

## **Patriot Academy: Empowering the Next Generation**

For generations, the priority for Americans has always been making the world a better place for their children. For most of American History, they succeeded and the next generation lived in greater freedom and prosperity than the last. However, like the Civil War, the Great Depression, and both World Wars, the youth of America face many great challenges and a future with less prosperity. This is primarily due to the decline of American culture with Woke ideology seeping its way into the education system, corporate offices, and governmental agencies. The America we know and love is under attack and it is up to American patriots to protect her.

**YOUR MISSION:** Learn about Patriot Academy, the fight for America's future, and what you can do to preserve American liberty for future generations.

**⚠ ATTENTION:** American patriots are providing solutions to some of America's greatest challenges, and inspiring generations to right for their rights.

In this briefing we will discuss an innovative new way to help America's young adults capture the spirit of America and its greatness. We will review:

- » **The Need - A Lost Generation?:** A Prager U study that shows just 16% of Gen Z adults are proud to live in America, compared to 73% of baby boomers.
- » **The Need for Patriot Academy:** an Academy with a mission of equipping the leaders of this generation with a sound biblical worldview, a grounding in constitutional literacy, and practical leadership training.
- » **Leadership Congress:** Patriot Academy's leadership program that invites young adults to study the Constitution and the civics that made America great, then involves them in the practical application of what they learned through mock legislative sessions.
- » **The Development of Constitution Coach to scale Patriot Academy:** an individual who wants to either learn about the Constitution and the values that made this country great or teach them to members of their local communities.
- » **Constitutional Defense Training:** Patriot Academy Training to understand your defensive rights and how to wield and protect them. This includes Firearms training so you are prepared to defend yourself, your family, and your property.
- » **Patriot Academy's New Campus:** An innovative campus will include exact replicas of the buildings where our nation was formed. The center point will be Independence Hall, paired with Monticello, the home of Thomas Jefferson. A place where young leaders are inspired to see America return to her roots and flourish for future generations.

Ep. 7-250 (OSINT) Open-Sourced Intelligence Report. This briefing includes a conversation between Kevin Freeman and Rick Green. Rick is a friend of the Economic War Room® and an American Patriot.

Rick Green is known as America's Constitution Coach. He is a former Texas State Representative, national speaker, author, and radio host. He & his family travel the nation speaking on America's forgotten history and heroes, with an emphasis on our moral, religious, and constitutional heritage.

Rick co-hosts the national daily radio program, WallBuilders Live!, with David Barton. Rick is the author and executive producer of Constitution Alive, America's most engaging and entertaining study of the U.S. Constitution, as well as Biblical Citizenship In Modern America, Biblical instruction for a free people.

Along with his wife, Kara, Rick is the founder of Patriot Academy, an elite leadership training program specializing in applied civics with a Biblical, historical, & Constitutional Foundation. Through their Constitution Coach program, they are training and empowering citizens across the nation to educate their communities about the Constitution.

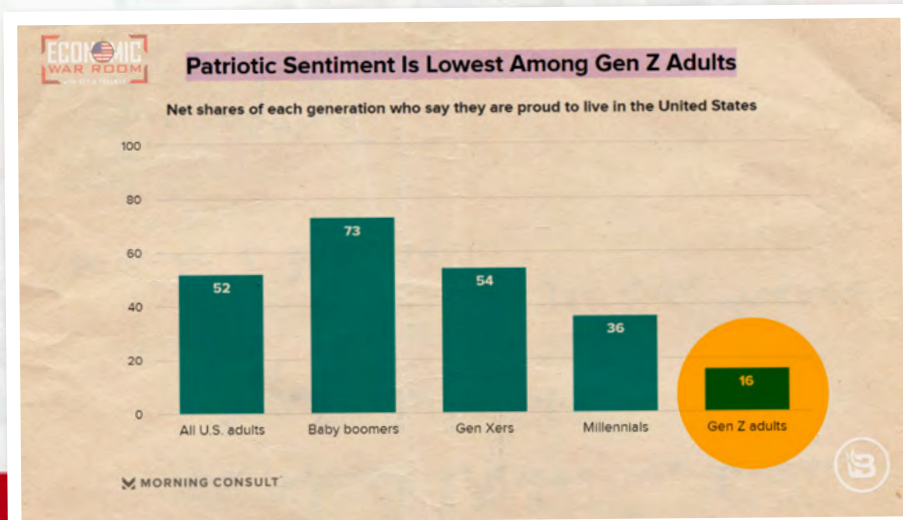

## A Lost Generation

America seems to be a fractured nation. While there are still many patriotic Americans, too often millennials (and now GenZs) seem to have very little respect for our nation and its history.

**Ironically, the Millennial generation is the one that grew up in the easiest and most comfortable world that has ever existed.** The threat of the USSR had already faded from memory when they were born, the economy was booming, and the standard of living for the average American was unbelievable compared to all other people in human history.

“I just saw something from PragerU. It reports that just 16% of Gen Z adults are proud to live in America, compared to 73% of baby boomers.” –Kevin Freeman

We could claim that the Millennial and Gen Z generations are spoiled and entitled, but that cannot be a fault of their own.

- » These generations are a product of their upbringing.
- » The comforts they grew up with were afforded to them by the generations that came before.
- » Somehow, they were never taught how to truly appreciate how good they had it and how much it cost.
- » How did we as a nation fail to inspire these generations to love America, the liberty she affords, and the rich history of sacrifice that made it all possible?
- » More importantly, what can we do to protect the next generation from this same fate? And can we reverse the tide for the Millennial and GenZ members of our society?

Rick Green points out that **“we’ve been pouring the poison of cultural Marxism into our education system for decades now.”** 20 years ago while Rick was a state representative in Texas, “there were already textbooks... that basically said that socialism, communism, and capitalism, are just three equal ways to form a society. Just pick which one you want. That’s the type of moral relativism, in terms of how a nation is set up, that we’ve been teaching to the kids.”

It is no wonder the generations that have grown up in these Marxist teachings are struggling to find value in the America we know and love. **They cannot see it because they are blinded by the veil of Marxism, brainwashed into believing America is evil.** At the same time as they have introduced woke ideology, schools have removed biblical teaching and prayer.

**We, as a nation, have ceded the education of our children to the Marxist devil.**

## 1. Patriot Academy

When Abraham was about to sacrifice Isaac, **God provided a lamb**. When Moses and the Israelites had reached the Red Sea and Pharaoh was on their tail, **God provided a wall of fire and parted the waters**. When Jerusalem had been destroyed, **God provided for Nehemiah's rebuilding of the wall**.

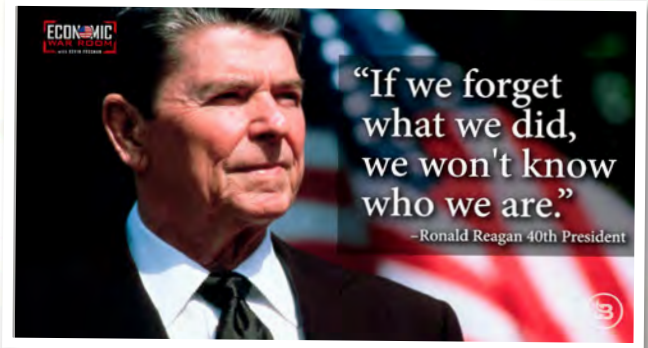

Today, our children face great evil in every part of society, especially in their education. However, God provides, even when things are at their darkest.

**Patriot Academy holds the mission of equipping the leaders of this generation with a sound biblical worldview, a grounding in constitutional literacy, and practical leadership training.**

The aim is simple and clear, to guide America back to her roots. The Founders of our great nation knew the value of a Judeo-Christian worldview and understood the need to fight for freedom. **America has strayed from the path they intended for us to follow, but we can divert back to the path of liberty.**

"We're just like any other nation... we're made up of humans. So we, of course, have sin in our history. But when you compare it to the rest of the world and the rest of history... Greatest, most powerful, most benevolent nation in the history of the world, but yet these kids aren't proud of it because they've been lied to about who we are.

Ronald Reagan warned about this. He said, If we forget what we did, we won't know who we are. He was warning of an eradication of the American spirit because of an erosion of the American memory. And that's exactly what we've done." –Rick Green

America and her founders are not without sin, in fact, it is quite the opposite. However, unlike any nation before her, America has sought justice and has encouraged repentance around the world. **America has been the most generous nation in human history**, giving unfathomable amounts of personal and national wealth to provide for those in need even if on the other side of the planet.

**America has fought, throughout its history, to end slavery, genocide, and tyranny, not just on her own soil, but on distant shores.**

It is essential that this, the true history of our nation, be taught to our children so that they can be inspired to fight for justice, liberty, and the God-given rights of people around the world.

**⚠ Attention: We must not forget the sacrifice of those who went before us, trailblazing and protecting American liberty.**

## 2. Leadership Congress

**Patriot Academy has designed its Leadership Congress program to reach the next generation and equip them to lead America to a brighter future.**

The too-often-forgotten teachings of our founders and the great men and women who fought and died to preserve the blessing of America must be instilled in the young minds of patriots. They will want to learn and understand what they can do to save America and design a better future for her, her people, and the world.

**This program invites young adults to study the Constitution and the civics that made America great, then involves them in the practical application of what they learned through mock legislative sessions.**

“When young people come to our leadership congresses around the country, it gives us a chance to really hone them in. We’re optimistic because we know that the laws of nature, and nature’s God, don’t change. The principles don’t change. What changes is if we don’t teach them or if we do teach them. We can get bad stuff or we can get good stuff. Garbage in, garbage out. Good stuff in, good stuff out. We’re trying to put a lot of good stuff into the culture.” –Rick Green

Because of the great success of these events in equipping the leaders of the next generation, **the Patriot Academy team has opened up new versions of the Leadership Congress, one for military Veterans, and one for their Constitution Coaches.**

 **Attention: While many in our nation have lost sight of American values, Leadership Congress is actively training the brightest minds to transform this generation and revive American patriotism.**

### 3. Constitution Coach & Biblical Citizenship

Constitution Coaches are members of one of Patriot Academy's other ventures. Rick explains that this program has "a mission to educate a nation literally to revive patriotism by restoring constitutional values and restoring biblical perspective on the issues. **What's the secret sauce that made America so great in the first place and how do we restore that secret sauce?** And we're doing it one family at a time. We're doing it one community at a time. We have churches, schools, and all kinds of organizations that are using our materials to teach these things."

A Constitution coach is an individual who wants to either learn about the Constitution and the values that made this country great or teach them to members of their local communities. **Patriot Academy will provide a coach with all the resources they need to be able to learn about our country's rich history, and how we can practically apply the wisdom of our founders to the modern problems we face as a nation today.**

"The videos will do the teaching and bring the expertise from folks like David Barton and Kirk Cameron, who teaches on the monument, and all kinds of other folks teaching that stuff. And then I teach the Constitution itself in Independence Hall, which kind of brings it to life. I hate boring history and boring government classes. I slept through that stuff in school. So we work really hard at bringing it to life." –Rick Green

The course is designed to be exciting as students and coaches alike are whisked away on a historical adventure to study the great leaders of our past, the incredible wisdom of the Constitution, and the biblical worldview that guided them.

- » Not all Americans are privileged enough to learn about American history in the places where it happened.
- » Those who do not live near Boston, New York, Philadelphia, or D.C. may never get to witness the buildings in which our history was written or walk the streets where our greatest leaders once stood.
- » Because of this, Rick and the Patriot Academy team took the time to film in some of these locations to give Americans the opportunity to see these historical sites with their own eyes and bring their historical studies to life.

The lessons range from studies of history (the who, what, when, where, why, and how) to studies of Constitutional and Biblical texts and how they were applied throughout history to build the foundations of our great nation. The purpose is not just to educate, but to equip. **Those who take these courses leave not only with knowledge but practical application tools to be able to take back lost ground and reclaim America for patriots.**

These courses can be taken with any local community, friends, family, or even church groups. Church groups are encouraged to take the **Biblical Citizenship course** as it is designed for Church settings and includes teachings from Church leaders on topics that are deeply relevant to the Church and American culture today.

Some people who have taken these courses have noticed a need to win local elections in their area. **Along with those who took the course with them, they have campaigned and even won those elections to start transforming their community and revitalizing American patriotism.**

**Attention: Constitutional Coach programs are an easy way to learn more about the Constitution, American History, and develop practical skills to save America.**

#### 4. Constitutional Defense

The Second Amendment was included to ensure that the people were responsible for protecting their own rights, even from their own governments. However, **it is only once you know your rights that you can notice when they are being infringed and you can protect them.**

Rick explains that “James Wilson was one of the guys that gave us the Constitution and the Declaration, original Supreme Court justice. He said, **If you’re robbed in your home, it’s your fault. Every man’s house is his castle. We’re responsible to defend our castle.**” In the same way, it is the responsibility of the people to protect their rights.

Constitutional Defense is a course offered by Patriot Academy where they provide:

- » Constitutional training, to understand your rights and how to wield and protect them.
- » Firearms training so you are prepared to defend yourself, your family, and your property.

“This course became very popular because-- well, I went through one similar to it ten years ago, and it woke me up. I’m a type-A person. When I was a state rep, I was the ‘God and guns’ guy. Charlton Heston did an ad for me. I mean, I was promoting the Second Amendment, doing all that, but I wasn’t carrying my weapon because I wasn’t trained, and... if I’d had an incident where my home was attacked or my family was attacked or I was in the restaurant where a wolf came in, I wouldn’t have been able to defend my family. I would have been the fool from Proverbs 27:12... a wise person foresees danger and takes precaution. A simpleton walks blindly on and suffers the consequences... I was that fool, that simpleton for 40 years of my life. And then I went through this training and it woke me up.” –Rick Green

This training is essential for anyone who wants to protect America and defend their rights as threats, both foreign and domestic, seek to destroy our nation and take away our freedoms.

**Attention: Knowing your rights, and how to defend them, is crucial in these uncertain times. You are responsible to protect your family and Constitutional Defense will teach you how.**

## 5. Patriot Academy Campus

We often memorialize the Founders and imagine them as older men, but **some of the most well-known founders were young patriots**. In 1776, James Monroe was 18, Aaron Burr was 20, Alexander Hamilton was 21, and James Madison was 25. The early introduction to the ideas that inspired the Constitution helped to form these men into the American heroes they soon became.

Sadly, many of the key locations that these great men once knew have become riddled with crime. For this reason, Patriot Academy is building its new campus in Texas. **This new campus will include exact replicas of the buildings where our nation was formed. The center point will be Independence Hall, paired with Monticello, the home of Thomas Jefferson.**

“I teach the Constitution class in Philly in the real Independence Hall sometimes. And I want everybody to be able to experience that... So we decided to build a place in Texas where you can experience that without having to go to Philadelphia. We’re rebuilding Independence Hall... and we’ll unveil it on July 4th, 2026, on the 250th anniversary [of the signing of the Declaration of Independence]. And we’ll have the first class in that room right there on the campus. And from then on, folks will be able to come to Fredericksburg and study the Constitution in the room where it was created, or at least a replica of that room. I call it the Disneyland for Patriots, a place where people can come and experience the American story with other families from across the nation. Get excited about what this nation’s really all about and what those principles are, and then go back to their communities and sow that into their community.” –Rick Green

One of the incredible programs planned for this campus is a one-year educational deep-dive for 18 to 25-year-old patriots who want to see America return to her roots and flourish for future generations. This program will include coursework to establish a solid constitutional and biblical grounding so these young students are prepared to shape the world in the same way the young Founders did over 200 years ago.

Patriot Academy has begun organizing partnerships with multiple patriotic universities to provide college credits for the one-year program for those who want to get a college degree. This will allow students to expand their college experience with practical Biblical, Constitutional, and Governmental education opportunities and develop friendships with like-minded individuals from around the country.

“We’ve got graduates in Congress and state legislatures across the country, and now we’re even training military veterans and putting them on the House floor and giving them the chance to do the same thing.”

“But when my dad started teaching the Constitution in churches, Oklahoma was a 100% blue state, and when he finished, Ronald Reagan got the majority of the votes. We elected two senators that were Republican and it went deep red thereafter. Not because Republican is better, but because Constitution is better.”
