

**Economic War Room - WAR ON FREE SPEECH:**

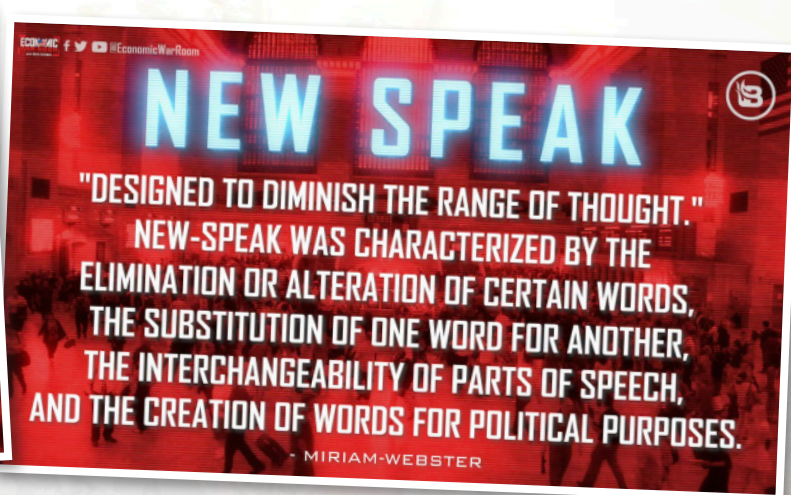

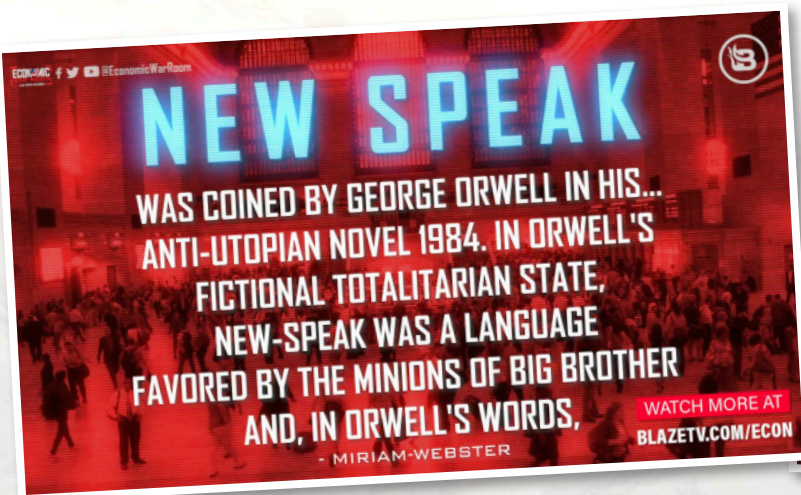

Political correctness is hammering away your First Amendment rights. Organizations on the right and left used to agree on the importance of free speech. It was a core principle of freedom. Today, the progressive left is attempting to silence Americans that do not believe in values that differ from theirs. It is a threat, to our freedom, and a threat economically.

There is a form of "New Speak" happening across America:

- » Words you are not allowed to say anymore.
- » Thoughts you are not supposed to have.
- » Creeping political correctness redefining many things you once knew to be true.

"Facebook is now openly antagonistic toward the right. Posts aren't just blocked by humans who decide what they do or don't like; they are blocked by computer programs designed by humans to ensure liberal sensibilities are not offended." - Brent Bozell, III

WSJ: Facebook doesn't really believe in free speech. What they believe in (and actively practice) is censorship / Jan 22, 2019

**Your Mission:**

To recognize the tactics progressives are attempting to use to silence America. Second, to understand how you can counter those attempts against free speech with the weaponization of your money through organizations that reinforce your values.

**(OSINT) – Open Sourced Intelligence Briefing**

Tactics being used to attack the First Amendment.

**The Tactics being used by the Progressive Left to Silence You:**

**Tactic 1: Shaming** people from speaking what they believe

- A. Hillary Clinton addressing Islamic blasphemy laws:

<https://www.nationalreview.com/2013/12/coercing-conformity-andrew-c-mccarthy/>

- B. **Shamed and Fined:** Life without Freedom of Speech. Elisabeth Sabaditsch-Wolff was sentenced to 480 euros in fines in her native country Austria because she said in a speech in 2009:

“A 56-year-old and a 6-year-old, what is that if not pedophilia?” In a reference to Muhammad and one of his wives. <https://voiceofeurope.com/2018/11/sharia-law-has-now-been-inserted-into-the-laws-of-member-states-leading-expert-on-islam/>

“Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances.” —United States of America Constitution - Bill of Rights - First Amendment

**Tactic 2: Banning** political speech from social media and technology access. Political Speech being banned, sounds like Orwell's 1984. Examples Include:

- A. **Political Speech Banning:** UN plans to crack down on any criticism of mass migration as HATE SPEECH, punished as a criminal offense according to a November 2018 warning from Dutch politician and European Parliament member Marcel de Graaff.
- B. **Social Media Banning:** Franklin Graham was banned for 24 hours from Twitter because of a comment he made years earlier on a bathroom bill in North Carolina. He was told it did not meet Twitter's community standards on hate speech.
- C. **Technology Access Banning:**
  - a. Apple's CEO Promises to Discriminate Against Views He Doesn't Like:  
[CNSNews.com](https://www.cnsnews.com) reports: "...in his remarks, Cook, who's openly gay and supported Hillary Clinton in 2016, defended his company's banning of certain speech or news media on Apple's platforms when they 'violate the values of the company.' He said that not banning what is 'wrong' is irresponsible and 'a sin.' 'I DO NOT want hate promoted.' "

The PROBLEM: Who defines Hate? Who defines moral questions? Would Tim Cook ban a Bible Apple App?

b. Twitter banning: Twitter bans 'misgendering' and 'deadnaming' - SabresEdge media NOVEMBER 2018

<https://www.sabresedge.media/2018/11/24/twitter-bans-misgendering-deadnaming/>

- » A recently discovered update to the Terms of Service of Twitter bans users from "misgendering" or "deadnaming" transgender individuals on their platform.
- » "Misgendering" refers to the deliberate decision to refer to a "transwoman" as a man, and "deadnaming" is the practice of calling a "transperson" by their given name, rather than the name they now choose to identify as.
- » For example, the sentence, "Bruce Jenner was a great athlete - he won an Olympic gold medal for the Decathlon", would break both of those rules, and get someone banned off of the site for doing so.

---

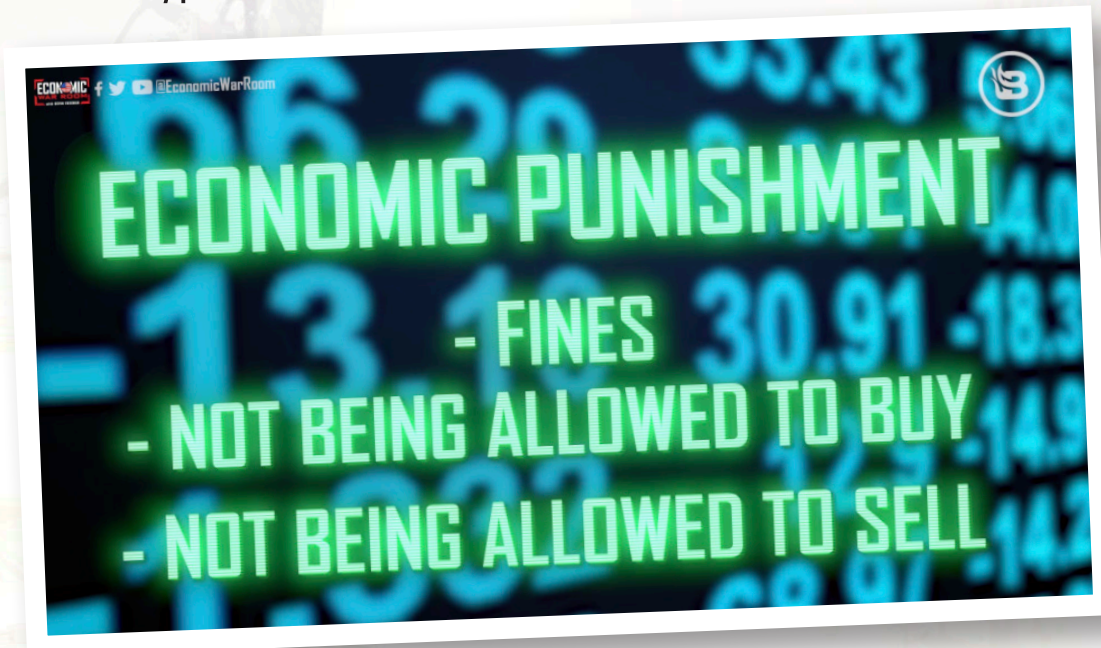

**NOTE: EWR believes in Free Markets. Free markets should allow for organizations and business to decide what to promote unless:**

1. There is a monopoly. Social media is a monopoly and must serve all the public!  
[Could not say we do not like you, so you can not have electricity, or you can not get a driver's license?]
  2. It creates a double standard. Why should it be acceptable for Progressives to deny service based on beliefs, but not others?
-

**Tactic 3: Economic Punishment:** (Weaponized Money) –

Beware of The Mark of the PROGRESSIVE BEAST where you must bow to Political Correctness

There are 3 types of discrimination:

Is this the Mark of the Progressive Beast?

And he (the Antichrist) causeth all, both small and great, rich and poor, free and bond, to receive a mark in their right hand, or in their foreheads: And that no man might buy or sell, save he that had the mark, or the name of the beast, or the number of his name."

– Revelation 13:16-17 King James Version (KJV)

**A. Not Allowed to Buy**—Eating or Going out for the Evening (examples)

- » Candace Owens and Charlie Kirk kicked out of a restaurant because they were recognized as conservatives. **IRONIC:** Black woman accused of being a racist by white people.
- » Senator Ted Cruz and his family. A mob forced them out of a restaurant.
- » Sarah Sanders and her family. The owner of the restaurant forced them to leave. **MESSAGE:** YOU CANNOT BUY FOOD without the political mark of the Progressive Beast. It's about **IDEOLOGY!**
- » In the UK, a Bar banned a mom over T-shirt that declares she's a 'Woman, adult human female,' claims it's not inclusive:

A young mother, Rebekah Wershbale, was wearing a black T-shirt with a message that's about as literal as it gets. A slogan across the front of her shirt simply read: "Woman – noun – adult human female." [Dictionary definition]

**B. Not Allowed to Sell**

Even our U.S. government has purposely targeted groups economically.

OPERATION CHOKE POINT.... From Forbes (November 2018):

- » Operation Choke Point, (was) the Obama administration's effort to freeze politically disfavored businesses out of the financial system. For those unfamiliar, Choke Point consisted of bureaucrats in several independent federal agencies taking it upon themselves to shut legal businesses – such as payday lenders and firearms dealers – out of the banking system. Given the nature of the U.S. regulatory framework, this operation was easy to pull off.

- » Officials at the Federal Deposit Insurance Corporation (FDIC), for instance, simply had to inform the banks ... that the government considered certain types of their customers "high risk." The mere implication of a threat was enough to pressure banks into closing accounts, because no U.S. bank wants anything to do with extra audits or investigations from their regulator, much less additional operating restrictions or civil and criminal charges.

Pay Pal stops service: Robert Spencer, director of Jihad Watch cut off from PayPal...presumably because he dared to criticize radical Islam.

- » He had his account just taken away! No more donations. Robert Spencer, by the way, should not be confused with White Supremacist Richard Spencer.
- » Good News? After a number of complaints from supporters, Robert Spencer had his PayPal account restored! This proves that we can fight back for FREE SPEECH.

**C. Boycotts based on values:** Progressives have aggressively attacked and tried to boycott Chick-fil-A. Why, because they are a hated restaurant. The CEO dared state that his personal belief is that Marriage is between "one man and one woman." This is exactly what Senator Barack Obama said he personally believed when he was first running for President? <http://www.bpnews.net/38271>

<https://www.telegraph.co.uk/news/worldnews/barackobama/3375059/Barack-Obama-marriage-is-between-a-man-and-a-woman.html>

The left attempted a BOYCOTT and later Twitter CEO Jack Dorsey was shamed for once showing a tweet that he ate a Chick-fil-A sandwich .... he was forced to apologize.

---

**BOTTOM LINE:** This is an Economic War on the 1st Amendment!

---

Good News, you can make a difference and weaponize your money toward values you believe in.

The boycott called for by the LEFT, resulted in record Chick-fil-a sales:

“While we don’t release exact sales numbers, we can confirm reports that it was a record-setting day,” Steve Robinson, Chick-fil-A’s executive vice president of marketing, said in a statement.

At least one location had to close early after ... selling out of chicken. At others, lines snaked around buildings and patrons waited upwards of two hours to snag their chicken sandwiches and show their support for Chick-fil-A CEO Dan Cathy’s comments supporting traditional marriage.

<https://abcnews.go.com/Politics/OTUS/chick-fil-record-setting-sales-appreciation-day/story?id=16912978>

## Why You Should Care:

- » It's a slippery slope. At one point the ACLU recognized that if we lose free speech for one group, we will lose it for everyone. Unfortunately, even the ACLU has lost their vision for the First Amendment.
- » There is an economic war underway. The winner will determine the culture and future of the United States of America. One side wants to suppress FREE SPEECH. The progressive left wants to ban any thought that they disagree with. They HATE those they call HATERS.
- » There is a need to counter the LEFTIST SPLC (Southern Poverty Law Center) SPLC labels of "haters" have inspired at least two incidents of attempted mass murder. The SPLC brands a group as a Hate Group and the Left begins an attack. Even the Washington Post questions their fairness.
- » LIBERTY is an important part of economic freedom. We do not want to become like China:
  - Banning Hundreds of words just like Orwell warned.
  - Forbidding the image of Winnie the Pooh.
  - Sending Armed Guards door to door to force people to delete Tweets the government disapproves.
  - Social Credit score where if you aren't politically correct, you can't buy or sell [Can anyone say, "Mark of the Beast?"].

## **Economic Patriot Action Plan**

As an economic patriot, you can make a difference.

### **Step 1: Weaponize your Money toward your values:**

As an economic patriot, we are in an economic war and it is time to weaponize your money. This can be done through:

1. Investments
2. Buying/Consumption
3. Charitable Giving

### **Support Companies that allow or support your values**

Chick-fil-A is a great example. An average Chick-fil-A franchise sells more chicken in 6 days (closed on Sunday) than the average McDonalds, Starbucks, and Subway combined sell in a full week.

### **Avoid those that oppose your values (both spending and investing)**

The left does this all the time. They boycott companies they don't like. If there is no alternative for your purchase, why not identify a niche, become an entrepreneur, and start one?

### **Other Examples of Value Based Investing:**

(This is not an endorsement, just examples of values-based organizations you can explore. Full Disclosure: Kevin Freeman and the EWR team know the CEO's of these organizations)

- » **Cornerstone Payment Systems** - <https://cornerstonepaymentsystems.com>

"Cornerstone is one of the nation's leading independent sales organizations in the merchant processing industry." This is for businesses who accept credit cards. They won't cut off legitimate customers to be politically correct.

» **Timothy Plan** - <https://timothyplan.com>

"Timothy Plan is a family of award-winning, faith-based mutual funds. For over twenty years, we have existed to help advisors and investors achieve their financial goals through a pro-life, pro-family approach to investing—not only to benefit the investor but the broader culture. We are firmly committed to running a mutual fund company with the integrity, excellence, and wisdom that brings honor and glory to our Lord Jesus. Our foundational principle is that God owns everything."

» **Patriot Mobile** - <https://www.patriotmobile.com/>

"Here at Patriot Mobile, we believe that everyone should have the right to dictate how their hard earned money is spent. Every dollar that comes through Patriot Mobile goes on to help fund an American organization focused on principles such as family values, honoring our veterans, or helping out first responders."
