

The Power of Pirate Money

This special episode features our new Pirate Money Radio program that airs on American Family Radio (AFR) and podcasts everywhere.

Our nation faces unprecedented economic challenges. To safeguard our financial sovereignty and protect your hard-earned money, it's crucial to understand alternative monetary systems like Pirate Money. This briefing elucidates the history, purpose, and practical steps to implement Pirate Money, with the ultimate goal of ensuring state-based economic freedom and resilience against federal overreach.

In this briefing we will discuss the following:

- » Pirate Money – A Treasure Hunt Through American History
- » Fiat Currency and the Central Bank Digital Currency Threat
- » Implementing Modern Pirate Money

YOUR MISSION: Learn about the historical context of Pirate Money as well as actionable steps to promote Constitutional, state-based gold and silver currencies that will safeguard our money from federal overreach and ensure economic liberty.

 **ATTENTION:** Fiat money has failed and Central Bank Digital Currencies, the next phase of elitist control, are on the horizon. American patriots must act now to save America.

WHY YOU SHOULD CARE:

- » Pirate Money was the first successful currency of the United States of America and was the precursor for the US Dollar.
- » Gold and silver are fantastic stores of value and protected our nation in its early years.

- » The removal of the gold standard in 1971 debased the US Dollar and caused rapid inflation, losing 90% of its buying power in just 50 years.
- » Central Bank Digital Currencies are on the horizon and they will be used to gain absolute economic control over the people.
- » Pirate Money serves as a solution to inflation and the CBDC threat and the legislative process has already begun in over 20 states.
- » With your help, your state could enact the Pirate Money clause and protect you and your fellow statesmen from inflation and the CBDC threat.

Ep. 8-296 (OSINT) Open-Sourced Intelligence Report. This briefing includes a special episode of Pirate Money Radio co-hosted by Kevin Freeman and Mike Carter. In this episode, Kevin and Mike discuss Pirate Money, the history of currency in the US, and the plan to save the nation from inflation and Central Bank Digital Currencies.

Kevin Freeman, host of Pirate Money Radio as well as Economic War Room, is considered one of the world's leading experts on the issues of Economic Warfare and Financial Terrorism. Kevin is a Co-Founder of the NSIC Institute; Speaker of the Cherokee Community of North Texas; a Senior Fellow at the Center for Security Policy; the Advisory Board of First Liberty Institute. Kevin is also the author of multiple bestselling books including his latest, Pirate Money.

Mike Carter, co-host of Pirate Money Radio, is a Co-Founder of the NSIC Institute, a Producer of Economic War Room, and the Economic War Room expert leading state efforts considering transactional gold and silver.

The goal of Pirate Money Radio is to inform and provide economic solutions to listeners, emphasizing the importance of being faithful with money, which includes giving, spending, and investing based on liberty, security, and values (LSV). Each week, Kevin Freeman discusses various economic challenges and aims to help people prepare and protect themselves from potential cyber-attacks, inflation, and other financial crises, offering real-world solutions.

1. Pirate Money – A Treasure Hunt Through American History

America was founded by men and women who swore away their lives and their wealth for the sake of the people. They took major risks and many made the ultimate sacrifice so that other Americans could be free.

“ John Paul Jones, the founder of the American Navy, was considered a pirate (and) the Boston Tea Party was an act of piracy, according to the British.” –Kevin Freeman

Pirates like treasure, and the founders of our great nation were no different. To them, true treasure was economic liberty, and they buried it in plain sight.

Our treasure hunt begins in the Colonial era. After freeing themselves from British rule, these newly united states needed a currency separate from the British Pound, which would have allowed the British to continue to control the colonies through economic means.

The founders settled on the Spanish milled dollar. Spain's currency was produced in both silver and gold coins. The Silver dollar was often cut into eight small wedges which became known as Pieces of Eight, or what we might call, “pirate money.”

“Spanish gold doubloons (double escudos) and silver pieces of eight (milled dollars)... That was pirate money, but it was also the foundational money for the United States system. When they wrote the Constitution and mentioned a ‘dollar,’ they meant that as a Spanish silver dollar.” –Kevin Freeman

The U.S. dollar took its name from this Spanish money and our currency remained fundamentally tied to gold and silver for much of our nation's history.

⚠ Attention: The founders intended for our nation to use real money, gold and silver, as articulated in Article 1, Section 10 of the Constitution.

2. Fiat Currency and the Central Bank Digital Currency Threat

Since abandoning the gold standard in 1971, the U.S. dollar has lost 90% of its purchasing power. Fiat money, unbacked by real assets, inevitably leads to inflation and economic instability.

“The definition of inflation is, ‘too much money chasing too few goods.’ And if you print lots and lots of money, what you’re going to end up with is inflation. That’s the cause of it. It is not because evil manufacturers have raised prices. They’re barely keeping their heads above water, just like you are at home. If you’re dealing with gasoline prices, if you’re dealing with food prices, restaurant prices, a hamburger costing \$12 when it should cost \$4, that’s because we’ve produced and thrown way too much money in the system. Inflation is and always has been a monetary phenomenon.” –Kevin Freeman

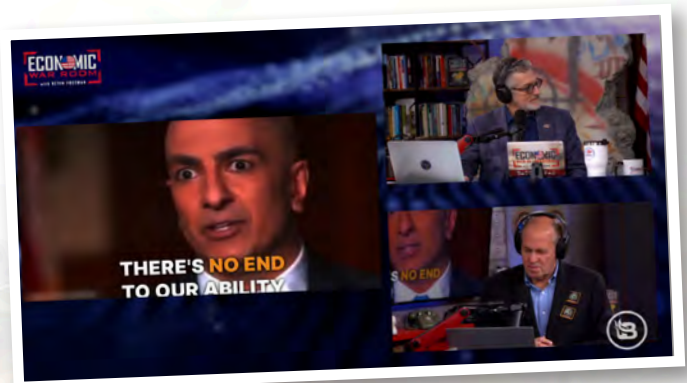

Until 1971 America had been on a partial gold standard, which means the US Dollar was at least partly backed by gold. Because of the general stability over time that gold presents, the US Dollar was able to adopt that same stability. Inflation was fairly tame.

Since leaving the gold standard, the buying power of the US Dollar has diminished as its value is determined by the faith that people have in the US Government and the amount of US Dollars the Federal Reserve chooses to print (or digitally create).

More dollars in the cash pool weakens the buying power of the ones that are already there. In the past few years, the Federal Reserve has increased the money supply at an unprecedented rate, and the faith in the US Government is near all-time low.

The buying power of one U.S. dollar is now around 10% of what it was in 1971.

“Central bank digital currency is a huge threat to our livelihood, our privacy, really our liberty... Central bank digital currency offers absolute control over who spends what, when, and how.” –Kevin Freeman

One reason the founders hated paper money, even more than its obvious weakness, was that it could easily be exploited by those who controlled the mint. This means the Federal Reserve and the Treasury Department have complete control of our monetary system.

For the last 50+ years, the exploitation of their monopoly on money has failed to satiate a ravenous hunger for power. Now, Central Banks want to introduce Central Bank Digital Currency (CBDC), which is programmable/weaponized money.

CBDC poses a significant threat to personal privacy and financial freedom. It allows absolute control over individual transactions, granting elites access to permit or ban specific uses of money.

Attention: Fiat money has failed and the elites who wield it are looking to CBDC as their next step toward total control.

3. Implementing Modern Pirate Money

Using a blend of modern technology, pirate money, and the hidden treasure the founders left in the Constitution, states could establish a safe-haven currency where Americans could transact using gold and silver.

Gold and silver have been better stores of value than almost every other option in human history and our nation's founders protected Pirate Money in Article 1 Section 10 of the constitution. But how could this be practically implemented today?

Using modern technology (of which GlintPay is a proof of concept), gold and silver can be transacted electronically, much like US dollars are transacted when you use a debit card.

The Pirate Money team has been hard at work educating regarding legislation in multiple states working to make Pirate Money a reality again, but this time, more practical, affordable, and transactional than ever before.

“Pirate Money, there is true treasure there. There's true economic liberty as we get this legislation passed, not only in Texas, but in multiple states... And the people listening to this radio are going to be the ones that help make this happen in their states by sharing this message... This is on podcast anywhere you listen to your favorite podcast, listen to this show, send it to your friends, and build this momentum in your state.” –Mike Carter

To learn more about the Pirate Money plan and what part of the legislative process is active in your state, visit [TransactionalGold.com](https://www.transactionalgold.com). Also, be certain to tune in weekly (Saturday mornings at 10 am Central, [find a station here](#)) on [AFR](#), or follow on [PirateMoneyRadio.com](https://www.PirateMoneyRadio.com).

⚠ Attention: American Patriots, the time to act is now. The road to financial sovereignty and economic justice lies in understanding and implementing Pirate Money. Your knowledge, advocacy, and preparation are the keys to preserving our nation's financial freedom. Stand strong, educate others, and take decisive steps to ensure a stable and just economic future.

ACTION STEPS:

1. **Subscribe to Pirate Money Radio:** [Spotify](#) | [Rumble](#) | [YouTube](#) - Channels
2. **Go to [TransactionalGold.com](#)** to view progress and support state-level legislation promoting gold and silver-backed currency in your state.
3. **Read Kevin's new book [Pirate Money](#) to understand the historical context and modern application of gold and silver currency.**
4. **To view more episodes of Pirate Money Radio, go to [PirateMoneyRadio.com](#).** Or tune in on Saturday mornings at 10 am central on your [local AFR station](#) or at [AFR.net](#). Replays are available wherever you follow podcasts.
5. **Explore modern applications like [GlintPay](#) to see how gold and silver transactions can work today.**
6. **Engage with local representatives to enact laws in your state similar to those proposed in Texas and other states.**
7. **Stay informed about federal plans for CBDCs and advocate against policies that threaten economic liberty.**
8. **Write to your Congressional representatives demanding transparency and opposition to restrictive monetary policies.**

ONGOING ACTION STEPS:

1. Seek opportunities to inspire other Americans to stand up for what is right.
2. Send them this Economic Battle Plan™ and ask them what they are doing to stand for America and Liberty!
 - » Elect Politicians that understand the need to preserve American Liberty.
 - » Encourage and ask your elected officials to educate themselves.
 - » Ask them how they are working to strengthen our education system and reverse the push for Marxist indoctrination. These are big issues, if your representatives are not aware and working toward solutions directly or indirectly based on their committees, hold them accountable!
3. **Watch out for programmable money. The Dollar is being attacked and the WEF is working toward The Great Reset. We want to see the dollar stay strong by acting on the items above. We also believe it is good for Americans to diversify and have other options to pay with transactional gold. Prepare your money for the economic war.**

Your support for Transactional Gold and Silver Currency is critical! We have legislation advancing in 20+ states! Learn about progress in your state at <https://transactionalgold.com/> and click the "Active States" button in the upper right-hand corner.

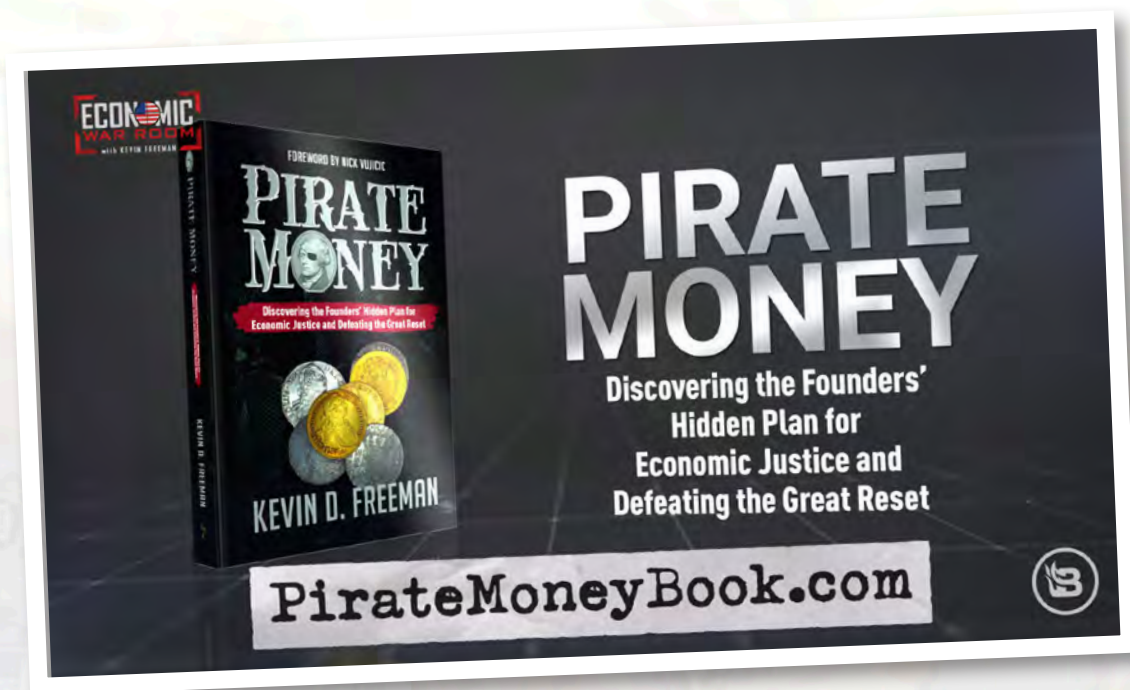

4. **Check your investments to see if they are helping fund the agendas of Globalist Elites. If you have a financial advisor insist that they give you an update and encourage them to become part of the NSIC.**

In the **Economic War Room**®, we encourage Americans to be the “little ships that make the difference.” You cannot solely rely on the government or the president to solve America’s problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The little ships are based on Churchill’s Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.]

SHAREABLE QUOTES:

“The beautiful part about modern technology ... I could have gold sitting safely in a vault in Texas and a debit card which represents that gold, and be able to spend that anywhere I use Mastercard now.”

–Mike Carter, Co-founder NSIC Institute

“You’ve got to have fair measurement. And when the dollar has lost 90% of its value since 1971... that doesn’t seem all that honest. It seems like an unfair, unjust weight and measure.”

–Kevin Freeman, CFA
