

## ECONOMIC WAR ROOM: WAR ON HIGHER EDUCATION

Culture, religion, and morality are under attack. Schools are no longer teaching the laws of Truth, but opinions. There are major consequences that will affect your freedom, investments, and western civilization.

### **YOUR MISSION**

To ensure the next generation in your family understands the importance of both, character and career development in their education. Also, to begin raising up the next generation for liberty.

**“WHEN YOU BREAK BIG LAWS, YOU DO NOT GET LIBERTY; YOU DO NOT EVEN GET ANARCHY. YOU GET THE SMALL LAWS.”**

**- G.K. CHESTERTON**

**(OSINT)- Open Sourced Intelligence Briefing**

One-on-One with Dr. Everett Piper, author of "Not a Day Care" and "Why I am a Liberal and other Conservative Ideas" and President of Oklahoma Wesleyan University.

**For most, education is your biggest financial investment. Unfortunately, returns in this area are at risk for your student and America. Your greatest asset is your family and children; it is critical to teach what is right, just, real, and true. We are only one generation away from losing America's liberty.**

**A. What is a true liberal arts education?:**

**A true conservative believes in conservation - that includes conserving things, clean air, water, and especially the self evident truths endowed to us by our Creator.**

**To understand a true liberal education, go back 1,000 years to Oxford University in England, the cradle of liberal arts academy. Why was it called liberal?**

**Liberal arts was about education for free man, free woman, free culture, free government, and free people, and a free church - it was an education in liberty or liberal thought.**

**A Conservative is a classical liberal;** there is no freedom outside the boundaries of God's revelation to us and those truths within.

**A true liberal arts education supports freedom, culture, and liberty** - You shall know the truth and the truth shall set you free.

**Education is about the truths of natural laws** - A true liberal arts education is about morality, liberty, and truth, not propping up political opinions.

**B. Today's typical liberal arts education schools;**

**Today a "liberal" education is really progressivism.** A Liberal secular believes that man's ideas are more powerful than God's - they believe not in liberty, but power and control.

**Berkeley, used to believe in free speech,** - today they are silencing conservative speech because they have a contrary idea. They say they are tolerant, but they really are not. Instead, they just state, they cannot tolerate your intolerance.

**They are confident there are no absolutes;** - but that truth is a social construct to be agreed upon by a group.

Anti-Trump protestors attack at Free Speech Rally in Berkley, CA. | GettyImages

They are **ideological fascists**, verses academics that promote freedom.

Many of these institutions and their faculty take pride in ripping your child's heart, mind, and soul out. You raise your children to be righteous and they come home from college with a different set of ethics and beliefs.

Long term it is about control - Many liberal art Institutions push being free as it relates to personal behaviors that can ruin life; but economically and in career, **they will try to control what you do.**

C. College costs are high, but free college and more entitlements are not the solution:

**CAUTION: Free College education can easily lead to forced indoctrination.** Students will be told what to study and where they can study. Freedom to pursue their dreams may be limited.

**Ideas have consequences** - who controls the ideas that are being taught if someone else is paying for it? **Good ideas equal good culture**, good community. With bad ideas, the opposite results happen.

Already our public K-12 system is indoctrinating with an agenda that includes **socialism** and common core education dumbing down to the lowest common denominator.

"Let me  
control the  
text books and  
I can control  
the ideas of  
the states."  
- Adolf Hitler

GettyImages

Students are taught socialism as being kind to others - but they do not understand the consequences. Bible says we shall not steal - you cannot have socialism unless you steal someone else's money.

Migrant Caravan 2018 GettyImages

Illegal Immigration is seen only as a social issue, yet as soon as people perceive America as a free lunch, people will rush the borders. When there is a vaccume, power rushes in and freedom is lost.

"You can have open borders or a social welfare state, you can not have both."

- Milton Freidman

People are ignoring the big laws and truth.

**D. Ethics and Morals - The key to Good or Bad Economics:**

Ethics and morals are no longer being taught at many top liberal art schools.

University of Michigan - Ethics of Corporate Management:

"This course does not deal with the personal moral issues of truthfulness and honesty."

Our premiere schools are teaching morality as a personal issue, and not an objective fact. When you break laws, financial results at some point will not be good.

Enron, the poor ethics waterfall example: As companies fall, it brings more regulatory demands that drag and destroy wealth. There is collateral damage to investment community. Portfolios are hit with negative returns and regulations drag down other organizations.

Vacuums are always filled. If you create a vacuum, something will fill it. As business and institutions take God out, they suck government in and **we lose freedom.**

Education should be about a career, ethics and morality - Getting that right is what creates more money and a good economy. Unfortunately, **many educational institutions have defaulted into an indoctrination education** based on political correctness and identity politics.

Enron sign removal GettyImages

## Why you should care?

- » Western civilization is riding on our ability to teach truth, character, ethics, and career. We have almost lost the next generation as it relates teaching core values.
- » If we cannot live by 10 laws, society will get thousands of little laws from government bureaucrats. Controls get excessive. Examples include: the size of your soft drink, if you can use a straw, and how you can use the bathroom.
- » With the free college movement, eventually the government will dictate what college students attend. You are paying for public school no matter what, but ultimately students will be losing freedom of school choice and career choice if they give control to the government.
- » Without truth being taught, opinions alone always lead to disaster, bondage, brokenness, and slavery - Stalin, Marx, Hitler, Mussolini.

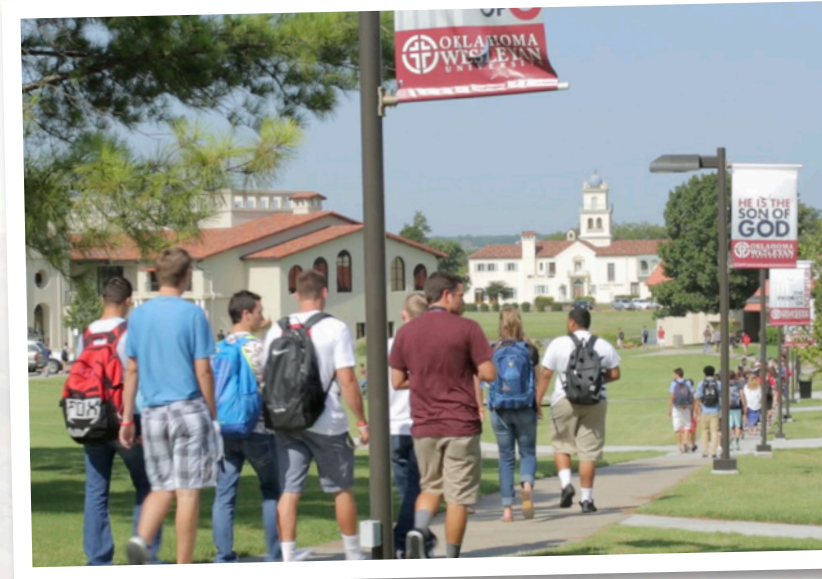

## Action Steps- What You Can Do

1. Most important elected position is the school board, your entire culture, economy, and freedoms will be dictated what is taught by the schools across the street. Look at ways you can get involved. Focus on equipping the next generation.
2. If you have college-age students, do not send them to institutions that teach opinion instead of truth.
3. If seeking a true liberal arts education, look for schools like Oklahoma Wesleyan University (OKWU), that do not give a diploma that says you majored in opinions. Students should actually learn something and focus on character development as well as career.

Oklahoma Wesleyan's focus on revelation of God as a fencepost that lead to freedom, success, and happiness:

The 4 fence posts are OKWU pillars

1. Christ - Jesus, The Son of God
  2. Scripture -Scripture is the Word of God
  3. Truth - Given by God
  4. Wisdom - to promote healing and wholeness in a broken culture and hurting world
4. Determine how you can use the EWR Economic Battle Plan™ and video tools to help train up the next generation. We are quickly moving toward a dumbing down of our culture and anarchy.

***Thank you for accepting this mission.  
Together, we will make a difference!***

**SHAREABLE FACT:**

**"If you want to have freedom build a fence. There is greater freedom with the property God has given you." - G.K. Chesterton**
