

The Indictment: Holding Traitors Accountable

Since the founding of the United States of America, the nation has been the target of tyrannical attacks that have threatened the fabric of the union and the rights it is sworn to protect. The greatest threat, as seen by the founding fathers, was always an internal one. Today, the fears of generations past have become the present nightmare, members of the US government have turned against the people and sided with a tyrannical foreign power.

For over a century America has served the world as the nation that would come to the aid of its allies in the defense of freedom and democracy around the world. However, were America to be the nation under threat, it is doubtful any other nation would have the means or desire to come to her aid. The US has allies for as long as it has influence. Americans must act now to defend America and the liberties it affords and protects. If America does not stand up to the tyrants, no one else will.

In this briefing we will discuss the following:

- » The Chinese Threat
- » Preparing the Battleground
- » Sovereignty Coalition
- » The Indictment & How to Save America

YOUR MISSION: Learn about the threat the CCP poses to your freedom and what you can do to fight back and preserve American liberty for generations to come.

⚠ ATTENTION: China has been preparing for this war with America for decades, it is time to fight for liberty and cleanse the US government of CCP sympathizing elites. Everyone must be held accountable for their crimes against America and humanity.

Ep. 6-238 (OSINT) Open-Sourced Intelligence Report. This briefing includes a conversation between Kevin Freeman and Frank J. Gaffney Jr., a friend of the Economic War Room® and a patriot.

Frank J. Gaffney is the Founder and Executive Chairman of the Center for Security Policy in Washington, D.C., a not-for-profit, non-partisan educational corporation established in 1988. Under Mr. Gaffney's leadership, the Center has been nationally and internationally recognized as a resource for timely, informed, and penetrating analyses of foreign and defense policy matters.

Mr. Gaffney is the host of Secure Freedom Radio, a nationally-syndicated radio program heard weeknights throughout the country. He is an associate author of highly acclaimed *Shariah: The Threat to America* and the publisher of over a dozen other books and monographs from the Center for Security Policy Press. In April 1987, Mr. Gaffney was nominated by President Reagan to become the Assistant Secretary of Defense for International Security Policy, the senior position in the Defense Department with responsibility for policies involving U.S.-USSR relations, nuclear forces, arms control, missile defense policy and U.S.-European defense ties. He acted in that capacity for seven months during which time, he was the Chairman of the prestigious High Level Group, NATO's senior politico-military committee. He also represented the Secretary of Defense in key U.S.-Soviet negotiations and ministerial meetings.

THE CHINESE THREAT

WARNING: China has declared a cold war with America. Over the last few years tensions have escalated and a hot war could be on the horizon.

China has been preparing for war with the US for decades. With the release of *Unrestricted Warfare*, a title authored by Chinese PLA officers, it was made clear that China intended to overthrow America and her reign as the world's superpower.

Why does China want to destroy the US?

It is their expressed goal to become the dominant superpower of the world so that they can occupy fertile lands around the globe to provide for the Chinese people. Much like Hitler's dream of an Aryan world, the CCP has developed a vision of a Chinese one. There is just one problem. America!

America has ousted every foreign power that has made any attempt at world domination. Learning from the mistakes of those who went before them, the CCP seeks to snuff out the US to make room for its global dominance.

“It didn’t just emerge. This has been building for decades because the Chinese Communist Party have had it as their plan to dominate the world. And they’ve always understood that we’re the principal impediment to their doing so. So, we had to be destroyed starting decades ago before they had anything remotely like the power to destroy us the old-fashioned way in a shooting war.” –Frank Gaffney

Twenty-five years ago, China was in no shape to challenge the US, but its vision was already set. Decades of preparation and intentional subversion have allowed China to grow powerful in the shadows while America began to become comfortable and weak.

China has not only hidden its power, but it has also used America as its benefactor.

“The help that the Chinese Communist Party has received from the financial sector in the United States, especially because it has enabled almost all of the rest of it, the political warfare, the subversion, the elite capture, the taking down of our military, the biological warfare. I mean, all of these are things that the Chinese Communist Party and its friends have perpetrated against us. And what we try to do is make the case that they should be prosecuted for having done so and punished appropriately.” –Frank Gaffney

For a more in-depth study on the Chinese threat see [episode 237](#) where Kevin Freeman teaches more about the goals and strategies of the CCP and what America must do to prevent a shooting war.

 **Attention: China is ramping up for war with the US to begin its campaign for global domination.**

1. Preparing the Battleground, The CCP Threat!

The CCP's main goal is to conquer the world so Communist Party Members can spread out and enjoy the fertile soils of foreign lands like the Americas and Europe.

- » Hitler had the same goal for Germany, but World War Two was devastating.
- » Massive loss of human life was paired with immense damage to infrastructure that required a complete reconstruction after the war, even if Germany had won.

WARNING AMERICA: China has used this as a lesson. You cannot conquer and occupy ash. Instead, **the CCP seeks to cleanse the land of opposition without disturbing the infrastructure** that would improve the lives of their occupying forces and citizens.

“If they used biological warfare to depopulate our country, they could colonize it without having destroyed a whole lot of the infrastructure that they would want to build upon.” –Frank Gaffney

Covid-19 has now been confirmed as a Chinese lab leak.

Whether it was intentional is still to be discussed. However, what we know was intentional was China refusing to prepare the rest of the world for the coming pandemic.

- » After the pandemic spread, China continued to be protected by the World Health Organization... the president of which has seen billions of Chinese dollars flow through the coffers of his departments throughout his career.
- » **Instead of investigating the source** and providing reliable and helpful information to the world, China refused to cooperate and used its **foreign assets to control and manipulate the narrative.**
- » **Millions of people died to this biological weapon, and China could have prevented it, their silence makes them culpable.**

“Deng Xiaoping, the general secretary of the Chinese Communist Party back in the early 1990s, observing that the United States had beaten The Soviet Union and the Cold War, said that a new Cold War is beginning between the United States and China, and China will win. And apparently, he instructed that illegal biological warfare program to pursue the capabilities to depopulate the United States. So that it could be colonized.” –Frank Gaffney

At the same time, China has orchestrated some of the most sophisticated modern forms of colonialism, The Belt and Road Initiative. This program is part of China’s strategy to de-Americanize the world. They provide massive loans for infrastructure projects in developing countries like Ethiopia and then, when the countries inevitably cannot afford to pay off the loan, China seizes property or favors. Entire nations are then forced to live at China’s beck and call.

✧ The Belt and Road Initiative

“In some 147 countries around the world, something called the Belt and Road Initiative, that the Chinese are building out, kind of a colonial infrastructure that enables, among other things, not only control of those nations, but power projection from them truly, a global conflict is a distinct possibility.” –Frank Gaffney

Through these programs, China has gained influence over a vast landscape and has access to territory and resources that are a genuine threat to the US if China were to declare war.

Much of the world's trade travels through contested territories where China seeks to gain political and financial influence.

- » The Suez Canal, where more than 10% of global trade passes annually, has been contested as a strategic point of interest since its construction, having been a point of contention in both world wars to prevent German trade.
 - China has begun an economic war in the canal as they seek to gain investment control over the associated businesses. Control over the Canal would grant China control over much of the world's trade but would also weaken US and NATO access to the Indian and Pacific Oceans.

Attention: China is gearing up for war and replacing America as the nation of primary influence in many strategic locations around the world.

2. **China's Invasion of US Politics - While gaining influence over developing nations and strategic points in the world are a threat, they pale in comparison to China's invasion of US politics and culture.**

The Biden administration and many other politicians on both sides of the aisle have been compromised. Actions taken by these “elite captures” consistently put the goals of the CCP above the needs and values of the American people.

While China is organizing and preparing for global domination, US elites are:

- » inciting racial and cultural conflicts,
- » attacking political opponents,
- » weaponizing the federal government against the American people, and
- » designing the decline of American culture.

This is not simply a failure to focus on the real issues at hand. **This is the intentional ignorance of the Chinese threat and a deliberate attack on the American people** with the aims to weaken and eventually disarm the populous.

A popular quote to cite from Japanese Admiral Isoroku Yamamoto, though its origins are contested, is **“You cannot invade mainland United States. There would be a rifle behind each blade of grass.”**

China seems to have made the same decision. They could not win a war against the US military, and they could not occupy a nation filled with patriotic citizens who were armed better than many of the world's militaries.

Instead, they chose to weaken the culture so much that Americans either could not fight or would not fight against Chinese occupation.

- » Traitors have already succeeded to push such legislation through in Washington state, home to Seattle... the closest major US city to the Chinese mainland.
- » Conservatives in the state may take the new law to the supreme court, but for now many variations of firearms have been banned in the state.

Disarming the people and inciting violent cultural decline is not alone sufficient for China.

They are also destabilizing the US economy. The threat against the US dollar.

- » Multiple nations have, in the last few months, decided to stop transacting in the US Dollar and are now transacting in their own currencies.
- » This massively weakens the buying power of the US dollar and the financial influence of the US government.
- » There has been no real response from the Biden administration, likely because the Biden family has received millions of dollars from CCP-affiliated firms.

China has succeeded in silencing the US response to its financial aggression around the world. **It**

is only a matter of time before they enter the next phase of their plan for global domination: control of the US.

A shooting war would be a very costly way to establish control over the US and will likely be China's last resort.

- » Sun Tzu, the famous General in Ancient China writes "The supreme art of war is to subdue the enemy without fighting." In a sense, to go to war means you have already failed to win through diplomacy or subversion. China will naturally follow this practice and seek a less violent strategy to preserve Chinese interests.

China has already begun to employ a strategy of supreme domination of the US and they're using the World Health Organization to do it.

3. The Sovereignty Coalition - Working to block Biden from giving away America's sovereignty to the World Health Organization.

China's grip on the World Health Organization began over a decade ago in Ethiopia. The current Director General of the WHO, Dr. Tedros Adhanom Ghebreyesus, was once the Minister of Foreign Affairs in his home country of Ethiopia.

- » During his tenure, Ethiopia received billions of dollars from China, deals that would, no doubt, have transpired through his office.
- » For a more in-depth study of the WHO and its Chinese affiliation check out the special episode [URGENT: Is Biden About to Give Away Our Sovereignty to the WHO?](#) This episode will also explain the true threat, the loss of American sovereignty.

It is a mission set forth by the United Nations to subject all nations and all peoples to the World Health Organization if there were to be another major health crisis like COVID-19.

- » If this were to happen, the WHO would have complete control of the American people and would have the legal ability to set laws in the US without a vote or the consent of Congress.
- » This is a massive infringement of American freedoms. The crazy thing is, **the UN wants to give the WHO the authority to declare a major health crisis. If the same organization that declares a crisis gains power and benefits from a crisis, there is a dangerous conflict of interest.**
- » This was seen in governments around the world as the leaders declared a state of emergency and then gained massive amounts of power amid the panic of the people.

“How much easier, if you want to invade America, if you locked people down in their homes because [the] World Health Organization declares another pandemic, you lock people out financially and you disarm them. You remove the Second Amendment.

And then when people try and bring a warning about this, you shut them up and say you’re not allowed to speak on social media. I mean, I’m not saying they’re going to invade, but, boy, if they want to invade, the plans that are being unfolded right now are the kind of things that you would do to prepare the battlefield.” –Kevin Freeman

Surrendering American sovereignty to the WHO would grant China direct influence over American life.

- » If the atrocious policies during the COVID-19 pandemic were not enough, under Chinese rule (through Tedros and the WHO), Vaccines could be mandated and enforced by military forces like the UN peacekeepers.
- » Businesses could be shut down. Martial law could go into effect. This is an unprecedented attack on the rights of the American people.

To prevent this threat and protect the American people Frank Gaffney and his team at the Sovereignty Coalition have drafted [The American Sovereignty Declaration](#) which outlines American sovereignty, the threat against it, and the solution: America’s exit from the WHO.

“We can’t let this happen and our sovereignty coalition is fighting back against it.” –Frank Gaffney

America must not allow any unelected or unaccountable bureaucrat to gain influence over the rule of law in the United States or our foreign and domestic affairs. The American people govern this nation, and its government should report to the people not any foreign body of officials.

The surrendering of American sovereignty would be a massive blow to American freedom and liberty around the world. It is an attempt to undermine the power of the US and it must be thwarted at all costs.

4. The Indictment and How to Save America!

Perhaps the core threat, that causes all the others to function, is the CCP strategy of “Elite Capture.” This is how the CCP can convert US elites and turn them against the US people so that they work in the interests of the CCP. Examples of such compromise are seen all over the US.

- » Board rooms of major US firms whose members were CCP funded.
- » Lobbying groups in D.C. who fight for CCP interests.
- » Politicians on both sides of the aisle take sophisticated bribes.
- » The White House now has its resident CCP assets, the Biden family.

The CCP has wormed its tentacles into every aspect of the American legal system. Frank Gaffney’s new book *The Indictment* Describes each of these issues in greater detail and outlines a solution: Accountability.

- » **Every individual who has served CCP interests is guilty of direct support of a regime riddled with human rights violations, and genocides.**
- » **For Politicians and other leaders who are supposed to represent the people have turned against us in favor of the CCP and the globalist elite. These individuals should be tried for treason.**

“*The Indictment*. It’s intended to inspire and equip congressional investigations, patriotic executive branch officials, journalists, and the public at large to review these charges and recommend actions for the surpassingly important and extremely urgent purpose of bringing to justice and taking down the Chinese Communist Party for a terrific criminal conduct past, present and that which is in the works against its own people and countless others, including ours.” –Kevin Freeman

Frank Gaffney and his team at the [Center for Security Policy](#) provide resources and information to better understand some of the threats to national security. They are a team of patriots fighting to reveal sinister plots and develop policy strategies to defend the nation.

While the threat of the CCP is very real, it is no more real than many of the threats the US has overcome in the past.

- » Together, as a nation, we can and will overcome this great evil, just as we overcame the Nazi threat in WWII.
- » Frank Gaffney’s new book seeks to provide insight into what can be done to pragmatically assess the situation and respond to save America and the world from the tyrannical CCP and the globalist elite.
- » There are solutions, and there is hope.
- » Together with Frank Gaffney and many other bright, patriotic minds, The Economic War Room® is hard at work developing new strategies and assessing new opportunities to preserve and protect the American people, their unalienable rights, and the constitution that defends them.

 **Attention: Together, we can save America and preserve the freedoms it provides for the next generations to enjoy.**

These are big issues, if your representatives are not aware and working toward solutions directly or indirectly based on their committees, hold them accountable!
