders that can promote commerce!
- » This includes buyers, corporate buyers, and government buyers to come in and see what is made in the United States.

**MadeInAmerica.org** - Education and PSA announcements. This organization puts out PSAs and educates Americans about the importance of buying American-made products.

**MadeInUSA.com**

This will be the largest online store for American made goods and the doorway between U.S. Manufacturers and the world.

## Made in America - Consumer Insight

For every, **ONE worker** in manufacturing, there are another **FIVE** employees hired elsewhere in the community. Source: MadeinAmerica.com

### 4. Beware of False USA Labels - One of the biggest challenges with finding American made products is knowing whether it is true.

How to know if the “Made in America” item on Amazon is really made in America?

- » Do your research.
- » There is a lot of fraud that goes on because “Made in America” can be seen as synonymous with quality.
- » The FTC takes swift action against fraudulent “Made in America” products.

**Note: If it says “engineered in this country” or “designed in this country” those are not made in the United States.**

### 5. The importance of American-made products.

**“It’s now or never, we’re at a crucial point in our history and if we don’t turn this ship around very quickly, it’s lost.” –Don Buckner**

- » We have about four percent of the world’s population here in America, but we have about 25% of the global economy.
- » We have seen that erode and it’s going to collapse if we don’t do something to make things here in America.

If the US consumer spends money, the world's economy is great.

- » This is because the most powerful economic force on the planet is the US consumer base.
- » Due to many factors, including manufacturers being mainly outsourced to other nations, America is spending twice as much money as it takes in.
- » Ultimately, America receives less money in taxes than it did when production was primarily in the United States.

---

For Every \$1 Spent on U.S. Manufacturing, there is \$1.89 in Economic Return to the US Economy.

For Every \$1 Spent on Imports Only \$0.55 Stays in U.S.

source: [MadeinAmerica.com](http://MadeinAmerica.com)

---

## 6. COVID poses a real economic problem even today! Now labor is being paid to stay home.

Capitalism is not working the way it's supposed to. It's being subsidized in the wrong direction. Labor is being paid to stay home and consequently it creates shortages in our supply chain because production can't happen.

- » We need things in place to incentivize people to work.
- » People are staying home and being paid to stay home. So, the economy is not growing, but we get inflation at the same time.

"Inflation devalues your money in a way that nothing else can. And so consequently, no matter what kind of gains you have, if you have inflation, your gains are negated. Somehow, we must turn around the inflation issue. The only way to really do that is to stop the flow of fiat money." –Don Buckner

PAGE 6

## 7. Investing in America is important!

**Many Americans don't understand the importance of investing in things that support their values versus investing through companies that oppose their values.**

- › Companies like BlackRock may be bad choices for many Americans because they hold different values. They will take the capital and vote the shares against the values of many Americans.
- › We have seen how BlackRock puts ESG requirements on companies, telling them they ought to run the company for the benefit of society, rather than the shareholders.

**WARNING-** This sounds like socialism!

- › Americans need to spend more time on investments rather than taking the lazy way of handing it to index-fund companies like BlackRock which promises to elevate sustainability over client returns.
- › We need to invest money in a moral way that benefits the kingdom, benefits the country and follow our constitution.

---

## Why You Should Care:

- › America is losing its Sovereignty.
- › Loss of US manufacturing is a national security issue.
- › Every American manufacturing job creates five additional jobs in the community.
- › A majority of Americans would rather buy American made products, even at up to a 10% premium, but often America's consumer cannot find Made in the USA options.
- › Our medications are now made in China with no real regulatory agency ensuring quality. Also, there is a major national security issue with our medications flowing from China.
- › Every dollar spent in America results in almost double the economic return.
- › Every dollar spent outside America generates half the return.

## Action Steps:

1. Check out the resources at [MadeinAmerica.com](http://MadeinAmerica.com), [MadeinAmerica.org](http://MadeinAmerica.org), and [MadeinUSA.com](http://MadeinUSA.com).
2. If you are a small Americas business, consider joining and participating in the MadeinAmerica trade show in 2022!
3. Where possible, American consumers should prioritize their spending toward products Made in America.
4. When you are spending, prioritize toward American products where you can. It has a broader economic impact than you realize!
5. Weaponize your money towards principles that support **Liberty, Security and Values** (LSV). You control your giving, spending, and investing. Nominate your financial advisor to attend our Founders' class coming soon.
  - **Investing**, we suggest you get a like-minded financial advisor. We've done surveys and a clear majority of investors want an advisor who matches with their political and cultural beliefs. Unfortunately, Wall Street is pushing for you to just take what they offer and then sets about to force a leftist agenda on you.
    - o "If your advisor isn't willing to match your investments with your values, send them to us for training and education. If they won't do that, I can promise you that there are lots of other advisors looking for new clients." Kevin Freeman
6. **It is time to fight the economic war we are facing. Nominate your financial advisor at [EconomicWarRoom.com/advisor](http://EconomicWarRoom.com/advisor)** and let them know you think this would be a great opportunity for them. Classes are launching soon, and our list is growing fast.
7. **Also, if you have not already done so, please consider the following:**

Be sure to sign up for our free weekly Economic Battle Plans™ at [www.EconomicWarRoom.com](http://www.EconomicWarRoom.com)

  - o If you are following Economic War Room you will be on the leading edge as it relates to global threats, geopolitical analysis, and how you can weaponize your money to strengthen America. Your money, livelihood, and way of life are at risk and these tools are designed to mobilize America to protect their economic liberty.

# ECONOMIC BATTLE PLAN™

WHY MADE IN USA IS CRITICAL 4.153

CLEARED FOR RELEASE 08/26/2021 (ECONOMIC BATTLE PLAN™ POINTS: 93)

In the **Economic War Room®**, we encourage Americans to be the “small ships that make the difference.” You cannot solely rely on the government or the president to solve America’s problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The small ships are based on Churchill’s Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.

**We need more Economic Patriots on the team!** Consider what you can do now to help strengthen America or even help someone in need. Keep in touch with your congressional representatives. Choose from the list or set your own goals:

- ✓ At our [Economic War Room®](#) website, sign up to [BlazeTV](#) or [LiftableTV](#) for our complete weekly shows. Please use our code (**ECON**) from that link for a discount and FREE trial.
- ✓ Follow, like, comment, and share on [FB](#) and [Twitter](#). Look for short video segments on [FB](#) and [Rumble](#) and make sure. We recognize these tools may be compromised at times, but if they are not filtered, they are the major platforms available to reach out to the public. [Know that alternatives to the social platforms listed above are under EWR consideration.]
- ✓ Check out XOTV (<https://xotv.me/channels/233-economic-war-room>), a new free speech video platform that Economic War Room is proud to partner with. Access is FREE but consider making a donation to EWR on that website to help with Economic War Room’s research and production costs.
- ✓ You are welcome to share this Economic Battle Plan™ and our short video segments with friends on [FB](#) or [YouTube](#). We set up the Economic War Room® to be your resource for information, preparation, and mobilization.
- ✓ Do this now! Have a financial action plan based on multiple geopolitical scenarios developed now. Advanced preparation is key. Trying to figure what to do when an economic event happens is usually too late.

**Shareable Quote:**

**“8 in 10 American consumers say they would rather buy an American-made product than an imported one. Make it a priority where you can!”**

– Don Buckner
