

## The Battle to Save the American Family

With minimal observation, the disaster we face is obvious. American culture is in decline. Crime in American cities has skyrocketed, as have racial tensions and religious disagreements. Division has become the new norm. America was once a proudly united nation where people of all colors and creeds stood shoulder to shoulder and built a better world for their children, together.

Dr. Martin Luther King Jr. and President John F. Kennedy famously called for unity and inspired multiple generations to set aside their differences and instead focus on their commonalities. The American dream was revived with a new fervor as families sought to serve one another as fellow countrymen. What mattered most was that you were American. This is the shared dream of the American people: to be considered just that – an American.

These values can only be preserved through the family unit, which now faces rapid decline. The collapse of American culture and the deterioration of the American dream are clear results of the true sickness that plagues America: the weakening and death of the traditional American family.

### In this briefing we will discuss the following:

- » The Role of the American Family - Societal Stability and Economic Prosperity
- » Family's Role in Cultural Integrity and National Security
- » Moral and Ethical Foundations - Formed in the Family

**YOUR MISSION:** Learn about the decline of the traditional American family and the impact it has on our culture, identity, and national security.

**ATTENTION:** The American family is in decline, and with it, our nation loses the foundation of its culture and its laws.

## WHY YOU SHOULD CARE

- » The American family is essential for societal stability as it is the cornerstone for every other aspect of American life.
- » The American economy depends on the next generation. Healthy families tend to raise more productive and committed children.
- » Our culture is formed in the hearts and minds of our children. The next generation depends on us to instill American values.
- » The collapse of the American family is a national security threat, allowing other nations to take advantage of or influence the next generation.
- » The moral and ethical foundations of our nation are instilled by family as the education system seeks to usurp their role and indoctrinate children with Marxist ideologies.

Ep. 8-310 (OSINT) Open-Sourced Intelligence Report. This briefing includes a conversation between Kevin Freeman and Dr. Ben Carson. Dr. Carson is a friend of the Economic War Room® and a patriot.

Dr. Ben Carson is America's most gifted neurosurgeon who also became the 17th Secretary of Housing and Urban Development in the Presidential cabinet during the Trump administration. After leaving the Administration, he founded American Cornerstone Institute also known as ACI. ACI is not a think tank. It is a Solutions to Action Tank as we aspire to be in the Economic War Room®.

For his entire life, whether as a surgeon, a politician, a cabinet officer, or now at ACI, Dr. Ben Carson solves problems.

### 1. The Role of the American Family - Societal Stability and Economic Prosperity

Families play an instrumental role in nurturing individual development, imparting values, and providing emotional support.

As families weaken, community bonds also deteriorate, making societies more susceptible to crime, substance abuse, and other social problems.

The decline of the American family unit led to increased mental health issues and societal stress.

“The family is the basic unit of any society. And that’s where values get passed on, where we learn about our culture. All these things come through the family. And what’s happening is there is an intentional desire to disrupt the influence of the family.” –Dr. Ben Carson

Stable families contribute to economic growth by producing well-adjusted, educated individuals who can participate effectively in the workforce.

Raising children is no easy task, as the left’s adage goes, “It takes a village.” What it really requires is a loving family and the family must be supported by society.

The traditional American family provides for the needs of children to be nurtured and inspired by parents who live as examples of the life they desire for their kids and make the difficult but necessary sacrifices to ensure their children have more opportunities for a better future.

“The traditional American family that brought so much prosperity and wealth to our nation, so much success, raising phenomenal human beings... it’s being stripped apart.” –Kevin Freeman

A decline in family structures correlates with economic disparity and decreased social mobility.

While correlation is not causation, it is foolish to think that the decline of the American family has not been instrumental in the decline of our culture and the rapid increase in mental health issues and crime.

**⚠ Attention: The traditional family unit served our nation well as it is through family that children are formed into responsible and decent adults.**

## 2. Family's Role in Cultural Integrity and National Security

Families serve as the first educational institutions where cultural values and national history are transmitted from one generation to the next.

Through bedtime stories and conversations over meals, children learn about the world they are growing up in.

Stories like Narnia teach them lessons about bravery, truthfulness, and love. These stories shape the worldview of a child. This lens will impact the way they see the world for decades to come.

“Faith in God and strong families have been the soul of America for a very long time, really from our foundation. And as those things are denigrated, look what’s happening to our country. You don’t have to be very observant to see that we’re in a downward spiral right now. Our relationships with each other have deteriorated. We’ve become very divided on the basis of race, age, income, gender, political affiliation, and religious affiliation... And all those things really start at the level of the family.” –Dr. Ben Carson

The erosion of family units has accelerated cultural fragmentation and weakened national unity.

As the education system has been riddled with Critical Race Theory and other polarizing teachings, students are progressively losing their patriotic spirit and being taught to hate America and hate other people based on race, religion, age, wealth, etc.

A cohesive family structure contributes to social stability, as it inspires young minds to think critically and develop a love for our nation and all of its citizens, which is crucial for national security.

The breakdown of family units can be exploited by external forces aiming to destabilize the nation.

“Our country is being weakened by the denigration of the American family. And our country is the only thing that really stands in the way of one world government, one world domination. And we’re much too strong to be brought down militarily. Therefore, you have to bring us down internally. And Jesus said it best: ‘A house divided against itself cannot stand.’ It was echoed by Abraham Lincoln. It’s 100% true. If you want to destroy a house or a neighborhood or a society, you get its components to hate each other, to fight each other, and to try to destroy each other. Once you’ve destroyed that unity. They’re done.” –Dr. Ben Carson

The negative effects of the decline of the American family are being exploited by our enemies, foreign and domestic, who wish to see the American dream perish. Their goal is to strip us of our liberty and destroy our nation from within.

This was all a part of 45 goals of the Communist Plan to destroy America as written by former FBI special agent Dr. W. Cleon Skousen in his book, *The Naked Communist*, and later entered into the Congressional Record by a Florida Congressman in 1963.

Here is a sampling:

17. Get control of the schools. Use them as transmission belts for socialism and current Communist propaganda. Soften the curriculum. Get control of teachers’ associations. Put the party line in textbooks.
18. Gain control of all student newspapers.
19. Use student riots to foment public protests against programs or organizations which are under Communist attack.
20. Infiltrate the press. Get control of book-review assignments, editorial writing, policymaking positions.
21. Gain control of key positions in radio, TV, and motion pictures.

22. Continue discrediting American culture by degrading all forms of artistic expression. An American Communist cell was told to “eliminate all good sculpture from parks and buildings, substitute shapeless, awkward and meaningless forms.”
24. Eliminate all laws governing obscenity by calling them “censorship” and a violation of free speech and free press.
25. Break down cultural standards of morality by promoting pornography and obscenity in books, magazines, motion pictures, radio, and TV.
26. Present homosexuality, degeneracy and promiscuity as “normal, natural, healthy.”
27. Infiltrate the churches and replace revealed religion with “social” religion. Discredit the Bible and emphasize the need for intellectual maturity which does not need a “religious crutch.”
28. Eliminate prayer or any phase of religious expression in the schools on the ground that it violates the principle of “separation of church and state.”
29. Discredit the American Constitution by calling it inadequate, old-fashioned, out of step with modern needs, a hindrance to cooperation between nations on a worldwide basis.
31. Belittle all forms of American culture and discourage the teaching of American history on the ground that it was only a minor part of the “big picture.” Give more emphasis to Russian history since the Communists took over.
32. Support any socialist movement to give centralized control over any part of the culture--education, social agencies, welfare programs, mental health clinics, etc.
- 40. Discredit the family as an institution. Encourage promiscuity and easy divorce.**
- 41. Emphasize the need to raise children away from the negative influence of parents. Attribute prejudices, mental blocks and retarding of children to suppressive influence of parents.**
42. Create the impression that violence and insurrection are legitimate aspects of the American tradition; that students and special-interest groups should rise up and use [“]united force[“] to solve economic, political or social problems.

It’s obvious that nearly all of the 45 goals have been achieved in America. And it is no coincidence that the destruction of the family was left near the end as one of the most significant requirements to destroy America.

**Attention: The American family is the cornerstone for the rest of American society, without it, American culture collapses weakening our national security.**

### 3. Moral and Ethical Foundations - Formed in the Family

Families are also critical for instilling moral and ethical values that influence individual behavior and societal norms.

The decline in family structures can contribute to moral relativism and ethical ambiguities, weakening societal principles.

There is a war against sound reason and the healthy, Biblical values America was founded upon.

“What is wrong with thou shalt not kill; thou shalt not steal; thou shalt not commit adultery; thou shalt not envy; thou shalt not lie; and that you should honor your parents; and that you should honor God?” – Dr. Ben Carson

The American education system is corrupt and does not have the best interest of the next generation in mind. Instead, it aims to indoctrinate a generation with Marxist ideologies, separating the individual from an understanding of God and the unalienable rights He has endowed us with.

Make no mistake, this war against the traditional American family is a war against traditional American values, and a war against God.

The goal is to corrupt a generation so deeply that they are unwilling or unable to recognize, let alone resist, tyranny.

This is a war for the soul of America, the last beacon of hope for individual liberty.

**Attention: The American family has traditionally been the place where moral and ethical values are instilled in children, as it declines, this role is being usurped by a corrupted education system.**
