

DIGITAL LIBERTY: Pure A.I.

In the Digital Age, new technology is produced at an unprecedented rate. Some of this technology has been used to benefit humanity, some has been used against us, and much more is still up for debate. With such rapid advances in technology, it is essential that those behind these innovations seek to develop technologies for the good of humanity.

In this briefing we will discuss the following:

- » Business for Good – Paul B. Allen’s Entrepreneurial Journey
- » Financial Threats – The Looming Darkness
- » Pure A.I. – Artificial Intelligence for Good

YOUR MISSION: Learn about technological advancements, entrepreneurial efforts, and innovations that are shaping the fight for transparency, informed citizenship, and personal sovereignty in the digital age.

ATTENTION: New technology has powerful potential to be used for good or evil. We must ensure the future of technology is one that empowers the people instead of enslaving them.

WHY YOU SHOULD CARE:

- » Technology is improving, but its uses can be for good or evil.
- » Governments and big businesses are working together, don’t let them infringe upon your rights.
- » New technologies could be used to increase globalist elite control.
- » Paul B. Allen and his team are developing AI technology that will serve the people, not enslave them.
- » Using these new AI tools can jump-start your productivity or give you access to essential information.
- » Citizen Portal AI will give you the power to track your representatives and hold them accountable.

Ep. 8-286 (OSINT) Open-Sourced Intelligence Report. This briefing includes a conversation between Kevin Freeman and Paul B. Allen. Paul is a friend of the Economic War Room® and an American patriot.

Paul B. Allen was the Founder & CEO of Ancestry.com. After a successful exit, he went on to start multiple mission-driven high-growth tech companies including MyFamily.com and FamilyLink. He then spent 5 years at Gallup as the Global Strengths Evangelist helping millions of people discover their strengths. In all of this, Paul's mission has been to leverage technology to help humans flourish.

At Soar, Paul has assembled a world-class team of technologists to ensure that humans have a chance to self-determine their relationship with Artificial Intelligence in ways that uplift and empower.

1. Business for Good – Paul B. Allen's Entrepreneurial Journey

In the era of digital technology, Paul B. Allen has made a name for himself as a successful entrepreneur whose personal values drive him to build businesses that inspire.

Ancestry.com, Paul's most famous project, has empowered **over 100 million people** to connect with their family history, instilling a deep sense of gratitude and perspective about their ancestors' sacrifices.

“It really is incredible how closely related the human family is... when you look back and study the past, the feeling of gratitude and awe about what people lived through can really shape, change our mindset from one of like, it's all about me or entitlement to like, we're part of this amazing chain of human life.” –Paul B. Allen

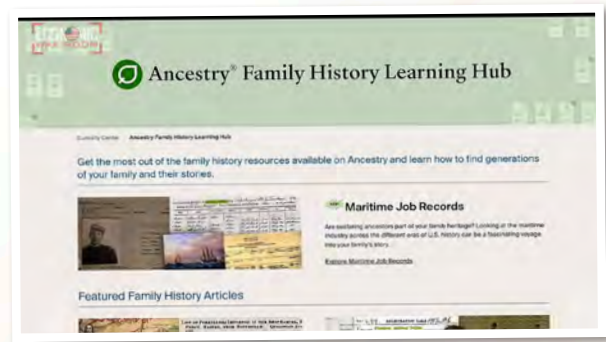

Recognizing the hardships faced by those who came before us allows us to accept the challenges in front of us. If our ancestors overcame such massive obstacles, so can we.

In a similar vein, Paul B. Allen launched another initiative, MyFamily.com, aimed at creating a private online space for families to connect and share heritage discoveries, ultimately leading to the broader goal of enhancing familial bonds.

“MyFamily.com was the proudest project I’ve ever been involved with... Millions and millions of people signed up. It was the fastest-growing social site ever up until that time.” –Paul B. Allen

In most families, one or two people may get interested in genealogy enough to do research. Other family members may be less interested by the research but are enriched by the discoveries made by their family members.

Conversations about the discoveries would unite families who were often spread out around the world.

Technologies like these create a more beautiful and connected world, allowing us to share in the oneness of our history and the shared experience of our current times.

⚠ Attention: Technology can be used for good, inspiring people to overcome obstacles and live a better, more connected life.

2. Financial Threats – The Looming Darkness

Just as much as Technology can be used for good, it can be used for evil.

The financialization of the American economy has had drastically painful effects on the lives of most Americans. Concerns about national overspending, debt accumulation, and the potential for hyperinflation are plastered across social media.

“We’re spending so many trillions of dollars. And, of course, that’s going to cause inflation and endless wars are financed by the American people. And I’m actually extremely concerned about the Federal Reserve and its policies and also the fiscal spending spree that this country has been on for decades. It’s not sustainable. I don’t want to see hyperinflation. I don’t want to see a crash. I certainly don’t want to see central bank digital currencies and the ability to surveil every dollar spent by everyone wherever they go.” –Paul B. Allen

The last decade has revealed the Increasing risks associated with extractive and exploitative models favored by large corporations and governments.

Living through Covid has opened the eyes of many Americans to see that government and big business have partnered in their tyrannical attempts at controlling the people.

This threat is only expounded with the potential use of central bank digital currencies (CBDC) and other technologies for intrusive surveillance and control of the masses.

Technologies that were developed for fighting terrorism have been turned on the American people as the ever-expanding federal government begins to label its own citizens, often the most patriotic of them, as domestic terrorists.

⚠ Attention: This gross misuse of technology aims to tear apart the fabric of our union by stripping the people of their God-given rights as established in the US Constitution.

3. Pure A.I. – Artificial Intelligence for Good

In response to these threats, Paul B. Allen and his team at SOAR.com (see below) have developed a new project, [Citizen Portal AI](#), which utilizes AI to transcribe public government meetings.

Using these transcriptions, it is then able to create scorecards to track elected officials' performance, enhancing transparency and accountability.

Through Citizen Portal AI, American citizens can track the voting patterns of their representatives and hold them accountable for decisions that do not align with the values of their constituents.

You can also see successful ideas from other states, that are supporting liberty, and use that legislation as a model for your own state.

This technology will provide people with a network of information about politicians and policies which can be used to exponentially improve the state of our Union.

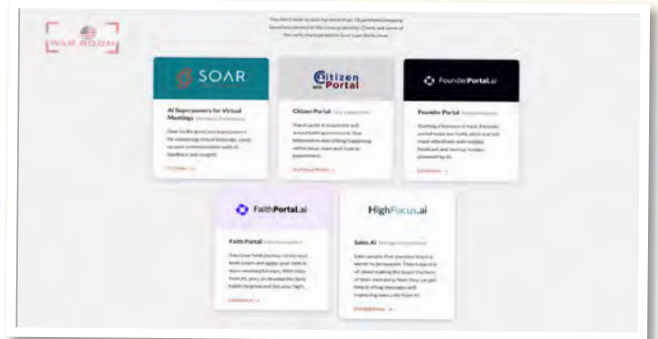

“Citizen Portal AI is an AI platform that will transcribe every public meeting in the United States... you’ll be able to create a scorecard to keep track of your elected officials at every level of government.” –Paul B. Allen

[SOAR.com](https://www.soar.com) envisages the application of ‘pure AI’—personalized, uplifting, responsible, and ethical AI—to enhance various aspects of human life, supporting individual and societal progress.

Citizen Portal AI is just one of many ‘pure AI’ projects from SOAR. Others include:

- » [FoundersPortal.ai](https://wwwFOUNDERSportal.ai) – An AI for entrepreneurs
- » [Faith Portal.ai](https://wwwFAITHportal.ai) – An AI for developing Faith habits
- » [HighFocus.ai](https://wwwHIGHfocus.ai) – A sales solutions AI

“Our vision is what we call pure AI, that all the AI systems and products that are built by our team are personalized to you, and you’re in control of them.” –Paul B. Allen

Each of these projects uses pure AI technology to directly improve the lives of the American people.

Paul B. Allen and his team have dreamed of a beautiful future, in which people are more deeply connected to each other, their faith, and the world around them.

⚠ Attention: Using AI for good, Humanity can ascend into a golden age as we build a bright future for the next generations.

ACTION STEPS:

1. Utilize platforms like [Citizen Portal AI](#) to stay informed about local and national government meetings, policies, and elected officials' performance.
2. Read Kevin's new book [Pirate Money](#) to learn more about a solution to CBDC, the globalist elite's next step toward total control.
3. Consider supporting start-ups like Citizen Portal AI that prioritize democracy, transparency, and accountability.
4. Get engaged: Participate in local governance, attend school board and city council meetings, and advocate for successful policies identified through Citizen Portal AI.
5. Advocate for responsible use of AI, emphasizing privacy, empowerment, and ethical applications in all technological advancements.

ONGOING ACTION STEPS:

1. Seek opportunities to inspire other Americans to stand up for what is right.
2. Send them this Economic Battle Plan™ and ask them what they are doing to stand for America and Liberty!
 - » Elect Politicians that understand the need to preserve American Liberty.
 - » Encourage and ask your elected officials to educate themselves.
 - » Ask them how they are working to strengthen our education system and reverse the push for Marxist indoctrination. These are big issues, if your representatives are not aware and working toward solutions directly or indirectly based on their committees, hold them accountable!
3. Watch out for programmable money. The Dollar is being attacked and the WEF is working toward The Great Reset. We want to see the dollar stay strong by acting on the items above. We also believe it is good for Americans to diversify and have other options to pay with transactional gold. Prepare your money for the coming war.

Your support for Transactional Gold and Silver Currency is critical! We have legislation advancing in 20+ states! Learn about progress in your state at <https://transactionalgold.com/> and click the "Active States" button in the upper right-hand corner.

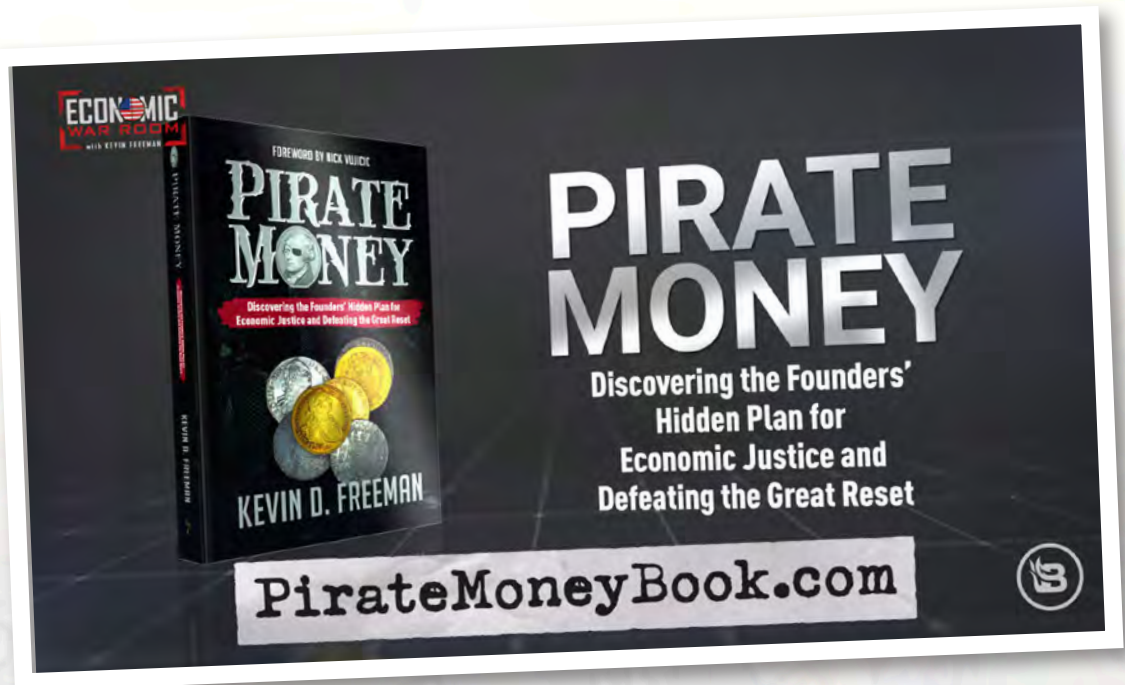

4. Check your investments to see if they are helping fund the agendas of Globalist Elites. If you have a financial advisor insist that they give you an update and encourage them to become part of the NSIC.

Seek out investment opportunities in patriotic innovations. Financial Advisors sign up for the online NSIC class at Liberty University. If you are a financial advisor, go to www.NSIC.org and sign up for more information. Weaponize your money, your investing, spending, and giving!

ATTENTION: Clients already with a Financial Advisor - Make sure your financial advisor has your values and interests at heart. Make certain they really understand what ESG investments mean for our future. Suggest that they become part of the NSIC institute and nominate them to participate in our online certification at <https://www.economicwarroom.com/advisor>.

5. Be certain to buy Kevin's new book, *Pirate Money: Discovering the Founders' Hidden Plan for Economic Justice and Defeating the Great Reset*. Learn more at www.PirateMoneyBook.com.

In the **Economic War Room**®, we encourage Americans to be the “little ships that make the difference.” You cannot solely rely on the government or the president to solve America’s problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The little ships are based on Churchill’s Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.]

SHAREABLE QUOTES:

“We’re living in the most blessed of all times and eras, and we’re really benefiting from the sacrifices so many people made before us.”

–Paul B. Allen, Founder, CitizenPortal.ai, Ancestry.com, SOAR.com

“[CitizenPortal.ai] could be the definitive platform where all American citizens go to find out what’s going on in government and to hold our elected officials accountable for what they do... we’ll stop abdicating our responsibility and shift the power back to the citizens, back to the people.”

–Paul B. Allen, Founder, CitizenPortal.ai, Ancestry.com, SOAR.com

“This is one way, with information, that you can help increase individuals’ confidence in government, and help them to make wise decisions when they’re choosing their elected representatives.”
