

## Your Liberty is at Stake

The 2024 election is just around the corner. This is not the normal “uni-party” election where Republicans and Democrats barely differ on their policies. The circumstances of this election are unusual, and the differences between the candidates have never been greater.

On one side, we have President Donald J. Trump. In 2020, he received more votes than anyone in history, other than his opponent that year, President Joseph R. Biden. This year, both men handily won their primaries. Biden’s debate failure led to a mad scramble on the Democrat side, the likes of which we have never seen. The Democrats simply tossed out all the primary results, overwriting 15 million votes, to nominate Kamala Harris with no votes, just a selection by party elites.

About the same time, at a rally in Pennsylvania, live on TV, a would-be-assassin fired multiple shots at President Donald Trump, striking his ear. People in the crowd were injured and one was even killed. This was already a major tragedy but imagine the chaos if both major party candidates were suddenly removed. That almost happened. This is the most unusual and likely the most important election in modern American history.

### In this briefing we will discuss the following:

- » Defining Liberty
- » Economic Liberty and the Maoist Walz
- » The True Harris Campaign
- » Trump vs. Harris: Economic Liberty
- » Political Liberty

**YOUR MISSION:** Learn about the candidate’s views on liberty and how their policies would affect you and your family.

 **ATTENTION:** This is the most important election America has ever faced as the future of the nation hangs in the balance.

## WHY YOU SHOULD CARE

- » The candidates have vastly different perspectives on governance and almost every policy imaginable.
- » These policies could drastically impact your daily life, positively or negatively.
- » The survival of the American experiment likely depends on this election.
- » Harris and Walz want to turn America into a Marxist/Maoist state where everyone depends on the government. They are trying to hide it but past words and actions tell the story.
- » Stricter economic controls stifle innovation and economic growth. A heavily regulated economy is inefficient and often corrupt, affecting national prosperity.

### 1. Defining Liberty

Liberty is a powerful word. It has been the source of hope for generations of Americans. But we live in an era where the meanings of words are disputed as part of the war of worldviews.

“Liberty: The state of being free within society from oppressive restrictions imposed by authority on one’s way of life, behavior, or political views.” –Oxford Dictionary

This definition is what the founders of our nation would have understood liberty to mean. For liberty like this to be realized, it must come in multiple forms.

Financially, you can’t enjoy the fruits of liberty unless you have money and are able to decide for yourself what to do with it.

Which points to personal choice. One must be able to decide for oneself what to do with the resources one has.

And finally, one must be able to think and express one’s thoughts freely.

The founders of our nation understood these building blocks of liberty and designed our Constitution and Bill of Rights to ensure that these requirements of liberty were satisfied.

However, liberty is always only one generation away from extinction. It is the responsibility of all who receive its blessings to ensure that liberty is preserved for the next generation.

**⚠ Attention: Liberty is essential to the American way of life and this election may be our generation’s opportunity to defend it.**

## 2. Economic Liberty and the Maoist Walz

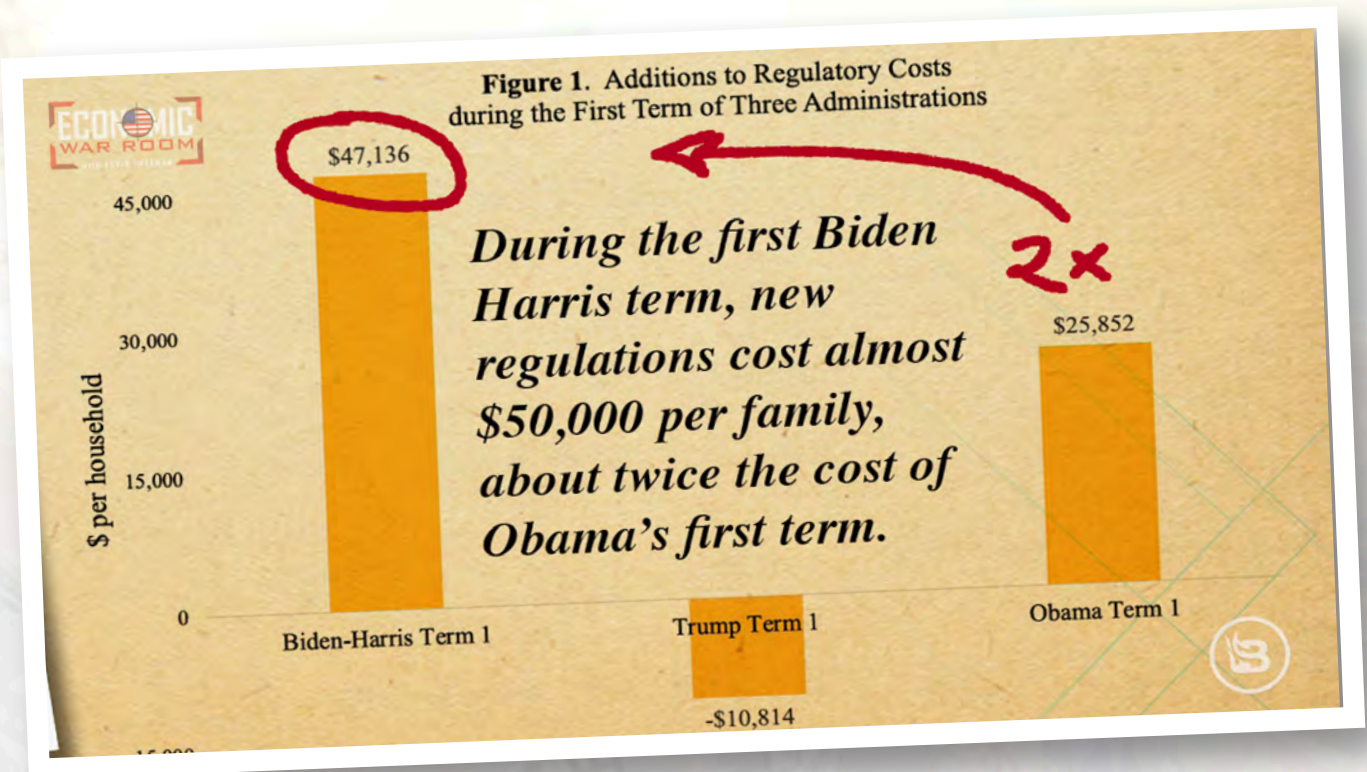

One essential key to economic liberty is prosperity. If a nation’s economy is in shambles, many people are unable to afford daily essentials. This creates a class of people who become dependent on aid.

⚠️ The larger this class becomes, the more people the government can control as they depend on the government for survival

“The next person in the White House will have a major impact on how you earn, what you earn, how much you pay in taxes, and what you can do with what you have left.” –Kevin Freeman

Democrats have held the office of the President for 12 of the past 16 years. Trump had one term, and his four years were interrupted by multiple impeachments, obstructions, and Covid. And yet, his brief stint reducing regulations and lowering taxes paid off for most Americans. Incomes rose as did spending power.

During the first Biden-Harris term, new regulations cost almost \$50,000 per family, about twice the cost of Obama’s first term. By contrast, Trump’s regulation cuts **SAVED** American families over \$10,000 in his first term.

“There should be no doubt that President Harris will be pro-regulation. That is her history from California, in the US Senate, and as Vice President.” –Kevin Freeman

It comes down to a difference in philosophy. Kamala Harris was raised by a Marxist economics professor. Her Marxist views are furthered by her running mate selection.

A man who claims to have accompanied Walz on one of his trips to China claims that Walz is ‘Maoist to the core.’ Walz is well known for his adoration of China and his desire to see similar policies brought to the US. He praises socialism as “just sharing.”

Communism is about collectivism and is, by definition, the exact opposite of personal Liberty.

**Attention: Harris and Walz are fond of communism and their past words and actions suggest they would like to make America more communist.**

### 3. The True Harris Campaign

The Harris campaign is a confusing one, as she has flip-flopped on policy, or simply not shared any policies on multiple issues. What can the American people expect from a Harris Walz administration were they to win the election?

“Her original 2020 campaign is the real her. What she is saying and doing today is simply to get elected.” –Kevin Freeman

Harris did announce a plan to tax 25% of the theoretical gains of people worth \$100 million or more. This sounds like a nice way to ‘tax the rich,’ but what would this look like in practice?

Many individuals have much of their wealth tied up in an Internet stock, or Bitcoin at crazy prices. Every year they would be expected to sell off enough of their investment just to pay the 25% tax.

Imagine all those rich people selling at once... that alone could crash a stock market, completely destroying your retirement funds in the process. Who is hurt then? Not just the wealthy!

Harris also advocated for price controls on groceries. Other nations that have implemented similar policies have ended up with bare shelves.

Harris has gone from being the border czar to never having been involved with the border to being in favor of the same wall she once called Trump's vanity project. Unpredictability and a lack of accountability make it nearly impossible to determine which Harris you will get on any given day.

“At least with Trump, you know what you are getting. We saw his policies, his tax cuts, how the market responded, what the inflation rate was.” –Kevin Freeman

Trump's policies benefitted more Americans during his first term, while Harris's term as VP has devastated the purchasing power of the US dollar with inflation running rampant, crushing the middle and lower classes.

**⚠ Attention: Harris's campaign platform is confusing and unpredictable, but one thing is guaranteed. It would be deadly to the US economy.**

#### 4. Trump vs. Harris: Economic Liberty

Economic liberty can be broken down into the three functions of money. It can be used to invest, spend, or give. What do the candidates have in mind for personal economics?

## INVESTING

Harris wants to raise the capital gains tax and also corporate taxes. This would happen automatically if she were to allow the Trump tax cuts to expire. The only question is, how high would she raise them?

Currently, Harris plans for up to \$5 trillion in tax hikes.

Higher capital gains taxes will reduce the value of investments and hurt the stock market, pensions, and investments in general, especially if she adds her tax on unrealized gains.

This plan would gut an already failing economy.

“Another anti-investor approach for Harris is her support of ESG and Woke policies. She supports stakeholder capitalism rather than shareholder capitalism. Essentially, this means a company should be run to benefit all of society rather than the actual owners. Companies go along because the officers all get paid handsomely to do so. This is what Blackrock was touting.” –Kevin Freeman

On the other end of the spectrum, Trump believes that the owners should reap the rewards of the risks they take.

If you take rewards away from owners, you hurt investors, regardless of their personal wealth. And if you share rewards of ownership equally (communism) you remove any incentive to hard work and innovative risk, crippling your workforce and small businesses.

## SPENDING

A recent Labor report showed that the Biden/Harris administration had overstated the number of new jobs by 818,000.

Nearly a third of all new jobs are government jobs. Government is by far the fastest-growing area of the economy.

The goal of communism is for everyone to work for the government. Everything is owned by the government. Or “the party.”

In their mission to make the US more of a communist nation, they have been quite successful, as government employees depend on the government as do many Americans relying on handouts.

**“As for private job creation? According to a recent poll, nearly HALF of small business believe they will be out of business if Biden Harris policies continue another four years.” –Kevin Freeman**

It is very hard to spend money if you don't have a job to earn money, private jobs generally pay more and provide more benefit to society.

If most of the small businesses in the US were to fail, millions of people would be out of a job and the beneficial productivity of the US economy would decline dramatically.

Harris's policies will also increase inflation, and her answer to that is price controls which never work.

“Limiting prices during inflation simply means you have bare shelves and nothing to buy. That was true in communist Russia, and it was true when Nixon tried it here. Harris believes in a command economy under government control. That is how communists do it. And it is how once free nations fall into communism.” –Kevin Freeman

This is taught in Microeconomics 101, and it follows simple logic: price controls lead to businesses being unable to maintain supply as they are unable to afford to sell products below the cost of producing them.

Trump's first term carried the US economy to lower prices and a better standard of living for most Americans. It is likely his second term would be similar, if not even better for the economy.

## GIVING

With investments failing, and the cost of living rising, it would be a privilege to still have money to give under a Harris administration.

Hugo Chavez led Venezuela to poverty, when he died, he left a multi-billion-dollar fortune of stolen Venezuelan money to his daughter. Harris's policies are strikingly similar.

The communist ideal is to take money from everyone and give it out equally to the people.

The problem is, the people who decide how much to give out become insanely powerful, and often unbelievably wealthy.

This is the goal of Central Bank Digital Currencies.

“Trump has promised to reject Central Bank Digital Currency while Harris would undoubtedly embrace it. Let me be perfectly clear: CBDC is the single greatest threat to your Liberty that is under consideration today.” –Kevin Freeman

With CBDC, you don't even own the money. It belongs to the bank or the government and they give you a “use license.” That means they can approve or disapprove any purchase. They can turn it on or off at will.

In her 2020 campaign, Harris endorsed reparations, which would use taxpayer money, collected from everyone, and redistribute the funds to a small portion of the population.

This would lead to an increase in money flowing into the system, artificially, leading to even more inflation.

Instead of allowing people to give freely, giving will be controlled by the government as they determine what causes have value and which ones must be drained of funding.

Pro-life organizations, churches, and conservative political action groups could all suddenly lose access to funding under CBDC. This level of control would mean the end of personal liberty.

**Attention: Central Bank Digital Currencies are a major threat to personal liberty and would strip Americans of control of their investing, spending, and giving.**

## 5. Political Liberty

Ultimately, Harris believes in a Marxist technocracy rather than leaving you individual choice in just about everything other than abortion, gender, and pronouns. This is especially true in terms of political speech.

Her campaign and administration have worked to move all opposition off the ballot.

“There were efforts to remove Trump based on his alleged masterminding of an insurrection based on a 14th amendment claim. When that failed, the lawfare was unleashed to stop him from campaigning and to lock him up... Biden was shoved aside when he looked likely to lose... the removing of Dr. Jill Stein from the ballot, and the attempted bribery of Cornell West.” –Kevin Freeman

Kamala also demanded that Twitter ban President Trump even while he was the sitting President of the United States of America!

The government coerced Mark Zuckerberg to shut down and censor any opposition on Facebook, favoring Biden-Harris and quenching all dissent. And a Harris-Walz administration would go even further.

Twitter files released by Musk show how the government-controlled social media accounts and ensured that certain stories were shut down before the public was able to learn the truth... like the Hunter Biden Laptop scandal.

“No matter what you think of Trump, you should prefer that over a full Marxian takeover where you lose your economic liberty and personal freedom. This is the Democrats’ playbook. They want to pretend to be flag-waving patriots while implementing a Marxist agenda that we know Harris supports. If they can pressure Mark Zuckerberg, intimidate Elon Musk, eliminate the sitting

president from attempting reelection, raid the home of the former president and try to remove him from the ballot, attack Tulsi Gabbard and Matt Taibbi, imagine what they could do to you.” –Kevin Freeman

Harris’s nonsensical tax policy should be reason enough. Add in CBDC, inflation, regulation, medical autonomy, personal ownership....and ultimately attacks on freedom of speech... it’s a recipe for disaster.

The Biden-Harris administration has proven to be a miserable failure for the American people. In four more years, under Harris you would barely be able to recognize our nation.

Remember, personal freedom, especially medical freedom, doesn’t apply to vaccines. You can be certain that Harris supports mandatory vaccination and full-on government takeover of healthcare.

And Harris is no doubt in favor of banning gas-powered stoves and gasoline-powered automobiles (even if she keeps them for herself).

This is all part of the Marxist plan to take over the United States of America, destroy personal liberty, and enslave the American people in a communist regime.

**⚠ Attention: Trump is the candidate of personal liberty while Harris is the candidate of Marxist collectivism. Make no mistake, America’s future and the survival of liberty will be determined by the outcome of this election.**
