

What Would a War with China Do to Your Investments?

Rumors of another World War being on the horizon have begun to spread. China, now an economic and military superpower, has threatened to challenge the US over territories like Taiwan. There are regular cyberattacks on US infrastructure. And the leaders of the Chinese Communist Party have made it their objective to de-Americanize and de-dollarize the world. As America continues to protect her international interests, tensions increase. It begs the question, "what would happen if America went to war with China?" We believe China is already at war with us. [See the cover story written by Kevin Freeman for *The CounterTerrorist* magazine in 2011.]

In this briefing we will discuss the following:

- » Investments in WWII Germany
- » China, the Modern Threat
- » The Cold War with China
- » China's Escalation
- » Funding China's War Machine
- » Preventing War & Protecting America

YOUR MISSION: Understand the threat of war with China and what can be done today on national, international, and individual levels to either prevent it or to protect your family from it.

⚠ ATTENTION: The Chinese Communist Party is ramping up their military in preparation for a hot war with the US, and the American economy continues to fund their efforts.

LESSONS IN HISTORY – American Investments in WWII Germany

It's 1936. America is in the middle of the Great Depression. As your family struggles to make ends meet, rumors of increase and economic prosperity in Europe have made their way across the "great pond."

Germany, a nation once crippled from the Great War has become an economic powerhouse. Where people had been starving in a depression worse than anything America had experienced, rumor had it that they were now thriving. New jobs were opening daily? The populus sprung out of poverty and into industry? It was inspirational. Many Americans began to support this

new German regime through investments and enjoyed the 'Made in Germany' products that became increasingly affordable.

The Summer Olympics were held in Berlin and many of America's corporate and political leaders applauded Adolf Hitler and his new regime for discipline and focus. The Nazi party was well-regarded by many in Washington D.C. and had impressive influence on college campuses and the boardrooms of America. Massive amounts of money flowed into Nazi Germany from American investments and business deals. The only nation in the world that saw more American support was Great Britain, America's ally from WWI.

The Nazi business strategy involved privatizing companies under strict government control. This change, paired with the industrious nature of the German people, attracted foreign capital as it was a terrific way to see investment gains. Even after there were warnings that the Nazi's were committing atrocities, money still poured in.

“As soon as Hitler assumed power in 1933, Americans had access to information about Nazi Germany’s persecution of Jews. Although some Americans protested Nazism, there was no sustained, nationwide effort in the United States to oppose the Nazi treatment of Jews.” –United States Holocaust Memorial Museum

Knowing of such atrocities, the American people continued to support the Nazi economy with their consumption. Wealthy Americans even invested in German companies like Volkswagen, Mercedes, BMW, and Audi, car brands we still see today.

However, it would be only a few years before Hitler and the new National **Socialist** German Workers’ Party (Nazi) would invade Poland and begin the conquest of Europe. What companies built the German war machine? The four major automobile companies each played a role. Volkswagen and Audi used concentration camp slave labor to produce civilian and military cars. BMW and Mercedes were involved in the production of military aircraft and tanks. In this way, American investors funded the German war machine and are, in part, responsible for its strength.

“It was a foolish thing to fund the Nazi war machine and millions of people paid for it with their lives. It was also foolish to invest in an enemy with whom we would soon be at war. Can you imagine how those investors fared? Or how the companies that had grown dependent on Germany were crushed when war broke out?” –Kevin Freeman

Within a few years, the world would witness the most devastating war in human history. Many millions would die either in the concentration camps of the Holocaust, or in the brutal,

grueling warfare of the Eastern, Western, and Pacific fronts. Countless men and women died serving their countries. It is almost impossible to comprehend the long-term impact of such violence. To imagine all the great minds, creative inventions, and world-changing leaders who died far too young. The massive loss of human potential was unprecedented, especially after the Great War (WWI) was dubbed “the war to end all wars.”

1. Unfortunately, America has not Learned its Lesson - **China, the Modern Threat!**

WARNING: You would think America must have learned its lesson after World War II... Unfortunately, today we face what may be an even greater threat to humanity.

- » **China under the leadership of the Chinese Communist Party (CCP) has allowed a repressive and evil regime to kill people from minority groups and even to live harvest their organs for transplant.** China's northwestern region of Xinjiang is dotted with internment camps where the largest ethnic minority (Uyghurs) are being held, forced into dangerous labor, and often killed. The similarities to the concentration camps of WWII are appalling.
- » **This same nation has been preparing to wage war on America and the world.**

Sadly, America has not only been invested in China long enough to fund their rise to power, but America also continues to invest at an *increasing* and alarming rate.

The CCP has openly stated that it seeks to de-Americanize the world. Days after this statement was released, the Washington Post aired an article titled “Calm down, Washington: China doesn't really want to ‘de-Americanize.’”

Much like the Nazi regime, the CCP has massive influence in Washington D.C.

- » The CCP has many politicians in their pockets.
- » The current President of the United States seems to be compromised.
- » Top universities receive large donations from **Chinese companies**, like the **Penn Biden Center**.
- » There are even lobbying firms that represent Chinese interests in our nation's capital.

America was at war with Germany within five years of 1936. According to the courageous Air Force General, Mike Minihan, we may not have that long with China. His best guess is around two years.

“China has been preparing for a war footing. There are multiple clues that when pieced together suggest that a combination attack plan using economic pressure, technology, and physical invasion to assert Chinese dominance in Asia and ultimately over the planet. It is no longer acceptable to naively overlook this reality.” –Kevin Freeman

This quote is from 2018, in that same year Kevin testified in congress. You can watch a clip of Kevin’s testimony here: <https://youtu.be/8HiEWvZVOqU?t=3986>

2. The Cold War with China

Kevin Freeman predicted that Chinese belligerence could be expected between 2019 and 2029. A review of what is happening now.

✳️ **The Pandemic:** Near the end of 2019, rumors of a pandemic (leaked from a Chinese lab in Wuhan) began hitting news outlets around the world. Within a few months the world was plunged into lockdowns, mask requirements, travel bans, and vaccine mandates.

“Some of the most heinous attacks on liberty in this century started because of one lab in China.”—Kevin Freeman

- » The CCP was aware of this threat and not only hid this information from the world.
- » They also intentionally allowed it to spread and prevented the world from responding to the pandemic quickly.

While it has taken a long time for Americans to accept that China is at war with the US, the last three years have woken many people up to this solemn truth. As of yet, this war has been a cold one, behind the scenes through economic and technological channels.

Now, China is beginning to escalate the situation and threatens violence if America does not back down in Taiwan. They warn that war is inevitable.

In 1936 Americans had time to turn away from Germany and prepare for the coming war. America is running out of time with China.

WARNING: We may not have much time left before it is too late.

» Even the New York Times has noticed the risk of war with China. A February 27, 2023, they published a piece entitled: “A War With China Would Be Unlike Anything Americans Faced Before.” It opened with the following:

- “A major war in the Indo-Pacific is probably more likely than at any time since World War II. The most probable spark is a Chinese invasion of Taiwan.”
- The article then describes the Chinese plan for Unrestricted Warfare where they will target the American economy, infrastructure, and health. Nothing is off limits.

» The CCP and the People’s Liberation Army (PLA) have already proven that civilians are as much a threat to them as any military. They will employ the use of many weapons to target the American people, without a second thought.

Some potential weapons include:

- Cyberattacks
- Propaganda
- Media Warfare
- Electromagnetic Pulse (EMP)
- Supply-Chain Disruptions
- Public Health Crises

ALERT: As real as this threat is, America continues to support the CCP financially, just like America supported the Nazi economy.

“[According to China,] we are supposed to roll over and let them do what they want in Asia and around the world. If we don't? It means WAR! This is becoming increasingly obvious to anyone who cares to look.” –Kevin Freeman

3. China's Escalation is Happening Now.

China has begun to escalate the conflict and increased the tension in their relationship with the US.

On March 7, 2023, Zero Hedge reported:
“China's foreign minister said that the US should change its 'distorted' attitude towards China or 'conflict and confrontation' will follow, while defending the country's stance on the war in Ukraine and defending its close ties with Russia.”

This is a direct threat of violence. The CCP has made it clear that if the US tries to interfere in any of China's interests, the Chinese response will be hostile.

China is Attacking the American Dollar

China's foreign minister went on to make more statements of China's intentions for Taiwan and their desire to challenge the Dollar.

- » This year, China has brokered deals with multiple nations to handle all their trade agreements in their own currencies instead of the American Dollar.
- » This is only the beginning of China's plan to remove the US Dollar from its place of supremacy in global trade.

From Fox News, Wednesday, March 29, 2023, Marco Rubio shared, “they are creating a secondary economy in the world totally independent of the United States... We won't

have to talk about sanctions in five years because there will be so many countries transacting in currencies other than the dollar that we won't have the ability to sanction them.”

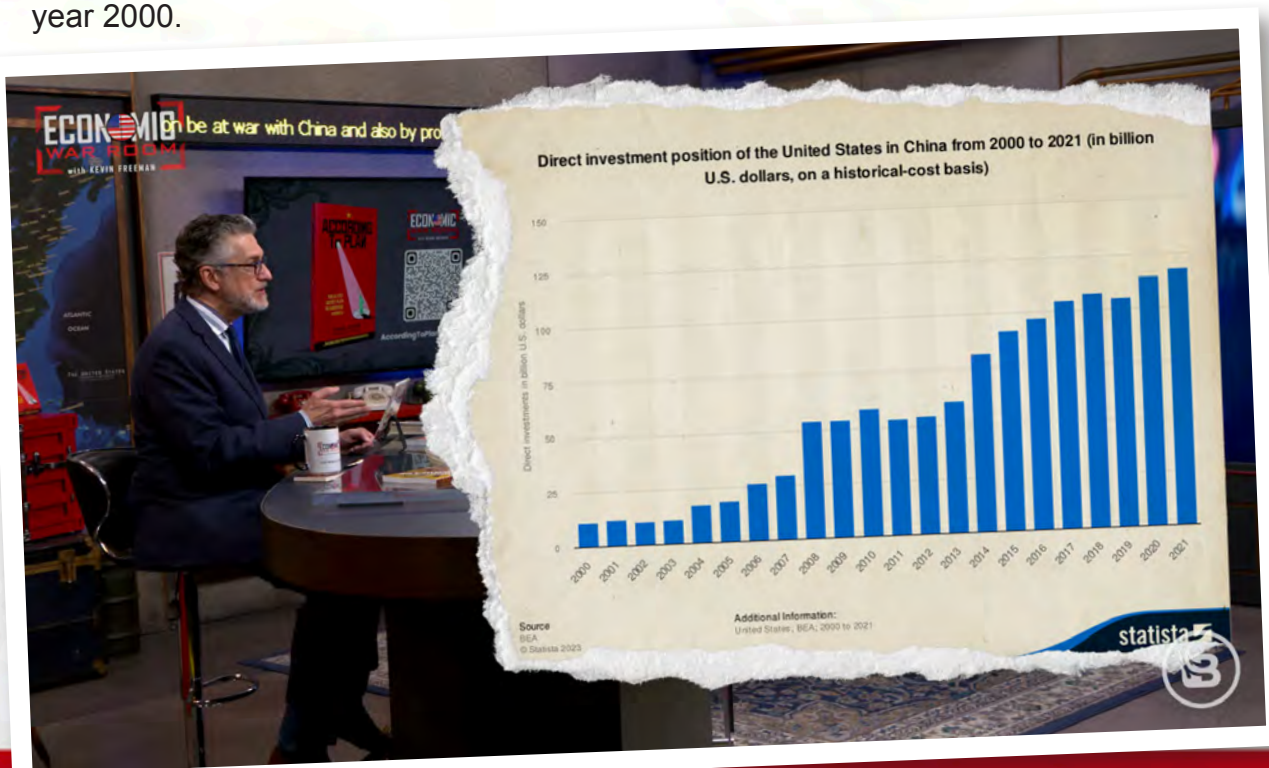

- Without the ability to sanction nations, the US would be limited in its response to actions by foreign powers that threaten America or her allies' interests.
- This would cripple the US's foreign affairs as the mighty hammer of the American dollar would no longer land a blow.
- Instead, the US would be forced to resort to more serious threats... and conflicts would escalate.

⚠ WARNING: This is exactly what China wants... War!

“China: Let us do what we want, or WE WILL start a hot war.” – Kevin Freeman

4. Funding China's War Machine

While China is gearing up for war, Americans continue to fund their expansion. Here is a chart from Statista which analyzed data from the Bureau of Economic Affairs. The data compiled shows direct investments from Americans into China since the year 2000.

Not only is America still funding China, but it is also investing more money each year... and the trend does not show this likely to change.

**\$400 Billion of Foreign US Investment in China.
REALLY? WAKE UP AMERICA!**

According to [ForeignPolicy.com](https://foreignpolicy.com) nearly \$400 billion of new foreign investment into China in 2019 came from changes in the American benchmark indexes. Many Americans will be invested in funds like these through their retirement funds, pension plans, or personal investments, perhaps not even knowing they are funding China.

The average American has no say in how these funds are allocated, the elites who manage these funds make those decisions.

⚠ Attention: While China is ramping up for war, America is ramping up its investment in China.

One of the largest sectors America has invested in is Chinese innovation. Instead of funding American entrepreneurs, investors have supplied China with the funds necessary to develop new technology and gain an edge in Artificial Intelligence and other sectors that can have military applications.

In February of 2023 Emily S. Weinstein and Ngor Luong published a report in the Center for Security and Emerging Technology.

They claim that “Based on available data in Crunchbase, between 2015 and 2021, 167 U.S. investors participated in 401 investment transactions—or 17 percent of global investment transactions—into Chinese AI companies. Collectively, observed transactions involving U.S. investors totaled \$40.2 billion invested into 251 Chinese AI companies, which accounts for 37 percent of the \$110 billion raised by all Chinese AI companies.”

This means America is not just mildly funding China, it is one of China's largest backers.

While it may come as a surprise, in Sun Tzu's famous work *The Art of War*, there is no mention of a strategy in which a leader should fund and empower a future enemy.

Because of this absurd misplacement of American wealth, the Information Technology and Innovation Foundation recently warned:

"Wake Up, America: China Is Overtaking the United States in Innovation Output."

"A few years ago, many in the Pentagon and even close friends told me that China was not and would never be a threat. They pointed to America's vastly superior naval power... but now, according to our own Secretary of the Navy as reported by Fox News on February 23rd of this year: 'It is no secret that the People's Republic of China seeks to upend our dominance on the oceans across the globe. The People's Liberation Army Navy has added over 100 combatants to its fleet... a naval buildup that is a key component of its increasingly aggressive military posture globally.' This possible shift in naval dominance, Del Toro warned, 'could begin to reshape the world order.'"

–Kevin Freeman

As America has enjoyed the luxuries of power, it has allowed its military production to wane. What was once a mighty naval industry has now been dwarfed by a Chinese shipbuilding system that churns out five new warships in the time it takes the US to produce one. The American fleet is shrinking, while China's is expanding... and the US is financing it.

4. Preventing War & Protecting America

A. It is not too late. There are six things America must do at the national and international levels.

1. **America must cease all funding of China.** This could rattle the already questionable Chinese economy and perhaps prevent war on its own. This requires that the US block the Thrift Savings Plan from investing in China like the Trump administration did before the Biden administration reversed it. This would require Congressional action, corporate action, and private meetings to pressure and influence those in power.
2. **America must root out, expose, and eliminate Chinese infiltration.** Peter Schweizer has brought attention to Chinese control over many of the elected and unelected officials in the US government. Compromised individuals must be removed from office and punished for their treachery. At the same time, it is imperative that the US shut down any and all Confucius Institutes or their equivalent on college campuses and eliminate Chinese funded research at American institutions.
3. **America, and the rest of the world should demand reparations from the CCP for the maleficence in their handling of the Covid pandemic.** The virus was leaked from a Wuhan lab, the world should be demanding China cover the cost. While China will not pay, it will develop a sense of camaraderie with other nations that were negatively impacted by the pandemic... everyone.
4. **In conjunction with steps 2 and 3, America must root out Chinese influence in international organizations like the World Health Organization.** China has attempted to use Joe Biden to surrender US sovereignty to the WHO. This organization must be cleansed, and China's inhumane influence therein must be purged.
5. **The US dollar must be strengthened.** This would require a proper energy policy. Current green energy policies, which fund Chinese solar and wind companies, are simply foolish, unaffordable, and dangerous. Instead, American pipelines and internal energy development is necessary, exporting as needed for allies. In addition, a sensible budget would be a unique and pleasant surprise from the US legislative body. With \$32 trillion in Federal debt, America is in need of growth policies that restrict Federal spending.

6. **“If you seek peace, prepare for war.” America must build up her own defenses.** One essential component is to review the supply chains for industry and replace Chinese components. Most of American medicine is made overseas. America does not manufacture semiconductors. Modern technology requires rare earth minerals. This will also require the protection of the US electric grid from EMP or cyberattacks.

“Overall, it will be a huge undertaking and we haven’t much time. But if China sees our resolve, we may actually avert war, rather than cause it. Remember peace through strength? It’s time for that again.” –Kevin Freeman

 **Warning:** America IS NOT on a war footing and China is. It is not too late to change course, prevent war, and save America!

With the threat of an imminent war with China, there are steps that can be taken to ensure peace and prevent a catastrophic war for world domination.

B. At the individual level, Americans can also help save America and preserve the liberty she protects.

1. **Resolve to stop investing in Environment, Social, Governance (ESG) that weakens America.** **Environment** is really the Green New Deal of solar and wind that directly funds China. **Social** weakens American culture with Woke ideology. **Governance** is a Woke quota agenda that weakens American industry. Instead resolve to invest in **LSV—Liberty, Security, and Values.**
2. **Resolve to get a National Security Investment Consultant (NSIC) trained financial advisor.** The NSIC trains advisors at Liberty University in an 8-week online course. Our goal is to train 10,000 advisors who would represent \$1 trillion of American capital. Investors want to support their family and their country as the

top two objectives for their investments. But they need help to do so. The NSIC Institute is our effort to get you the help you need. If you have a financial advisor, stockbroker, CPA, financial planner, insurance agent, send them to us. Learn more at NSIC.org. If you don't have an advisor, contact us at NSIC.org and we will try to help you find one. We don't provide investment advice or recommend investments. But we would love to help you find a professional who can work with you and help you weaponize your money in this unfortunate economic war.

- 3. Start looking for ways to invest in American innovation.** On this program we have featured some amazing patriotic innovations. For example, Lt. General Steven Kwast in Episode 229 discussed a "Monster Garage" in space where we could build satellites for a fraction of the cost of building them terrestrially and then sending them to space. Instead, send up the materials and build them in space. China is doing that, and we need American innovation there also. There are many opportunities to invest in the innovations of patriots.
- 4. Individuals need to prepare their money for the risk of a coming war.** If China plans to destroy the US dollar, what is an alternative?

In the Economic War Room®, we have been working on Transactional Currency, using gold and silver, based on Article 1, Section 10 of the US Constitution.

IMPORTANT: Go back and watch Economic War Room episodes 234, 224, and 192, and/or read the Economic Battle Plans™ to learn more.

ATTENTION: While the threat of war with China is very real, it can be prevented!
You can take action today to save America!

America is a nation founded on the principles of individual liberty and freedom where the government was to be of the people, by the people, and for the people. This was the case throughout our nation's history as individual Americans came together to stand up for what was right regardless of the personal cost. It was this nation and the spirit of her people and allies that managed to overcome the Nazi onslaught and bring about victory for democracy.

The American economy must remove itself from Chinese investment, so as to remain in the control of the American people and not any foreign power that could ever seek to attack the US, or to control or subdue the American people.

WHY YOU SHOULD CARE

- » China is ramping up for war with the US and we are funding them!
- » Greedy elites are using your money to fund their insidious plans.
- » Economically ill-informed Americans are supporting dangerous 'solutions' that actually fund China's war machine.
- » The threat of a hot war with China is increasing rapidly.
- » There is a solution to save America and protect your family.
- » You can help prevent war with China.
- » Winning the Economic War with China will ensure liberty is protected for generations to come.

It's Time to Light the Beacon!

"We need to reestablish Liberty in the United States and export it to the rest of the world like our founders intended." – Kevin Freeman

America has been a bastion of hope, opportunity, and most of all liberty to the rest of the world for centuries. Without American innovation, the world will go dark. Now more than ever it is essential that we, the citizens of this great nation, keep the beacon lit.

ACTION STEPS:

1. **STOP** investing in ESG.
2. **STOP** Funding China with your investments and purchases as much as possible.
3. With your elected federal representatives, call them and hold them accountable. Send them this Economic Battle Plan™ and ask them what they are doing to stand for America and liberty!
 - » Elect Politicians that understand the China threat and the CCP's infiltration in America.
 - » Encourage and ask your elected officials what they are doing to get reparations for the economic attack with the pandemic.

- » Make sure your elected representatives stand against China's influence with the W.H.O.
- » Ask them how they are working to strengthen the dollar, reduce government debt and get us back to energy independence.
- » Ensure they support America's strong national defense with the China threats we are facing, more on being prepared for war vs DEI initiatives.
- » Ask them to review our industrial supply chains and replace Chinese components. This includes most of American medicine is made overseas. America does not manufacture semiconductors. Modern technology requires rare earth minerals. This will also require the protection of the US electric grid from EMP or cyber-attacks.

These are big issues, if your representatives are not aware and working toward solutions directly or indirectly based on their committees, hold them accountable!

4. **The Dollar is being attacked. We want to see the dollar stay strong with the acting on the items of above. We also believe it is good for Americans to diversify and have other options to pay with transactional gold. Prepare your money for the coming war.**
5. **Your support for Texas Transactional Currency is critical!** In less than 60 seconds you can let all of our Texas officials know that you want this bill to pass in the state of Texas and you are ready to sign up.

[Take Action](#) and help get Texas Transactional Currency passed! This can be the model for your state. Do this now and easily share this link with friends and on social media!

Show your support for the Texas Transactional Currency Bill (SB2334 & HB4903).

To make it easy, we have launched a targeted campaign where with just a couple clicks in less than 60 seconds you can reach the entire Texas House and Senate, the governor, the lieutenant governor, the speaker, the attorney general, all the key players in Austin! Let them know you want this now!!

Take Action NOW!! It will take less than 60 seconds and you can be a key part of getting this passed. Be one of the first to get your debit card as this passes.

You can also easily share this on Twitter, Facebook, Gab, with your friends asking to them join the campaign support this Texas Senate Bill, SB 2334, and this Texas House Bill, HB 4903.

NOTE: YOU DO NOT NEED TO LIVE IN TEXAS. TEXAS CAN HELP LEAD THE WAY FOR YOUR STATE TO OFFER SIMILAR CONVENIENCE OF TRANSACTIONAL CURRENCY BACKED BY SILVER OR GOLD.

Texas already has a Bullion Depository and by allowing the use of Texas Transactional Currency average Americans can easily own gold and silver just like the wealthy do. Just as ATMs made banking accessible to normal people, this bill makes the Texas Bullion Depository accessible for all of America! **With success, your state could be next to offer this option.**
