

The Great Reset

For your briefing this week Glenn Beck joins Kevin Freeman to discuss Glenn's number one new best-selling book, *The Great Reset: Joe Biden and the Rise of Twenty-First-Century Fascism*. This may be the most important book Glenn has ever written! In it, he asks questions like:

- » "Why are large corporations becoming the champions of woke causes and engaging in political debates about things like voter ID laws?"
- » "Why did the stock market grow substantially throughout 2020 and 2021, despite one of the biggest economic collapses in history?"
- » "Why are the politicians in both the Democrat and Republican parties now spending trillions of dollars more than the government takes in? And why aren't they afraid of runaway inflation?" "Why are the central banks all over the world talking about creating their own digital currencies?"

These are the kind of questions that we grapple with every week in the Economic War Room® but are ignored almost everywhere else.

In today's briefing, we will ask the tough questions and get the right answers.

- » We take a closer look at how the elites plan to "reset" the global economy using banks, government programs, and environmental, social, and governance (ESG) metrics.
- » The goal is to put substantially more economic and social power in the hands of large corporations, international institutions, banks, and government officials.

This is a serious threat and the Economic War Room has brought the best minds together to build real solutions. Also, **Kevin Freeman shares Economic War Room's the top five strategic initiatives to help prevent The Great Reset!**

Your Mission: To understand and STOP the Great Reset agenda. You cannot afford to fail this Mission.

“Question everything. Never stop asking questions.” - Albert Einstein

Ep. 5-176 (OSINT) Open-Sourced Intelligence Report. This briefing includes conversations with Kevin Freeman and Glenn Beck. Glenn has done a great job documenting the plans in his new book, *The Great Reset: Joe Biden and the Rise of Twenty-First-Century Fascism*. Glenn Beck comes back to the Economic War Room to share his insights.

1. A look at how COVID was the perfect launching point of The Great Reset.

Never let a **serious** crisis go to waste! What's The Next Crisis?

“People always quote it. They misquote it as, ‘never let a crisis go to waste.’ It’s not. It’s “never let a serious crisis go to waste” because a serious crisis allows you to change everything!”
-Glenn Beck

A Serious Crisis Lets You Change Everything! We’ve just seen it with COVID.

We have changed fundamentally as a nation.

- » Our politics have changed.
- » The way we relate to one another.
- » Our traditions have changed.
- » Everything has changed because of a serious event.

“It’s not just a crisis, it has to be a serious one. And **we are in for a load of serious crises coming our way, especially financially, and they are already preparing. And when I say they, I mean the global elitists.**” -Glenn Beck

“A year and a half, two years ago, I started seeing this and I thought, ‘No, this can’t be, I mean, that’s crazy.’ And I didn’t really understand it. I didn’t know the motivation behind it.

It’s a very large octopus, if you will, that has so many tentacles that reach everywhere. Once you get it, once you understand it, all of a sudden it’s like the Rosetta Stone, it just unlocks all doors.” -Glenn Beck

Now it all starts to make sense.

Everything is then logical. You're like, "Oh, that's why they're saying this. That's why they're doing this. That's why the money is going here." It's very clear.

The things we are seeing are planned in advance. Look at the World Economic Forum. Event 201 was their plan for the pandemic, and now **they're preparing for the next couple of crises.**

"They talked about in that all the things we saw take place – lockdowns, sending checks, vaccine mandates, all mail-in voting, and they did it all by executive order. In other words, they put in dozens of things of the Great Reset in their wish list as their response to the serious crisis of COVID." –Kevin Freeman

Now they are doing another war game. "That Event 201, it's not a conspiracy. You can find all of it online on YouTube. They're proud of it. And I'm not saying that they caused COVID or anything else. It was just amazing timing that they did that in September." –Glenn Beck

By January, the president was asking for a plan. Well, what do you mean? Shut it down. How do we shut it down? And that's when the Federal Reserve walked in and said, "This way." And it had all been war gamed.

WARNING: THE NEXT CRISIS, A FINANCIAL WAR GAME IS IN THE WORKS.

There is another war game that just happened, and it is a financial war game.

"I think, 19 countries together, basically, the entire West. It brought together the central banks, the IMF, I can't remember all – but all of the banks, all of the central banks, and many of the leaders and our treasury secretary. And they spent 10 days war gaming an economic meltdown." –Glenn Beck

In the War Game, they said the cause was cyber-attacks.

- » But then people started getting misinformation and people started withdrawing their money, which was worse.

- » In the War Game, they had to shut people up on telling them what to do, so they could centralize the information.
- » They could not let this reckless “fake news” out so it wouldn’t destroy the global financial market.

What they constructed includes changing major currencies:

Glenn shared it was something like, “An orderly canceling or changing of major currencies.”

AN ECONOMIC MELTDOWN?

ATTENTION: They just released this. This report came out just a couple of weeks ago in Reuters, and it spells it all out.

- **It is the Great Reset in hyper-drive.**
- **They are now war gaming for when we have an economic meltdown.**

“They have to have this fairly soon because the pushback politically is so strong. People are so angry over the lockdown. I mean, I’m not saying COVID wasn’t a serious disease. I had it. It was serious. You’ve had it. People have died, I’ve lost lots of friends. But what the response was, and how bad it has been... I’ll tell you, people say this is such an incompetent administration. I don’t think they’re incompetent. I think it’s all planned. I think they have to have everything go wrong so they can take total control.” –Kevin Freeman

What concerns me about the economic plan, as I watch the stock market fall apart. You watch what’s happening in the stock market and then you just add two things.

- A. The Fed is raising interest rates,**
- B. The Fed is tapering the massive asset purchases.**

“Those things from the Fed could stop the heart. And I think they need to be done. But we are not in a condition to do it now. The time to do that was when Trump was in office. Not now.”

–Glenn Beck

2. Why the coming Great Reset is such a danger to Liberty.

It's a fascist approach to the redo of capitalism led by political and corporate regimes.

The Great Reset is this – we started hearing it COVID, “we’re going to need a great reset.” We also heard, “we’re never going to return to normal. It’s the new normal.”

What that means is very carefully crafted public/private partnerships with global corporations and countries, Western countries, and all of the banks. It is, in their own words, a complete redo of capitalism.

BEWARE OF THE CAPITALIST TERMINOLOGY

They're using capitalist terms like stakeholder capitalism. But once you understand what stakeholder capitalism really means, **it's not communist. It's not socialist. It's fascist.**

The government doesn't actually own anything and doesn't directly tell people what to do. Instead, what they do is they set up this system called ESG. And those companies that have a high marking in their scale of ESG, which means environmental, social justice, and governance get rewarded. The others get punished.

E = Are you doing good things to make the planet green?

S = You are teaching people to be less white. That's social justice.

G = You have the right people on your board (as determined by gender, sexual orientation, skin color, and race). That's governance.

What The ESG Scoring Really Means to you personally:

The Reality: If you don't have high scores as based on the criteria from them:

(A) You're not going to be able to get a loan from a bank – and it goes all the way to you personally and your personal bank giving you an auto loan or a mortgage, certainly a business loan.

- » If you're not with those three things (ESG), you will not get a loan and the excuse will be, "Well, you're a risk to the bank, because somebody could cancel you or you don't have a plan and the whole world is moving in this direction." And so, you're going to be left behind.

It is absolute fascism and it is in all of the big banks right now. They're pushing it.

"Kellogg just came out today and said regarding breakfast cereal, 'It's really important that we're ESG compliant.' What are you even talking about? It's insidious. It's absolutely insidious." -Glenn Beck

(B) It will change your life entirely from what you eat to where you work, how you educate yourself, what you say out loud, what you post on social media.

- » All of it will be affected by this and your life – you become like a Chinese citizen. You will do what the state tells you to do.

ALERT: Glenn believes right now it can be stopped, but America needs to stand together.

Soon it will not be able to be changed. We are at the end of the beginning of ESG and The Great Reset.

IN ADDITION TO ESG, BE AWARE OF THE OTHER WEAPONS BEING LEASHED AGAINST US THAT INCLUDE:

- » The Climate Agenda
- » The Green New Deal
- » Modern Monetary Theory
- » Control of Currency
- » Programmable Money

3. It's time to understand The real reason Big Government wants to track all bank accounts of \$10K or more.

It's not tax cheats, it is about complete control of production, labor, and the consumer.

A Closer look at Modern Monetary Theory

"We are actually, as a nation, operating under the first part of MMT, which is print as much money as you want. It doesn't matter."—Glenn Beck

Governments that can print their own currency can print their own money, and you don't even have to pay for it. **You just have to be able to control inflation.**

Glenn goes on to explain, what do you mean control inflation? Well, that's where digital currency (Programmable Money) will come in:

- » This is why Congress was talking about passing a bill with – if you have and spend \$10,000 over a year period (which is pretty much everyone, including almost the homeless), then the bank can give the federal government full clearance to look at your bank account real-time.
- » They said that's because people are cheating on their taxes. That's not what it is. It is because the second half of MMT is once you have to control the companies, you have to be able to control production and labor, and most importantly, you have to control the consumer.
- » The idea with MMT is you can print as much as you want. And if you start to see inflation, then the government has to go to these public/private partnerships in the private sector and say, "Hey, you need to make more or less of this widget." And then they get them to do that.
- » If the company's board says no, then stakeholder capitalism is enforced. The one stake that you don't hear about is the golden stake, which the government holds, which says, yes, you will. And if you won't do it, we'll fire everybody on the board and we'll replace all of you. You are doing it. And then make sure that the right people are buying the right thing.

“So, if you have inflation on cereal, you know what? You had enough cereal. We want to make sure that the people who are the right social justice people have cereal. Your kids aren’t going to have cereal. Your digital currency will now no longer allow you to buy cereal. That’s what’s coming.” –Glenn Beck

ACT NOW: In the Economic War Room, we talk about Programmable Money a lot with input from some great thought leaders. We developed a real solution that needs everyone’s support Be sure to go to <https://www.economicwarroom.com/money> and sign the petition.

Glenn nailed it. All of these things that they are talking about and the climate agenda, Green New Deal, that’s just a way to suck up money and send it to places that they want to have it.

“Kevin, what’s really frightening is the elite, they truly believe they are so far above us that they’re not going to be held accountable for anything. And that’s why I think that cage that they’re building is so important, because:

- › If you don’t put people in a cage, when they find out, the people who really believe in global warming, find out that all you’ve been doing with this ESG thing is making these big companies and these politicians rich, it’s pitchforks and torches.
- › Same with social justice.
- › Same with everybody who doesn’t believe any of that.

But now you’ve put me in this cage and now you’re getting rich and I am changing my life? Why? When does that really happen? Tech, governments, businesses, banks are all in deep, deep trouble. That’s why it comes with a cage.” –Glenn Beck

4. Kevin Freeman outlines specific Economic War Room solutions to the Great Reset that need to be done now!

“Can’t wait. Can’t wait. Go. Lay them on me, brother. We have 11 solutions, I think, that we have presented, but I am bluffing. I’m not you. You know, and you have consulted people. But whatever the solution is, now is the time. You cannot wait. Now is the time. So hit me.”—Glenn Beck

Little actions by people all across America can make a difference. To win this battle requires local, it requires liberty and it requires living.

A. It’s about the small ships. It is about YOU!

- » Our first thing is to – all our economic warriors, all our audience, we tell them they’re the small ships of Dunkirk. **Their little actions together can wake up America. This is about each of us standing together.**

B. Go Local, with your Investment Advisor.

- » Glenn shared the importance of Local in his new book. The local version of Wall Street is the independent financial advisor. They may work for a big company, but they know ultimately, deep down, **they work for the client.** They don’t work for Merrill Lynch or the big firms.

We offer people a choice to ESG. We call it **LSV: Liberty, Security, and Values.**

- » We’ve done polling, John McLaughlin and others have polled for us, and LSV polls are off the charts.
- » Nobody really wants ESG and the advisors are only giving it because they think people want it.
- » And so, we’re training via Liberty University, 10,000 financial advisors that we’ve identified with \$1 trillion of investment capital.
- » They know their clients want LSV. They want to divest from this ESG that’s being crammed down on them.

We think this is a huge movement. It’s just launching after more than a decade of preparation.

Look at West Virginia, New Hampshire, and Texas. They have just passed laws. They won't do business with like BlackRock. They won't do business with some of these leaders of ESG.

The NSIC Institute is training people to look for those things.

- » We're helping raise up index funds that do not vote woke. So, the problem is we give our money to Larry Fink at BlackRock and we give it to State Street and Vanguard. But it's the proxy votes that count.
- » We're bringing up people that know how to run mutual funds, that will create index funds, that will not vote woke. You can invest the same way, but you don't have to worry that your votes are voting against your interests.
- » There are a few of them now. Second Vote is here. Dan Grant, David Black, and their team are great people, but we need more like them. Timothy Plan with Art Ally will not go woke.
- » We have people all the time that say, I want to build one of these alternatives to ESG. Great, what do you need? We help them get what they need.

"We opened, just north of Dallas/Fort Worth, an 80-acre training facility where we'll have in-depth training for advisors. We'll have conferences. And in fact, one of the conferences that we planned is the third solution We've launched a movement for constitutional gold-backed digital currency issued by states." -Kevin Freeman

C. A constitutional gold-backed digital currency issued by Texas—Economic War Room shares the legal pathway for this hedge against inflation with your money. It can happen quickly.

- » The problem with gold as a transactional currency is it's hard to fractionalize.
- » Also, it's taxed. But Article 1, Section 10 of the Constitution basically says, "No state can make anything legal tender in the state other than gold and silver coins."
- » We want to add the blockchain, which allows you to digitize it and fractionalize. Next, we stand up and tell the federal government they cannot tax sovereign-state-issued legal tender. Legal tender is not income, it's not a capital gain. It is a constitutionally issued currency that people are transacting with. One of the problems with Bitcoin is that it is taxed as an asset.

"Kevin, you know how I feel about this. I mean, it's one of the reasons why I live here. Texas did get all of its gold back from the Federal Reserve. And if you're living in a state that thinks you're going to weather this and you don't have a way, at least to have your state trade in something that has actual value, you're in trouble, real trouble." —Glenn Beck

Economic War Room is moving this forward!

"We're maybe, well, best case one year away, but I think we can do it pretty rapidly because the demand – just like The Great Reset– of extraordinary times creates the opportunity for extraordinary measures." —Kevin Freeman

- » Texas has set up the bullion depository, Kevin Freeman's friend and State Rep Giovanni Capriglione created that and that is covered in Kevin Freeman's book *Game Plan, How to Protect Yourself from the Coming Cyber Economic Attack*.
- » We've talked with attorneys. We've talked with various people in the government, including some leading candidates for Attorney General, both Ken Paxton and Louie Gohmert.

- » We've talked with former Senator Jim DeMint who now heads the Conservative Partnership Institute. He loves the idea.
- » We've talked with a number of people in other states who say they're planning to enact it. I think this is one we can win.

What it does is it changes everything because it removes the digital dollar as a competitor, because if you can have it gold-backed! Money always goes where it's treated best.

If it's gold-backed and you can own gold without worry of taxation, we're going to see so much money flood to Texas, which means Oklahoma is going to do this, which means New Mexico is going to want to do it. Florida is going to want to do it. Once it gets started, we offer a tangible alternative to this extra-constitutional fiat money printing by the Federal Reserve.

- » Glenn Beck has been invited to participate in our conference and help get the word out as well. We're going to bring the top minds that know exactly how to execute this idea through blockchain and legal channels.

"I will tell you, we released the book, and within two weeks we have seen states already start to move legislation to stop The Great Reset and stop these banks. **When people understand what's right ahead of us, I think you can move quickly.**" –Glenn Beck

D. New technologies with Clean Energy and Water that help impact climate hysteria and actually can create a better world.

Clean Energy

- » One of the problems with solar power is it's bad for the environment if you put it on the ground, but that's terrestrial solar.
- » But we're working with Lieutenant General Stephen Kwast (Ret) and others to push forward space-based solar that you beam down. It's clean, it is independent from the issues, and it doesn't let you control all the people. It's on the drawing boards.

Clean Abundant Water

- » General Kwast and Major Stuckenberg are working on a plan to solve the world's water problems pulling water from the air at an efficient cost. That has never been done before but is now ready for market.

Through Innovation and free markets, we have the potential to solve two of the biggest environmental problems talked about today! If we have a trillion dollars of capital, we'll be able to fund other great technologies to improve the lives of people around the world. That meets the criteria of "E" without violating Liberty, Security, and Values!

E. A new movement and tools to stop congressional insider trading.

- » We need to remove the payoff mechanism for our representatives and disincentivize their push for The Great Reset.
- » Watch for our campaign and new electronic tools to raise awareness and push back against those enriching themselves in politics while hurting America.
- » WATCH OUR NEXT EPISODE TO TAKE ACTION TO STOP DC GREED.

Why You Should Care:

- » An Economic Meltdown - The Great Reset is being planned and executed against you now!
- » The Great Reset really is fascism.
- » There is a complete strategy and globalist movement to change the way you live and take away the freedoms you enjoy.
- » We have one chance to stop this and it is NOW!
- » The Climate Agenda, The Green New Deal, Modern Monetary Theory, Control of Currency, and Programmable Money are all weapons used by leftist globalists against you.
- » Stakeholder capitalism is a code word to The Great Reset, it is not capitalism.
- » There are real solutions to stop The Great Reset and each of us needs to stand and work together to defeat these efforts.
- » Forget Liberty, The Great Reset is focused on controlling the companies, then controlling production and labor, and ultimately controlling the consumer.
- » Weaponizing your money around your values is more important than ever.
