

American Values are Under Attack

With all the negative news and narratives you hear daily, sometimes it is good to just keep perspective on American Values and what is really important in life. Too often, the facts are not considered anymore, instead it has been about pushing a political agenda.

YOUR MISSION: To focus on true wealth and happiness. Field Mission 31 with Herman Cain, highlights some of what is right and wrong in America. We hope this encourages others to understand free markets, economic growth and treasure that lasts. The interview may affirm some of what you believe, or perhaps even challenge you to consider even bigger priorities. Thanks for being an Economic Patriot!

(OSINT)- Open Sourced Intelligence Briefing

Herman Cain shares with Kevin Freeman his insights through life.

Mr. Cain is an American politician, author, business executive, radio host, and syndicated columnist. He was member and later chairman of the Kansas City Federal Reserve Bank from 1989 to 1996.

A. The American Dream is Still Possible - Herman Cain shared his rise to success in corporate America. Cain spent time in the Navy, worked his way through college, and held multiple corporate Executive roles with Pillsbury Company. Then went to Burger King and started at the bottom and worked his way up the organization. Next, he accepted the position of President of the Godfather's pizza chain as it was nearing bankruptcy. His leadership turned it around and it operates successfully today. He went on to run for the U.S. Senate and then for the White House in the Republican primary. He also had a syndicate radio show and been a Fox news contributor. He currently has his own show at Hermancain.com

Note: Life and careers will take you multiple directions, enjoy the experience! While he successfully served on the Federal Reserve board in the past, some politicians didn't want him there today. Why? One Democrat called him a political hack, because he supports President Trump's economic policies.

B. Too much Government is a big disadvantage to business and employment.

Godfather's Pizza offered multiple opportunities, but there was neither leadership transition nor focus. Herman Cain fixed both.

Part of his focus on the basics was looking at Government involvement. In 1988, Godfather's was on track to turn the company around, make money, and start growing. Then there was legislation on raising the minimum wage. It threatened all the hard work in turning Godfather's around.

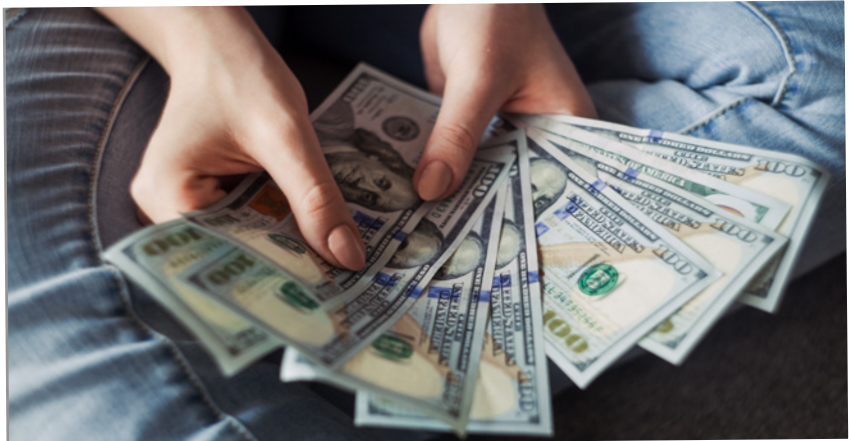

"That's when I discovered what lobbying was. I didn't even know what it was. I wasn't aware of all the regulations. I was visiting my stores and I saw all of this crap on the board in the office. I'm saying what is all of this. Mr. Cain these all the regulations that we have adhered to and we have to post them yada, yada, yada, and I'm going Holy moly."

"So, I contacted the National Restaurant Association and started talking to some people and figured out this was one of the biggest challenges of the restaurant industry. We had to stop the egregious regulations that hurt our business. But even worse, they could put you out of business. So that's when I became aware of what too much regulation could do to your business."

-Herman Cain

C. Thinking of College? Perhaps get a job, not a loan.

College is not for everyone. Also, there are community colleges that people need to consider, depending on what their aspirations are.

Somehow, we moved from our first option of getting a job to go to college to getting a student loan to go to college. For many students today, getting a job is a last option and not a first option.

The federal government, under the Obama administration made it easier for students to borrow money from the government. The result, they were not forced to consider working and going to school to reduce the amount of debt they carried.

Recognize it is not the government's job to save you, It is a fact of life.

you are going to have to work it off.

The government holds a big part of the blame, but the students do as well. Parents and grandparents need to stay on top of this and prevent students from digging a debt trap for themselves, wondering if the government will save them.

Parents and grandparents should also make note of schools with these safe places and liberal ideas that colleges try to indoctrinate in our kids. Make note and keep a list of colleges your children or grandchildren are not going to attend.

Students should not go to school to get brainwashed into liberal thinking. They are going to school to learn to think. Many colleges are doing a disservice to the students and undermining our nation. The reason people are buying into the socialist narrative is because of college group think.

In the economic war we are going to have to push back on this rhetoric because socialism has never succeeded anywhere in the world.

D. Herman Cain, Standing for the Flag!

"The protest is misguided and constructed. I don't believe the protests and all the Kaepernick people that are emulating him understand the history about battle flag and the history of the national anthem. The words were written by an attorney who saw how the British would try to destroy one of our flags. **But the Patriots refused to let that flag fall.** Many of the protesters don't know or understand that story!

If they knew that story, they could not kneel at the playing of the national anthem. Whenever you hear them play the national anthem, most patriotic Americans want to stand because hundreds of thousands of people have died in order for us to have that flag. It represents the greatness the freedom and the liberties of this great nation.

It is a disgrace in my opinion for them to want to kneel down in the playing of the national anthem. Some people might call that old school but if that's old school, then call me old school. I call it respect for those that have made it possible for us to have the liberties and the freedoms that we have. Thank you."

E. Herman Cain on Media

The Economic War Room recently read a memo that suggested George Soros might be behind a Facebook and social media movement to quiet conservatives. Cain was asked his thoughts about this:

"There are a lot of people embedded in Facebook and other social media companies that are liberal leaning. The Country is not served well by hearing just their point of view. Liberal Activist do not want people to think for themselves and are censoring conservative thought. They want people to be subject to a government they control.

The war is not just allowing people to hear conservative ideas and thought. The war is whether or not we encourage or even allow people to think for themselves."

On Media and George Soros

"We aren't going to save everybody, but we can save the civil. And it's been my experience when people know the truth and you help them connect the dots. They will make the right decision. So, I know that he (Soros) does not wish America well and there are a lot of other people who do not wish America well. But there are more of us who not only wishing America well but are working to truly make it a greater America." -Herman Cain

F. Herman Cain and America's Status around the world:

Liberals and the media want you to believe that America's status is not respected around the world. With this President we are more respected in the world.

Out Strong economy and strong military make a difference, and these are the things that lead to respect. We have a President with the courage to lead and the courage to call it like it is. Remember the fear of tariffs and trade wars? Instead, of causing problems he forced people to come to the table.

There are a lot of hot spots around the world and the President is leading from the front. It is not like it used to be.

"With the President we are no longer being treated like Uncle Sucker. We are being treated as Uncle Sam."

Herman Cain

G. Herman Cain on practical investment advice

The economic boom we are in is going to continue primarily because of the tax plan and regulatory roll back. Also, because of the new fans we are finding here in this country that understand free markets.

We continue to see positive growth in the economy, and the naysayers of an economic downturn may not be recognizing the power of reduced regulations and taxes. The previous administration said two percent growth is the new normal. President Trump does not accept that, he is shooting for higher things and has already achieved GDP growth of over three percent.

You may want to look at how your assets are deployed, but do not panic.

National debt is still a concern. But, according to Herman Cain, the President determined to get the economy going first. He felt we have to build consumer confidence and get people back to work. Next, you drill down on wasteful spending in D.C. When the President starts to stop wasteful spending, you will see the national debt curve start to bend down. Trump has not had time to do it yet. He is working on the right problems first.

We agree that we need to get this debt down and make sure we are spending taxpayer money responsibly.

PAGE 7

H. Herman Cain - How Americans can make a difference!

Put your treasure in helping other people see the light. Jesus said the poor and sick will always be among us. We have a responsibility to truly help those in need.

At the same time those that have physical capability, mental capability, or some of their own resources should use the resources given to them. If you get help from the government, that should be an assist rather than something you rely on to prop you up.

Many do not think they have a lot of resource to offer and they are wrong.

"It's not the amount of physical assets that you possess that determines your worth to the world, it is the amount of your spiritual assets wanting to help people. That determines your worth to the world. Never look down on what you have to offer. Always look up to what God Almighty can do."-Herman Cain

In the Economic War Room, we encourage Americans that it is the small ships that make the difference. You cannot rely on the government or the President to solve your problems. You have to make a difference. It is up to you to help take our country back.

**Economic Patriots like
You Can Make A Difference!**

Why You Should Care:

1. You can make a difference! Are you building true wealth and spiritual assets in heaven? Your impact to America and others is important and is part of your legacy.
2. Too much government regulations hurt the economy and your pocket book.
3. There has been a shift in college tuitions and how they are paid for. Recognize that today's status quo may not be the right path for your student or grandchild.
4. US global strength and perceptions: Despite media narratives, our adversaries respect a strong economy, military, and leadership. We are on that path currently and need to stay there.
5. There is a reason for patriotism and respect for the American flag. Lives were sacrificed for you!
6. Social Media companies and institutions have an agenda, and unfortunately it may not be for the good of America.
7. Good things are happening economically, understand both the good, and the risks. National debt is a problem we need to address.

Economic Patriot Action Plan

Step 1: Review the [Economic War Room Battle Plans™](#). Watch Ep. 8 America's Dunkirk moment as it relates to how you can make a difference and building true wealth. Get caught up on all the EWR episodes. They are available on demand at BlazeTV. Sign up at www.economicwarroom.com.

Step 2: Free markets, our national debt, and excess regulations have been consistent drivers in the economic war we are facing. It is important to build your understanding of these topics for conversations with friends.

Step 3: College Plans in your future? Consider all options to keep yourself and children out of debt as it relates to college. Getting a loan is not necessarily the starting point.

- a. Schools are teaching kids not to think. This explains some of the democrat socialist thought process today. Ensure your student or your own career path is focused on building critical thinking skills.
- b. Pay attention to what is happening on college campuses and in schools today. If you have a student or grandchild, help guide them down the right path that builds the skill sets they really need.

Step 4: Share with your friends and know why you stand for the flag and national anthem.

Step 5: Consider what can you do now to help strengthen America. Keep in touch with your congressional representatives. Choose from the list or set your own goals:

→ Get others to sign up and review our weekly Economic War Room [Economic Battle Plans™](#). Each of these will address critical solutions to the threats highlighted on this briefing. Subscribe to our weekly Economic War Room show on TheBlaze at EconomicWarRoom.com.

ECONOMIC BATTLE PLAN™

ONE-ON-ONE WITH HERMAN CAIN **EP31**

(ECONOMIC PATRIOT SCORE: 70)

- ➔ Subscribe to our weekly [Economic War Room show on TheBlaze](#). We need to break the digital ghetto that is limiting free speech regarding truth and liberty.
- ➔ Follow, like, comment and share on [Facebook](#) and [Twitter](#). [We recognize these tools may be compromised at times, but when they are not filtered, they can be major platforms available to reach out to the public.
- ➔ Share this Economic Battle Plan™ and our short video segments on Facebook or YouTube with friends. We set up the Economic War Room to be your resource for information, preparation, and mobilization.
- ➔ Think about ways you can mobilize or weaponize your money towards things that strengthen American. This can be through charitable giving, spending, or investments.
- ➔ **Do this now!** Have a financial action plan based on multiple geopolitical scenarios developing now. Advanced preparation is key. Trying to figure what to do when an economic event happens is usually too late.

Talk with your financial advisor as it relates to your savings/ investments. Ensure your advisor understands the potential impact economic/geo-political scenarios could have on your portfolio. **LOOK FOR ECONOMIC WAR ROOM'S ADVISOR AND INVESTOR ONLINE TRAINING COURSE LAUNCHING THIS SUMMER.**

***Thank you for accepting this mission.
Together, we will make a difference!***
