

The Race For Economic Liberty

America was propelled from its earliest days as a group of small colonies to the height of prosperity by the economic liberty afforded to its citizens. That same liberty is now under threat as tyrannical globalist elites plan to crush liberty once and for all with Central Bank Digital Currencies.

A plan to prevent this economic disaster, using transactional gold & silver, was developed in the Economic War Room®.

Much progress has been made but this is still an active mission in what may be one last chance for the preservation of economic liberty for all Americans.

In this briefing we will discuss the following:

- » Debt, Demons, and CBDC
- » Texas Transactional Gold & Silver
- » Pirate Money and the Rise of a United Front
- » Help Win the Race for Economic Liberty

YOUR MISSION: Review updates on the progress made in the push for Economic Liberty and take steps to push it across the finish line.

 **ATTENTION:** Central Bank Digital Currency is around the corner, we must act quickly to secure the future of financial independence and economic liberty.

Ep. 7-271 (OSINT) Open-Sourced Intelligence Report. This briefing is an exclusive teaching by Kevin Freeman and includes updates on the progress made on the Economic War Room project for Transactional Gold & Silver.

Kevin Freeman is considered one of the world's leading experts on the issues of Economic Warfare and Financial Terrorism. He has consulted for and briefed members of both the U.S. House and Senate, present and past CIA, DIA, FBI, SEC, Homeland Security, the Justice Department, as well as local and state law enforcement. His research has been presented in critical DoD studies on Economic Warfare, Iran, and Weapons of Mass Destruction presented to the Secretary of Defense and the Under Secretary of Defense, Intelligence. He has traveled extensively with research trips to Russia and China and throughout Europe and the Americas. He is also a Contributing Editor to Tactics and Preparedness magazine.

Kevin is a Co-Founder of the NSIC Institute; Speaker of the Cherokee Community of North Texas; a Senior Fellow at the Center for Security Policy; a Trustee at Oklahoma Wesleyan University; and a member of the Advisory Board of First Liberty Institute.

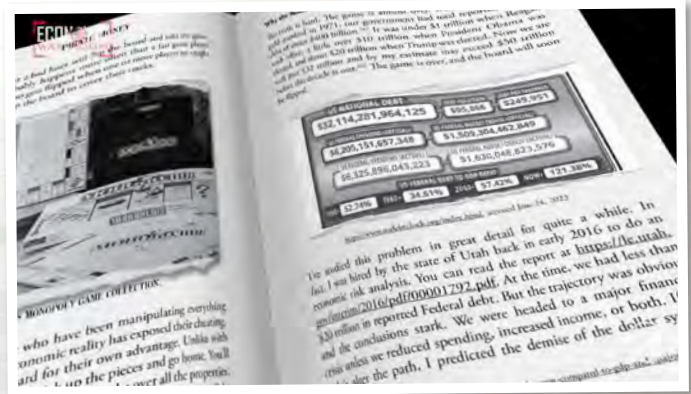

1. Debt, Demons, and CBDC

America faces a debt crisis. The national debt has reached inexcusable levels as government spending continues to grow each month.

If any American business were to hide such an unbalanced budget (failing to account for future liabilities), the government would shut them down for fraud and the executive team would face criminal charges.

The government, however, spends taxpayer money with no regard for the long-term impact that the resulting debt will have on the economy.

“Things are moving very rapidly... in 2008 the total reported federal debt was just \$10 trillion... Now it's over 33 trillion... When I wrote the book *Pirate Money* over the summer, I included a chart from [USDebtClock.org](https://www.usdebtclock.org). It was accessed on June 24th, and it's on page 57 of the book. It lists our total US national debt as \$32.1 trillion... and debt per taxpayer of \$249,000. Now let's look at

the same website as of November 14th... We have \$33.7 trillion in debt. Today, \$33.7 trillion overall. And the debt per taxpayer is \$259,000. In other words, in five months, our total reported debt increased by 1.6 trillion, and your portion of that debt grew by almost \$10,000.”—Kevin Freeman

[Note: At airing of this episode, debt is now \$33.9 trillion, up another \$200 billion in the few weeks since this episode was recorded.]

The average income in the US is just over \$50,000 which means that in five months, your portion of the national debt grew by more than most Americans pay in taxes for a year.

Why does the government refuse to get the budgets on track and start working to prevent this economic disaster?

“This is the setup for the Great Reset. When the World Economic Forum overlords come down from Olympus to tell us all how to live, never fear, they will tell us ‘We’ll absorb your debt. Of course, sacrifices will have to be made. Your standard of living will go down, but your paper money is no longer as valuable as you thought. We will take it from you and give you something better. Let’s call it central bank digital currencies.’ That’s coming. And faster than you might think. That’s why no one seems worried about the debt and the federal government. They know they’re going to replace it with electronic funny money called central bank digital currency (CBDC), where they can control everything you do with your money.” —Kevin Freeman

The truth is sadly far more sinister than we could imagine. The globalist elites want to become royal overlords and their primary target is the Western world.

They are especially concerned with conquering the US because they know that the US will be the hardest nation to topple as its citizens are very focused on liberty. However, they have also groomed our generation to be so focused on money, comfort, and consumerism that many will allow CBDC to control their lives.

⚠ Attention: The American government is failing its people with poor monetary policy and outrageous government spending as globalist elites intend to crush the American people with CBDC.

2. Texas Transactional Gold & Silver

In the face of such an incredible threat of tyranny, Kevin Freeman has been working on a solution to save America and preserve American liberty, Transactional Gold & Silver.

“The 88th Texas Legislature ended this year. We made a huge push to fulfill the dream of ‘pirate money,’ aka ‘patriot money.’ Transactional gold and silver. Adding existing technology using a proof of concept from Glint Pay and Lode and Kinesis, you know, like they have in Switzerland and the Cayman Islands and so forth, to our existing Texas Bullion Depository, making it legal tender as the Constitution allows in Article One, Section Ten. It says, ‘no state shall make anything but gold and silver coins as tender.’ That combination. We tried to get it passed and the implications are huge. It would be optional personal gold and silver standard. Private, convenient, with tax advantages, economic justice, and an ability to opt out of CBDC and a dollar under attack.” –Kevin Freeman

The push for Texas Transactional Gold & Silver was far more successful than anyone could have imagined.

The concept was well received by members of the Texas legislature by members on both sides of the aisle.

People were amazed that we got as far as we did in the house. Mark Dorazio, a freshman, introduced the bill and attracted bipartisan support with five joint authors and 39 coauthors, both Democrats and Republicans.

The bill made it out of the State Affairs committee, which is incredibly overworked.

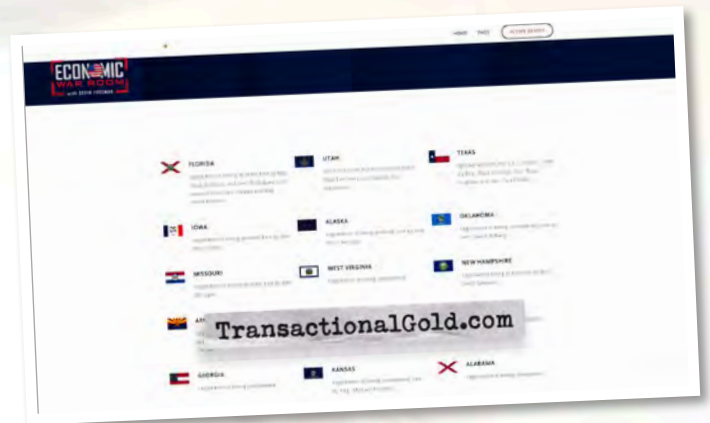

The bill even made it through Calendars, which is a feat in itself.

Sadly the bill missed being voted on by just a few hours and might have passed had it not been among 8000 bills filed, plus the turmoil of an unrelated impeachment of the attorney general and other controversial legislation on the Senate side.

The Economic War Room team walked the halls with bags of chocolate coins and mock-ups of personalized debit cards.

We learned a lot. We needed to adapt the language, but the concept was solid. The bottom line is that we had an amazing response. People loved the idea. It is needed now more than ever.

“When the 88th Texas Legislature finally wrapped up in May of this year, I was disheartened. We all felt let down after an amazing effort. We felt like we had failed. We felt washed up. We were told, just wait till next year. Except in Texas, it would be two years before the next session. We wanted transactional gold and silver as an opt-out to the Great Reset. It, in my opinion, is the one thing that we can do individually or in the States that would change the game entirely. Imagine using gold and silver as a currency with the convenience of a debit card, full privacy protections, no worries about inflation, and no worries about capital gains taxation. If your gold or silver gained in value, and it’s all backed up by the Constitution and the Supreme Court rulings. It’s a dream monetary system and it was within our grasp... While we licked our wounds from the 88th Texas Legislature in May, we took pride in being the first state in more than a century to actually actively contemplate a state-level, gold-based monetary system that would offer people a genuine choice in money.” —Kevin Freeman

Naturally, it was quite painful to have made so much progress and then miss the finish line by a matter of hours. However, Kevin and the rest of the team refused to allow the enemy to keep us in disappointment.

 **Attention: Transactional Gold & Silver is the best fighting chance we have against CBDC and the Great Reset and it almost became a reality in Texas back in May.**

3. Pirate Money and the Rise of a United Front

Refusing to allow the enemy to cause them to give up, Kevin and the rest of the team took up the fight in new ways.

“In June, I wrote the *Pirate Money* book, and then we held a legislative summit at Liberty Hawk Ranch in August. We even met the CEO of Glint, who spent the week with us. He flew from London, and we inspired some people in Florida we didn’t even know at the time.” -Kevin Freeman

With a new set of tools at our disposal, we began to watch the dream of Pirate Money grow from just Texas to over 18 states.

The need for sound money has never been more dire, and the leaders of multiple states have recognized that need and are coming together to make Pirate Money a reality.

Many of these legislators around the nation are reading *Pirate Money* and are getting excited about developing sound money legislation in their home states. Sound money is not a new idea, but many groups who have been dreaming of a solution believe they have found it in Transactional Gold & Silver. Every week, we gain more allies.

“Other states include Alaska, Iowa, Kansas, Missouri, Oklahoma, Arizona, Louisiana, South Dakota, Arkansas, Georgia, South Carolina, New Hampshire, Ohio, West Virginia, North Carolina, and Delaware. And it’s not over in Texas either. I know we only

Page 6

have a session once every two years, but guess what? Because there weren't enough things passed to satisfy Governor Abbott. He wants to put border security and school choice back on the session. He vetoed a bunch of bills and said, alright, we'll have a grab bag. You'll be able to put it back in the extraordinary session. And guess what? Legislation has been entered during this extraordinary session. And if it's deemed germane to the governor's call, it will move quickly." –Kevin Freeman

Kevin has been working on the Pirate Money concept for more than a decade and it has grown to become a movement that is sweeping the nation!

Even in Texas where it seemed like hope was lost, there is still a chance that Transactional Gold & Silver will make it through a special session.

Attention: Pirate Money has become a national movement for sound money and could be the saving grace in the fight against the Great Reset.

4. Help Win the Race for Economic Liberty

Hope has returned as the Pirate Money team grows every day in our race for economic liberty. However, we have not yet reached the finish line, there is much more to be done.

For Pirate Money to become a reality we need your help.

Kevin has shared seven steps you can take to help us reach the finish line.

- ★ 1. Buy and read the book *Pirate Money*. If you read it already, read it again. Buy another copy.
 - a. *Pirate Money* needs to become an Amazon bestseller so more people can find the book and learn about Pirate Money.
 - b. *Pirate Money* is now also available on Kindle and as an audiobook.
 - c. Reading this book makes a difference in the understanding of those who read it.
- ★ 2. Review *Pirate Money* on Amazon.
 - a. For new readers to consider reading the book there need to be hundreds of reviews.
 - b. Leaving five stars is helpful, but full reviews provide more weight for people who are on the fence about reading the book.
- ★ 3. Share *Pirate Money* with your friends. Talk about the book and give away copies to friends.

- a. *Pirate Money* would make an excellent Christmas gift for the American patriots you know.
- b. Sharing links to clips from the show or even sharing this Economic Battle Plan™ will push past the social media companies' attempts to keep *Pirate Money* hidden.
4. Speak out. Start talking about Transactional Gold & Silver.
 - a. Open an account with companies like Glint or Kinesis so you can show people how easy it is to transact in gold.
 - b. Tell everyone you know about the benefits that Transactional Gold & Silver would provide for them.
5. Help us get on media shows to share about *Pirate Money*.
 - a. We are looking for suggestions. If you have contacts with any media group please get us in contact with them.
 - b. Call people you like to watch or listen to and tell them you think they should get Kevin on their show to talk about *Pirate Money*.
 - c. If enough people call the producers, they will listen.
6. Send copies of *Pirate Money* to your state legislators, your governor, treasurer, etc.
 - a. Call them and tell them about Transactional Gold & Silver.
 - b. Use TransactionalGold.com as your resource.
 - c. We will have a page for every state with action steps and campaigns to reach out with.
7. Support our speaking arrangements.
 - a. Kevin will be speaking at America Fest, a Turning Point USA event being held in Phoenix Arizona December 15-19.
 - b. Show up to this event and other events where Kevin will be speaking.
 - c. Arrange speaking opportunities for Kevin to share about *Pirate Money* with as many people as possible.
 - d. You can reach out through EconomicWarRoom.com
