## Game Plan: The Economic War

In 2013 and 2014 Kevin Freeman wrote and published “Game Plan: How to Protect Yourself from the Coming Cyber Economic Attack” which discussed inflation, hacking, currency wars, and many other threats to America and her citizens.

**Many of Kevin’s predictions have already come true and the threats to liberty that were outlined in the book have only become more real in the last decade.**

Along with a solid report on each potential threat, Game Plan included strategies for preserving American Liberty and restoring American Greatness.

“[Game Plan] included eight steps to restore American greatness that we found in Chapter 12. It talked about the MAGA playbook even before Donald Trump was on the scene. Things like; reduce regulations, get money moving without money printing, achieve energy independence, create a workable tax code, teach what America is about, and return to our spiritual roots. America was on that track. But the Biden team is doing exactly the opposite.” –Kevin Freeman

One of the strategies offered in the now decade-old book was what we have been touting as Transactional Gold. Quoting Game Plan (page 223):

“Another initiative at the state level that merits attention is the Texas Bullion Depository, proposed by Representative Giovanni Capriglione with support from Governor Rick Perry and the approval of Jim Rickards, the author of Currency Wars. If the measure had passed, the state would have sold the billion dollars’ worth of physical gold that it held in New York and bought an equivalent amount to be stored in Texas. The depository would be open to anyone seeking physical protection for his gold, making Texas an economic leader in the event of dollar catastrophe. There were even discussions about providing depositors with the equivalent of an ATM card, enabling them to exchange gold for goods, with electronic record keeping down to small fractions of an ounce. With a Texas gold card, you could buy a pack of gum or cup of coffee with gold and never have to hold paper currency. Gold would be added to the seller’s account or converted into dollars for exchange. As long as the dollar held up, there would be no need to move to such a system. But in the case of a dollar failure, wouldn’t it be good to have a contingency plan ready to go?” - Kevin Freeman

These ideals are still valid today and a thorough study of both the threats and the possible solutions is the only way we can prevent tyranny and save America.

## The Seven Threats

To save America, we must first understand what it is we are saving her from. There are many threats and many aggressors who wish to do us and our great nation harm. These are the Seven Deadly Sins built into the strategies of our enemies:

### 1. Bank Runs

Since the collapse of Silicon Valley Bank earlier this year, two other banks have crumbled into dust. Fear gripped the nation when Silicon Valley Bank collapsed in March. That same week, Signature Bank was also closed, within a few weeks First Republic Bank was shut down and the funds were transferred to JPMorgan Chase Bank.

**⚠ WARNING: It is quite likely that more bank runs will be seen in coming years as Globalist Elites seek to consolidate banking into a few controllable organizations.**

**With the threat of bank runs leading to bank closures, Americans are concerned they might not be able to access their personal finances.** Americans have begun looking elsewhere for the safety of themselves and their families.

“People are still worried after Silicon Valley Bank. Is there another shoe to drop? We hope the banking system is sound and prosperous, but a lot of people want something that they believe is more solid. How about gold and silver?” –Kevin Freeman

**Many have turned to safer forms of wealth like precious metals or even cash as they fear that in the event of a bank closure may not be insured in the future.** For more information on bank runs and the threat they pose to your, your family, and American liberty, check out [episode 234](#).

## 2. Cancel Culture

**In modern America, free speech is under attack.** Multiple organizations have participated in the cultural shift toward ‘canceling’ people who have different views, particularly if those views happen to be conservative.

Celebrities have been canceled because of tweets they made years or even decades ago. **The craziness of these cancellations is that there is no way to predict what the future of Woke values will be, as they are ever-changing.**

“I recently interviewed a lady named Dr. Ruth Kennedy from North Carolina. She made a deposit with a national bank but was then told she couldn’t have access to her own money. Maybe she was canceled.... Like Nick Vujicic. I think that there is a big movement across the country for bankers to look and say, I don’t know if you’re doing the right stuff with your money so they won’t let you access it. And Dr. Ruth Kennedy’s example, that’s a warning sign for all of us.” –Kevin Freeman

In [episode 213](#), Kevin discussed the cancellation of Nick Vujicic likely due to his pro-life perspectives. **Bankers can shut down your accounts because, under current banking laws, once you deposit your money at the bank, you become a creditor and your money becomes the bank's asset.** This means the money no longer belongs to you, and the

bank may try to decide how and if you can access it.

In his interview with Dr. Ruth Kennedy, who recently had her bank account locked, Kevin explained that it is essential to have healthy and ongoing relationships with your local bankers instead of allowing Mega-Corp banks to decide the fate of your finances from their skyscraper office in a far-off city.

See the full interview with  
Dr. Ruth Kennedy

**⚠ Attention: Banks and other organizations have been canceling clients because of their political and religious views. Make sure your money is safe.**

### 3. Inflation

In the 1970s America made some major shifts that have had ripple effects on every aspect of American life. From Roe vs Wade to leaving the gold standard, American culture and the American economy were radically transformed.

Roe v. Wade has now been overturned, but the inflation that has transpired since leaving the gold standard has gotten out of control.

“In 1971, Richard Nixon said he left the gold standard temporarily. 1971. From that to now, we’ve lost 87% of our purchasing power with the American dollar. 87% of our purchasing power has disappeared. Inflation has resurfaced recently, as we warned in episodes 124 and 125 just after President Biden took office. What cost a dollar when

Trump left office, now costs about \$1.20. What cost \$0.10 in 1971 now costs almost \$2. That's the loss of purchasing power. In fact, the buying power over time. You can see in this chart from 1971 to 2023, a dollar is worth about \$0.13. That's crazy." –Kevin Freeman

**As inflation has continued to rise under Biden, the US dollar continues to lose purchasing power, leaving Americans worse off financially.** Food, gasoline, and many other commodities have consistently become more expensive as a percentage of household income.

The worst part, **inflation has little to no impact on the elites who are able to out-earn inflation losses.** These extremely wealthy individuals are often getting richer while the poor get poorer. Since inflation does not affect them, there is no reason for them to help prevent it.

**Attention: The global elites are thriving while inflation bites at the heel of the Average American citizen, threatening to take them under.**

#### 4. Central Bank Digital Currencies

Central Bank Digital Currencies (CBDCs) are the next major play that Globalist Elites have up their sleeve.

**Central Bank Digital Currencies are just government-sanctioned programmable money.** The goal of which is to be able to control the flow of every dollar so they can subjugate the masses... fall in line or your money disappears.

“They want to control everything in your life. They want to know who, what, when, where, why, and how you’re spending your money. And they want a line-item veto. If they don’t like what you’re doing, they want to have parental control so they can just stop you from spending money. This is what Dr. Kennedy found out. They didn’t like what she was doing. And

so they may have frozen her account. And it's coming soon for everyone. And there will be no alternative unless we create state-based money." –Kevin Freeman

**Joe Biden's executive order number 14067, dated March 9th of 2022, alludes to a CBDC plan to make money convenient. On closer examination, however, this is not what the 37-page document describes.** Instead of focusing on financial convenience, the EO focuses on human rights, financial inclusion, equity, energy demand, climate change, etc. We know these topics to be the buzzwords the Woke elite use to cover up **their true plans: controlling people for a woke/Marxist agenda. This is incompatible with traditional American values and the liberty of the American people.**

**Attention: Central Bank Digital Currencies are the next step in the Marxist plot to gain control over the people and force them into submission.**

## 5. IRS – America's Big Brother

As part of the goal to control the people, the elites are using federal agencies like the IRS to spy on the American people.

"The Supreme Court just ruled 9 to 0 that they will allow the IRS to look at your bank account even if you're not under investigation?... The nation's highest court recognized that the IRS isn't required to notify third parties who aren't under investigation when seeking a summons for banking accounts thought to be relevant to the tax delinquency of another person. That's guilt by association... That's why we need an opt-out for our money. How about state-based money where they would have to get a court order to look at your account? States can and should defend the privacy of their citizens." –Kevin Freeman

**If you happen to have a relationship with someone who is under federal investigation, the IRS will now have the right to investigate your financials as well.**

The Epoch Times states, "The Supreme Court ruled unanimously in a delinquent taxpayer case that it's lawful for the IRS to secretly obtain the bank records of third parties when collecting on taxes owed."

**Attention: The IRS has been granted access to private citizens' private financial information without a court order... and they are not obligated to inform the citizen of this occurrence.**

## 6. The Death of Cash

As the globalist elites seek to establish CBDC, they must wage a war on cash. Many stores have begun to refuse to accept cash as payment. **The goal is for the American people to stop using cash and turn it into debit cards. This is so that every transaction is recorded under the watchful eye of the government.**

**Bank of America spied on its own customers after January 6<sup>th</sup>.** According to the UK-based Daily Mail, "Bank of America gave the government the information of 211 people whom they felt fit the criteria of suspicious involvement in the January 6th riot. The bank had been asked to turn over the records of anyone who used a debit card or credit card on January 5th and sixth in Washington, DC."

"Cash is one of the few ways you can avoid snooping. That's why the feds want to eliminate it. This isn't a conspiracy theory... it's a fact. As explained in an article produced by Investopedia, titled: "Why Government Seek to Eliminate Cash" where they say, "Why eliminate cash? Because it can play a role in criminal activities like money laundering and allow for tax evasion." Bottom line, they can't monitor people who are using cash." –Kevin Freeman

**Cash, and other forms of currency that are harder to trace, like cryptocurrencies, are under attack because the globalist elites want to have full control of every citizen and every dollar those citizens own.**

**Attention: The war on cash is actually a war on liberty. The privacy of citizens is a threat to the globalist elite who want to control every aspect of their lives.**

## 7. Foreign Threats to the Dollar

Even as domestic threats to the dollar, like inflation, are weakening the nation, **China and the BRIC nations are plotting to remove the dollar as the world's reserve currency.**

One strategy they are employing is to convince other nations, one by one, to stop transacting in US dollars and adopt the Chinese Yuan instead.

“If we don't have other nations willing to hold our debt, we'll be forced to third-world status and our enemies know it. Will it happen? Not soon, but eventually, if we stay on this path...The Chinese want to bankrupt America. They say it very publicly around the world. In fact, they're going nation by nation saying, 'stop trading in US dollars and start trading in our currency.' And then they created this gold wallet. You know what it is? The gold wallet is like what we're proposing in Texas where you put money there, they hold it in the form of gold, and then you can spend it. But what happens when China turns it off and doesn't give you access to your gold?” –Kevin Freeman

China is quickly gaining influence over nations around the world. This topic is covered in greater detail in [episode 237](#) where Kevin explains the intricacies of the cold war with China and how rapidly the conflict is escalating.

**Attention: The Chinese Communist Party has made it their goal to de-Americanize the world, the first step is to crush the US dollar.**

If China succeeds in collecting all the world's gold and other precious metals, they will be able to control the world. Nations will have no choice but to submit to the whims of the Chinese Communist Party as they would have complete control over the world currencies. **The US dollar must be protected, and actions to counter China's gold plan are essential to preserving American liberty.**

## Transactional Gold & Silver – The Plan to Save America

In the Economic War Room, we study the geopolitical atmosphere, gather intelligence from the best minds in the industry, and strategize solutions to the greatest problems America faces today. One of these key solutions is transactional gold and silver.

- » Transactional gold & silver would add existing technology, used by companies like Glint Pay, to the Texas Bullion Depository. This would function like an ATM where deposits are stored as gold or silver but can be transacted as legal tender based on the current price of gold or silver in US dollars.
- » Combining this technology with state legislation, based on Article 1, Section 10 of the Constitution: “No state shall ... make anything but gold and silver coins as tender.” We intend to help make state-based transactional gold & silver a modern reality.

“The implications are huge. It would give you an optional personal gold and silver standard with privacy and convenience and tax advantages. With economic justice. You could opt out of CBDC Central Bank Digital Currencies, and you could avoid a dollar under attack.” –Kevin Freeman

In [episode 234](#) and [episode 239](#), KKevin discussed the work we have been doing in the Economic War Room® to see this solution become a reality. Here is an update:

- » In the recent 88th session of the Texas Legislature, we made a major push to act on this plan and drive forward a real solution.
- » We have an amazing team of true American Patriots working on this.
- » Through the work of the team and what you have done to help, 2.8 million emails or phone calls were sent to the legislature, the governor, the lieutenant governor, and the speaker of the House.
- » In the House, Mark Dorazio, introduced the bill, where he attracted bipartisan support with five joint authors and 39 coauthors. The bill then made it out of the most

overworked and challenging committee, State Affairs. It even made it through the Calendars committee, which is a feat in itself. It missed being voted on by just a few hours.

- » In the State Senate, the bill was authored by Brian Hughes. There, we had a great hearing, but it was so late in the session that it didn't get a vote in committee. We were told that it would have passed if it had made it out of the House first.
- » Sadly, we ran out of time in this legislative session, but we made it further than anyone had expected... and hope is not lost.

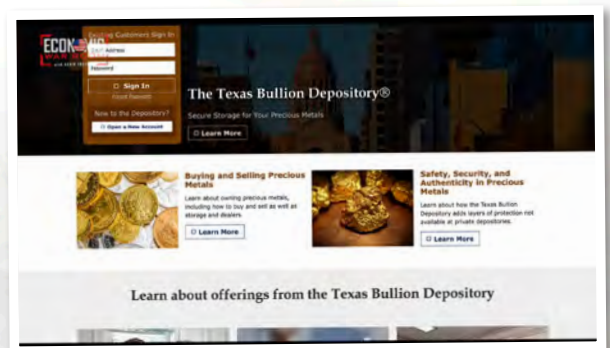

We learned a lot from this session and are now adapting the language of the bill to ensure its success. **There was so much support for this, it is clear this is a solution the American people want, and we will fight until we see transactional gold and silver available for all Americans.**

**⚠ Attention: Transactional Gold and Silver is the solution we need to protect Americans from Bank runs, Cancel Culture, Inflation, Central Bank Digital Currencies, IRS snooping, the Death of Cash, and Foreign Threats to the US Dollar.**

In our continued fight, there are three parts to our new strategy, Plan B.

## 1. Texas Special Session

**Since this session is over, the only hope for success in Texas this year is for Governor Greg Abbott to include Transactional Gold and Silver in a special session.** Governor Abbott is already fighting for important legislation, here in Texas and with his support, we can get this liberty-preserving legislation through as well.

Our team has been hard at work reaching out to Abbott and his close network of supporters and donors to educate them on these seven threats and how Texas can help save America.

“We need to move it up. Maybe it’s in the top 100 priorities. It’s got to be in his top five, six, seven, eight priorities, in order to make a special session. You can help, go to [transactionalgold.com](https://transactionalgold.com) and use the “take action” button. We’re preparing the ground for a swift passage once a special session is called By Taking Action. You’ll be encouraging the governor to call the session, but you’ll also be encouraging the legislature to pass our bill as soon as it goes through. That’s part one of Plan B.” –Kevin Freeman

**⚠ Attention: Texas already has many of the requirements in place for Transactional Gold and Silver. To get Texas on board it must be included in a special session. You can help make this a reality.**

## 2. Transactional Gold & Silver in Other States

While we are working to make transactional gold and silver a reality in Texas, we cannot stop there. Many states have the capacity to develop this solution as well.

**The more states that provide this solution, the better.** We already have interest from states like Oklahoma, Utah, South Carolina, Arizona, Alaska, Ohio, Michigan, and Florida.

**These states can work together to challenge the power of the federal government and reestablish the states as the primary governing bodies of the American people.** It would not even necessarily require each state to have its own bullion depository. They could store the gold in Texas’s bullion depository while declaring it legal tender in their own states and even make money off transactions.

We must move quickly on part two of Plan B to ensure that the states are standing in solidarity and that as many Americans as possible are able to get access to transactional gold and silver. **If you have contacts with the leadership of any state, please help us get connected with the right people.**

 **Attention: To truly preserve financial liberty multiple states need to adopt transactional gold and silver so it is as accessible as possible.**

### 3. Spreading the Word

The final step for Plan B is to make sure people know about this incredible opportunity to help secure financial liberty for the American people.

**Now, more than ever, we need to spread the word far and wide to build a groundswell of support.** So far, we have received publicity in Epoch Times, ZeroHedge, the Lance Wallnau Show, Flashpoint, and many other places.

“This is the answer to those seven money problems we’ve outlined. It’s the best way to beat inflation. It’s the way to opt out of central bank digital currency. And it’s the founders’ secret plan to preserve America. The time is short, but the prize is great. We’re all about preserving liberty, security and values.” –Kevin Freeman

**If you have any connections with media organizations, radio or TV hosts, or any other media professionals who could help get the word out, please let us know.**

 **Attention: Transactional gold and silver must become a regular topic of conversation so legislators around the country know the American people want to see it become a reality.**
