

## Your Security is at Stake

Next month America faces what may be the most pivotal election in history. This election will likely determine the nation's future, and it has already been an unusual election cycle. One candidate was removed from the running by his own party, only to be replaced by his former running mate. The other candidate has survived multiple assassination attempts with the threat of more attempts looming. All this in just two months. The American people, and the people of the world, are sitting on the edge of their seats anticipating what fate we will all face.

Globally, war is on the rise as American diplomacy is failing. Nations that once feared angering the US have been testing the waters and making unprecedented political, economic, and military advances that threaten US interests. At the same time, crime is running rampant in US cities, and thousands of undocumented migrants are crossing the border every day. The American people are losing their quality of life rapidly and the outcome of this election will determine whether there is any hope for it to be restored.

### In this briefing we will discuss the following:

- » Security and the Founding Fathers
- » Trump vs. Harris: National Security
- » Trump vs. Harris: Local Security
- » Trump vs. Harris: Personal Security
- » The Chinese Walz

**YOUR MISSION:** Learn about the role of government in security and compare how the two presidential candidates and their policies measure up.

 **ATTENTION:** Security will be a major topic in this election as the American people seek a peaceful and prosperous future.

## WHY YOU SHOULD CARE

- » The Founding Fathers intended for our government to protect the people and their God-given rights, but not at the cost of those rights.
- » Trump and Harris have polar-opposite track records both of which have had massive impacts on the American way of life.
- » National security threats are at an all-time high and new wars are popping up around the world that threaten US interests.
- » The Intelligence Community has been weaponized against ordinary American citizens who oppose the current regime.
- » China is trying to interfere with our political system so they can control our government and gain more influence around the world.

### 1. Security and the Founding Fathers

Security is one of the most important and most legitimate roles of government. No one wants to live in a dystopian world where it's every man for himself.

That is the purpose of our military and police forces. To keep the peace. To keep Americans from danger or threat. To provide security.

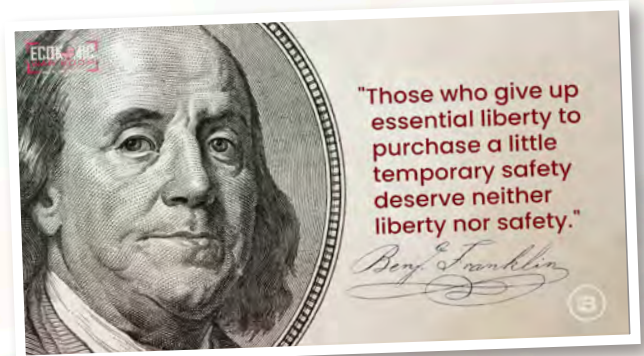

The Founders' view of security was rather simple:

- » Protect the borders.
- » Win the wars that have to be won to protect America.
- » Protect private property rights.
- » Protect individual's right to personal Liberty.

"Those who would give up essential liberty to purchase a little temporary safety, deserve neither liberty nor safety." –Benjamin Franklin

Franklin's quote was in a letter that dealt with taxation and armies. He was making the point that to be 100% safe, you could tax away everyone's property to fund an all-powerful army. But you would have no liberty. And your safety would be short-lived.

**⚠ Attention: The government has a legitimate role in providing security. But it should not be at the expense of economic or personal liberty.**

## 2. Trump vs. Harris: National Security

The federal government has two roles. The president as Commander in Chief is charged with protecting the borders and winning the wars declared by Congress.

Starting with the borders, we have a history with both candidates. Although the media has tried to rewrite history, it's a fact that Kamala Harris has been the border czar during the Biden-Harris administration. She was appointed border czar in March 2021.

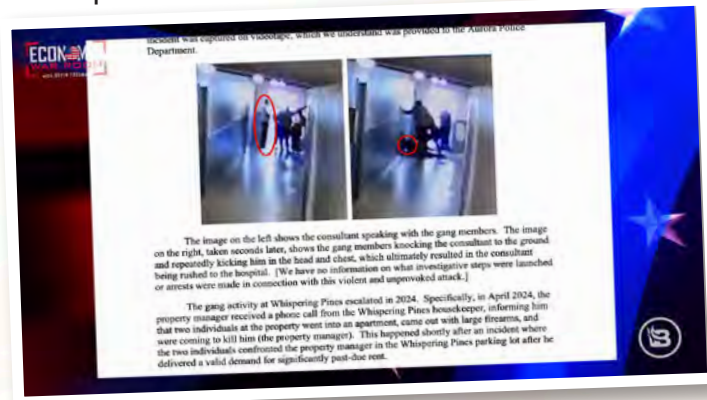

If her policies had protected the border, this would be her top campaign issue. But her efforts were a miserable failure

"Under Trump, we would deport. Under Border Czar Harris, illegal immigrants are settled into American cities... hundreds of thousands of additional migrants into the heart of America, bypassing the border entirely." –Kevin Freeman

There's an enormous cost to allowing so many illegals into our nation and Democrats admit they want all of these undocumented migrants to be given citizenship. This would fundamentally reshape our nation as we've seen in Europe.

“After conducting multiple witness interviews and reviewing video and other evidence, it appears that a Venezuelan criminal gang known as Tren de Aragua has forcefully taken over the property. The evidence we have reviewed indicates that gang members are engaging in flagrant trespass violations, assaults and battery, human trafficking and sexual abuse of minors, unlawful firearms possession, extortion, and other criminal activities, often targeting vulnerable Venezuelan and other immigrant populations.” –Perkins Coie, letter to Aurora PD

If her failure at the border was not enough, the military failures of the Biden-Harris administration serve as another omen of what a Harris-Walz administration might look like.

The Afghanistan withdrawal was likely the worst military failure in recent history as multiple Americans were killed in the chaos, and the equipment left behind has been sold to our enemies around the globe.

“Morale has fallen every year since Trump left office with six in 10 members of the armed forces now describing their morale as low.” –Kevin Freeman

Under Harris, experts suggest we would have to reinstate the draft and that she would insist on drafting women to combat positions to make up for lost personnel.

Despite a dwindling military, the Biden-Harris team seems intent on being active and adventurous in wars abroad.

The cost of the aid sent to fight a proxy war in Ukraine was estimated at \$240 billion this past April by Cato.

To top this all off, Harris will absolutely surrender US sovereignty to the UN, WHO, and other globalist groups to further the globalist agenda.

By contrast, the Trump administration was the first American administration since Reagan that didn't start a new war. And he did rebuild the military and strengthened morale.

Trump's track record is impressive. He refused to surrender US sovereignty to the WHO or the UN but instead pulled out of worthless or harmful agreements like the Paris Climate Agreement.

His diplomatic policies were effective, brokering peace agreements between nations that had been at war for decades or even centuries.

With wars around the world in Ukraine, Israel, Armenia, etc. the American military needs to be at peak performance with solid leadership and effective foreign policy. This is something Trump has already proven to the world he is more than capable of.

**Attention: Harris's track record is awful, but her plans for the future could be even more devastating to our economy, culture, and foreign policy, leading to more wars and the collapse of the American way of life.**

### 3. Trump vs. Harris: Local Security

National security is the first step, and is essential for protecting the American people, but what do the candidates have in mind for local security?

Under the Biden-Harris administration, massive amounts of fentanyl have come across the southern border, along with hundreds of thousands of military-aged men.

“We know that known terrorists have entered the United States. We know that chatter is high for a coming incident, higher than before 9/11. Both the CIA and FBI have been issuing warnings.” –Kevin Freeman

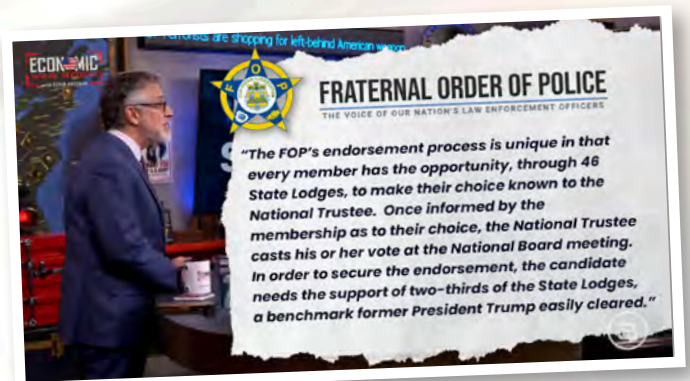

If the attack is local, the military may not be able to respond in time. The first line of defense will have to be local. Just look at the hurricane response and the ineptness of the Federal Government. Too many resources have been spent on supporting illegal immigrants, starving American citizens of badly needed resources.

Harris raised money to bail out BLM rioters many of whom were violent criminals and were calling for the de-funding of local police departments.

Does your family feel safer now than it did five years ago under the Trump administration?

Perhaps there is no better voice of reason, on the topic of local security, than the professionals on the front line.

“Public safety and border security will be important issues in the last months of this campaign. Our members carefully considered the positions of the candidates on the issues and there was no doubt—zero doubt—as to who they want as our President for the next four years: Donald J. Trump.” –Fraternal Order of Police

The Fraternal Order of Police’s endorsement process allows all members to vote. The National Trustee then casts his or her vote, based on the votes of the lodges, at the National Board meeting. To secure the endorsement, a candidate needs the support of at least two-thirds of the 46 State Lodges. Trump cleared that benchmark with ease.

**⚠ Attention: Harris has shown little to no concern for the security of the American people, especially at the local level. In terms of local security, the vast majority of experts stand with former President Trump.**

#### 4. Trump vs. Harris: Personal Security

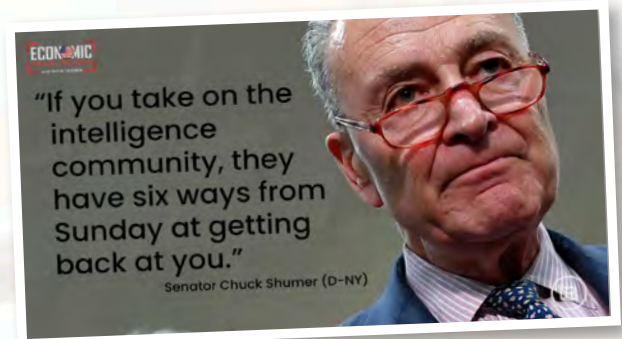

The Intelligence Community has been weaponized, and they have gone after Americans. This is perhaps the greatest personal security threat. That and the double standards being applied in favor of political friends and against any opposition.

Trump has said on multiple occasions that they aren't after him, they are after you, he is just standing in the way.

“Among my greatest concerns with a Harris Administration is that the Deep State will be unleashed and unchecked. We've already seen the Intelligence Agencies go after a sitting President and then follow up with raids on his home and criminal charges even after he left office over classified documents.” –Kevin Freeman

It's clear that the Intelligence Community was out to get Trump just as Senator Chuck Schumer predicted they would on MSNBC when he said, “If you take on the intelligence community, they have six ways from Sunday at getting back at you.”

More recently they targeted former Democratic Presidential candidate Tulsi Gabbard, as well as Rolling Stone reporter Matt Taibbi for their political opposition.

In Michigan, a praying grandmother blocking the front of an abortion clinic can be arrested and put in prison for two years while many demonstrators who contributed to BLM riots, where property was destroyed, were not even charged.

This is not justice, this is not security, this is orchestrated chaos.

Free speech is also under attack. A woman shared information on social media which was deemed misleading. Now, the AG of Michigan is threatening to prosecute her.

Harris said she had the power, with the swipe of a pen, to decide who to prosecute. She could ruin a person's life on a whim, referencing her time as a prosecutor.

“Another security concern I have is the big push that a Harris Administration would make to disarm the American people. It's no secret that the VP is anti-gun and anti-second amendment. Look at her record both in word and deed.” –Kevin Freeman

The NRA says she is “an existential threat to the Second Amendment and supports gun confiscation.”

Harris would not want you to have a gun to defend yourself even if she claims to be a gun owner and that she would shoot any intruder into her home. Of course her campaign staff “cleaned up” her comments, calling them a joke. And that is a matter of personal security.

If she were to defund local police while arming the IRS, and other government agencies it would leave many Americans unable to protect themselves and their families from tyranny.

Trump has consistently held the opposite perspective, wanting Americans to be safe in their own homes and ensuring their right to protect themselves and their community is not infringed.

**⚠ Attention: A Harris presidency would likely lead to worsening crime rates and an increase in regulations that infringe on personal rights.**

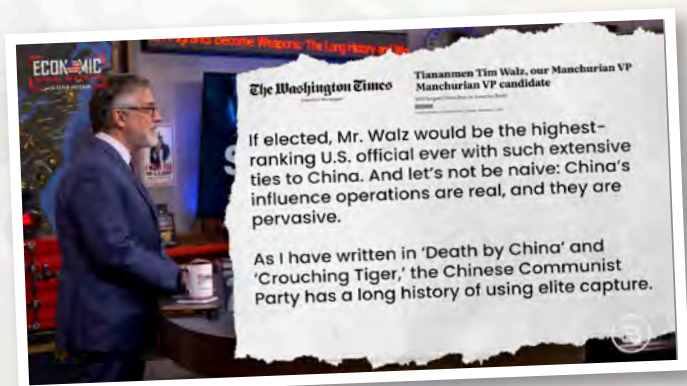

## 5. The Chinese Walz

With all these threats so very near to home, other nations, particularly our adversaries, seek to gain influence in our political system.

China is the best example of this as the Chinese Communist Party has a long history of using elite capture to gain influence in foreign governments.

This election, China has its claws deep in the heart of one of the Vice-Presidential candidates, Tim Walz.

“The Manchurian Candidate, a term immortalized by the famous Cold War thriller, represents a political figure who is unwittingly brainwashed by a foreign power to undermine his own nation. While fiction often mirrors reality in unsettling ways, the story of Kamala Harris’ pick for vice president, Minnesota governor Tim Walz, and his kowtowing relationship

with China reads like a modern-day remake of that book and film... In the 2024 presidential election, we are not just choosing leaders; we are choosing the future of our nation. If Kamala Harris beats Donald Trump, Mr. Walz will be a heartbeat away from the presidency.” –Peter Navarro, Washington Times

If elected, Walz would be the highest-ranking U.S. official ever with such extensive ties to China.

This would give China powerful influence in the White House and were Kamala to be removed from office for any reason, Walz would be the first CCP president of the United States of America.

This would be disastrous for American foreign policy as China would be free to conquer Taiwan and become the new economic powerhouse of the world. Liberty would be finished, and the world would plunge into a new dark age.

Evidence of Walz’s love for China comes from his own statements and from those of his former students and family members who consider him to be a Maoist.

In stark contrast, JD Vance is an American with a deep love for our nation and the American people. He holds the values of the American people and wants to see our nation flourish with liberty and justice for all.

**Attention: Tim Walz is a major threat to national security as foreign powers have captured him and have a powerful influence on his life, jeopardizing the future of our nation’s foreign policy and military responses.**
