

Uniting to Save America

America is at war. She faces multiple threats as enemies of the state have infiltrated government positions around the nation. Leftist ideology has poisoned a large percentage of the population and they are polluting every aspect of American society. American patriots want to resist and save the America they love. It is time to rise, unite, and fight for liberty.

In this briefing we will discuss the following:

- » The Spiritual War
- » The War for America
- » Protecting American Values – Join the Fight
- » Elite Capture of the Federal Government
- » The Real Wealth Gap
- » Local Victories – Winning the Spiritual War

YOUR MISSION: Learn about the spiritual war that plagues the western world and what you can do to participate in the “COUNTERPUNCH” movement to defeat the elites and save America.

⚠ ATTENTION: America is under siege and our enemy is already within the walls. We can fight back and save this great nation!

Ep. 7-244 (OSINT) Open-Sourced Intelligence Report. This briefing includes a conversation between Kevin Freeman and Floyd Brown. Floyd is a friend of the Economic War Room® and a patriot.

Floyd is an author, speaker, and media commentator. He's the former CEO of USA Radio Network. He founded the Western Journal, which is one of America's best sources for news. Early in his career, he worked for President Ronald Reagan and Senator Bob Dole, and he was the first president of Citizens United.

Floyd recently published his new book "COUNTERPUNCH" which explains step-by-step how you can take part in a second American Revolution that will completely reorder the country under new governing principles. Touted as the Christian answer to Saul Alinsky's Rules for Radicals, Brown's "COUNTERPUNCH" outlines a strategy for mobilizing a peaceful resistance that leads to collective action.

The Spiritual War

For centuries humanity has believed that wars were waging in the heavens. Every ancient religion depicted their gods waging war with each other. Even the Judeo-Christian faith recognizes a war between God Almighty and the gods of Egypt and the rest of the ancient world.

Today, this same war continues to wage as the gods (powers, principalities, and demons) threaten to conquer American soil that had been consecrated as land for God's people.

Unlike the ancient world, the spiritual war of today is not often physical, but is primarily political or economic.

"The left worships government. And so, every single little job that they can find, whether it's school board or town auditor or justice of the peace, they run for it. It's part of their worship, their love of government." – Floyd Brown

As Christians remain loyal to the one true God, and his son Jesus who is crowned as King, the political left has begun to worship man's ability to govern others.

⚠ WARNING: The Marxist Left is taking from the devil's playbook. They worship government instead of God and consider themselves the judge of good and evil.

This claim sounds lofty, but it is not. **Karl Marx, the founder of Marxism, was involved in satanic practices.** According to the description of Richard Wurmbrand's book "Marx and Satan", it was Marx's own writings and statements that "expose him as a hater of God, and therefore, a hater of God's creatures--those who have suffered under Marxism and communism."

The Marxist move of the left is nothing less than a direct attack on Christianity and Christ in our great nation, and around the world.

1. The War for America

The goal of this war is simple: **they aim to destroy America by wresting her from the foundations upon which she was built.**

The founders had a clear vision of an America in which Christian society would prosper and good people would flourish under a government ruled by the people, most of whom were God-fearing Christians.

America was the first, and honestly the only, true attempt at a nation designed for the liberty of her citizens. The God-given rights of the people were to be protected by federal, state, and local governments of the people, by the people, and for the people.

In every attempt at global tyranny, America has stepped up and faced anyone who dared to threaten the people. From colonial powers like Britain and Spain (who were warned to stay away from the Western continents or face war with the US), to Nazi Germany, the Japanese Empire, and the USSR, America has consistently challenged and defeated fearmongering dictators.

"There's a group of globalists that want to essentially end the United States of America so they can have global governance and so that America, as we know it, will officially go away... [Their goal] is to destroy America because America is the only protector of freedom on the globe." –Floyd Brown

The threat for global tyranny is one that will remain until the end of days, as Satan and his legions seek to claim the Earth for themselves. Today, **this war for global control is being waged by Globalist Elites who intend to design a one-world government where they have all the power, and all the people serve them.**

America, as usual, represents the primary wrench in their plans. No global power has ever been able to permanently subdue the people because America has always eventually arrived on the scene.

Warning: The enemy seeks to crush America at her roots. If America falls, the world will surely follow suit.

2. Protecting American Values – Join the Fight – A message as it relates to the church in America today.

Patriotic Americans and many Christians get it!

Americans are seeing now more than ever we are in an Economic War; it is really a spiritual war disguised as an Economic War.

From a Christian Perspective:

In the midst of this violent spiritual war, Christians are mandated to be active in overcoming evil for the sake of God's glory. **The people who know their God shall stand firm and take action.** (Daniel 11:32)

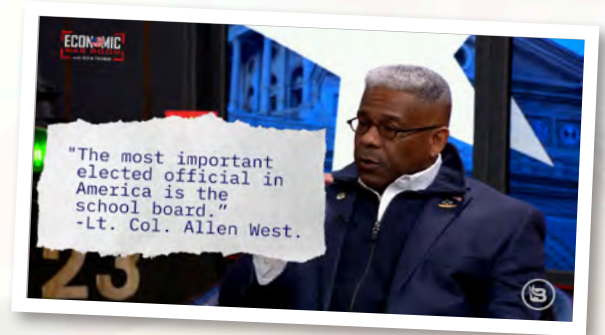

Many Americans can see that America, and the world, are not currently heading in a Godly or at least a moral direction.

- » There is fear, anger, and disappointment.
- » One issue that holds most of the Church back is the heresy of “separation of Church and State” that causes people to believe their faith should not be involved in politics. This is not in the Constitution or the Bible.
- » This could not be further from the truth.
 - In fact, **scripture demands that believers participate in politics and represent Christ in all aspects of their lives.** At the same time, the origin of this phrase is a letter written by Thomas Jefferson that reassures a Baptist pastor that the State will have no influence on the Church. The left has twisted this passage to target churches and prevent Christians from influencing politics.

It's time for patriotic Americans and believers to be active politically:

“You have the most power to make change right where you're at... in your neighborhood. Get to know your neighbors, get involved in the school district, get involved in the town council, get involved in the county government. That's where people can have real impact and protect themselves.”

- » In [Episode 230 with Allen West](#) the role of the Board of Education in determining the future of American culture was highlighted.
- » **The School Board the most important and influential elected position in the US because of the direct impact it has on the impressionable mind of Americas youth.**

WARNING: The Left has figured this out and has fiercely invested in candidates for these smaller local elections. All while too many values-oriented Americans ignore what is happening locally until it is too late.

“In Phoenix, where I live, we have this elementary school district called the Washington School District, and three of the five who were on the district were LGBTQ. And I remember that the head of the school board said she identified as a **cat, not as a woman, not as a man, but she identified... as a cat.** And so, I wonder how did this happen? But what it really shows is that we didn't show up. Because in that school district sat a number of mega-churches with huge followings and pastors that could have easily controlled that school board, but they didn't show up. And so, the LGBTQ took it over. Now, the reason I found out about it is because I'm on the board of a Christian college. That school district actually said, we don't want student teachers from Arizona Christian University. And that's how it all came out. I know there's a recall effort now, but those megachurches in that district were letting their children be educated by people who were diametrically opposed to the gospel and the message of Jesus Christ.” – Floyd Brown

ATTENTION: The Woke culture that has permeated our society made its way in through the school board, teachers, and others who have influence over our children. While election maps display most of the US land as red-voting, the small blue-voting regions have enough population to compete in Federal elections.

IMPORTANT NOTE: In the 2020 Election, Joe Biden won less than 500 counties... Trump won approximately 2,500 counties.

KEY LEARNING: If red-voting counties were to focus on winning local elections, the majority of the US would be educated by red-leaning school boards. A focus on these local elections could cleanse the nation of massive amounts of woke indoctrination and free our children to be educated in Truth, Liberty, and healthy Judeo-Christian Values.

There is no reason young Americans should be indoctrinated with anti-American, woke ideology in portions of the country that are primarily red voting.

⚠ Attention: American patriots need to focus on reclaiming local and state elections to turn the tide of American culture and reestablish the values of our founders across the nation.

3. Elite Capture of the Federal Government and the Power of Local and State Governing Bodies to Influence Change

- » One reason it is so essential to reclaim local and state governing bodies is because the **elected officials who are closer to home are easier to keep accountable.**
- » Federal-level governing bodies are full of corruption, and they will require greater measures of change.

“I’m totally focused on the local level, because under our constitutional form of government, we can fight back against the federal government. And the states, the state leadership, the state legislators, the governors need to realize that they have the 10th Amendment that they can operate under. We still have a constitution. The Constitution is still the law of the land. But you’ll lose those rights if you don’t use those rights and exercise those rights.” – Floyd Brown

The Founders purposed for the US Constitution to protect the rights of people by **organizing the government so that those bodies closest to the constituents would have the most power over their daily lives.** The intent is the previously stated ease of accountability.

For the people to keep their rights they must wield them effectively. **American patriots must stand up against the tyranny of Woke culture at a local level.**

It is important to reclaim local and state legislative bodies first!

- » Once local and state legislative bodies have been reclaimed,
- » Then, we will have the footing needed to overcome the corruption of the Federal government and begin to reclaim it for the people as well.

Attention: The Federal Government has become overgrown and bogged down with bureaucracy, at the same time officials have been captured by enemies of the state to create and enforce policy contrary to those that are in the best interests of the people.

Look at our bloated federal government:

The Federal Government has grown, year over year, to become the largest organization in human history. This slows down the policy machine and has caused Congress to cede their powers to more focused governing bodies like the FBI, ETF, IRS, etc.

- » **These organizations are made up of un-elected officials who have no responsibility to the American people and there is limited access to proper accountability.**
 - The US Constitution does not provide room for such positions or agencies.
 - Globalist Elites, the Chinese, Communist Party, and other sinister organizations have managed to take hold of the Federal Government by capturing our officials in their snares.
 - Some of this involves bribery as these groups promise great wealth and power to those who toe the line, and blackmail for those who would dare to refuse their demands.

These institutions and positions of power can be replaced with individuals and organizations who are dedicated to the American people and will serve them with honesty and integrity.

4. The Real Wealth Gap

The lack of integrity in government, and the Elite capture of our officials has led to the wealth gap we see today.

- » Democrat politicians, like Bernie Sanders and AOC, often preach about the wealth gap and offer 'solutions' to their constituents.
 - Ironically, both politicians have gained immense wealth since entering politics and preaching their wealth gap rhetoric.
- » The wealth gap that their voters see is real, however, the cause and possible solutions are not.

The wealth gap of today is between hyper-wealthy elites (many of whom have joined the World Economic Forum) and the rest of the people.

While most of the Elite have investments that outgrow the impacts of inflation, the average American does not.

“Poor people, they have more wealth stolen by inflation than they do even by taxes. It’s a stealth tax that’s robbing you day after day after day after day. And so, if money isn’t a store of value, then poor people are going to get poorer. And the middle class right now is getting crushed.” –Floyd Brown

As inflation rates continue to rise, the purchasing power of the US Dollar decreases. This means the price of a loaf of bread increases over time. The elite have figured out that **more inflation will force more and more citizens to depend on the government for their basic needs.**

- » When families can no longer afford groceries, gas, rent, etc., they depend on welfare to sustain them.

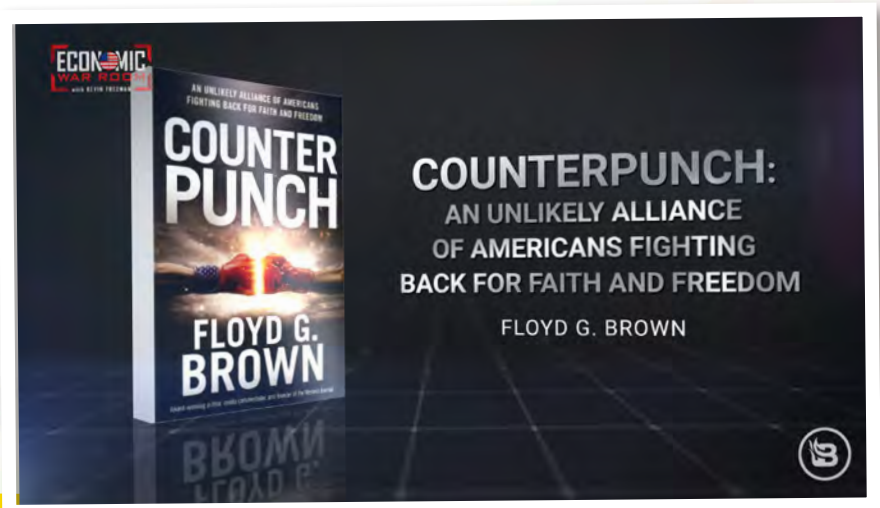

- » This is an easy way to get people to give up their rights in turn for food and shelter.
- » It is a modern take on the Roman “bread & games” which were used to subdue the people while the elites gorged on the finest goods.

Attention: Elites are using inflation to crush the buying power of American citizens

KEY POINT: The elite capture of our government officials has allowed them to create a system where **the government intentionally creates economic decline while convincing the people to surrender their rights.**

- » This is the only way a small group of elites can subdue the American people.
- » They cannot face us head on, they must weaken us and get us to surrender, this is how they intend to enslave the American people.

5. Local Victories – Winning the Spiritual War

THE TIME TO ACT IS NOW!

With so many threats at our doorstep, it is now that we must act. Local elections must be fought for, and won, so that we the people can regain control of our nation and begin to work to remove and prevent corruption from our government.

The elites have been at this for years, and the battle may seem uphill, but there have been victories.

CASE STUDY - How the Church Can Take Action!

In the North Texas area, Gateway Church, pastored by Robert Morris, was able to overcome Marxist control of their local elections. Pastor Morris decided that his Megachurch needed to be active to help save America. Below are some excerpts from his message:

“We have some brothers and sisters in Christ that are members of the family of churches that I want to just show you and let you know they’re running for school board or city council or whatever,”

“I want you to know, Gateway Church does not support or endorse any candidate or any political party... But we do endorse biblical principles, and we do believe that as good citizens, we should vote in national, state, and local elections.”

“Many of you see what Satan has been trying to do, even in our school systems... **We haven’t been voting for school boards and for city councils, and these are very important elections.**”

- » Morris was right, there were demonic things happening at the local level, and the only way to defeat this evil is to stand up against it.
- » To sit idle is to give the enemy permission to continue his evil schemes.

Morris and Gateway were successful. Their church, and their network of friends succeeded as all 13 of the candidates that they displayed on their screen won their local elections.

The school board, and other local offices were reclaimed for Christ and American values! North Texas saw victories and has seen great fruit as these new conservative officials made tidal waves of change in their respective roles. The people have seen the power of their local election vote.

What happened at Gateway can be replicated across the nation. Church leaders must stand up and encourage their congregations to vote for Righteousness and Liberty. Without American values, America will fall. You and your congregation can work to save America by saving your local area.
