

Background Briefing: In field mission 2.53 and 2.54, your briefing was focused on the economic war our enemies are waging against us. There is another economic war in America that is attacking America's values and economic liberty. Progressive-left organizations, corporations, and investment funds are being formed to weaponize money against America as it was founded.

"Cell phone service providers carve out a portion of their proceeds and give back to liberal causes. Credo, claims to be the number one contributor to Planned Parenthood outside of the government. They donated almost \$90 million to the left from cell phone, credit card, and energy bills."

-Glenn Story
Patriot Mobile Co-Founder

Your Mission: To better understand the importance of weaponizing (mobilizing) your money toward your values. Also, to look for product and service providers that support your values.

"So if you look at a mobile phone, you don't think of your phone as Christian, my phone is liberal, my phone is conservative. You don't think in those terms. But Glenn Story is saying that the money behind them really is one or the other."

-Kevin Freeman

In future briefings, we will go in depth around how to weaponize your money toward your values with investments and giving, but wanted to focus on one simple product idea that is helping to set a new standard for lining up your spending with your values.

IMPORTANT: The progressive left has been organized in this area for a long time. As the political discourse continues to grow, it is important we combat and have an offensive plan as it relates to how you spend, invest, and give your money.

Ep. 2.56 (OSINT) Open Sourced Intelligence Briefing with highlights. This includes quotes and summaries of conversations in the Economic War Room with Kevin Freeman featuring Glenn Story. Glenn, is one of the founders of an important mobile phone company—Patriot Mobile. Patriot Mobile is helping you take back your privacy and your values through your cell phone.

“A progressive-left cell phone company targeted Allen West’s congressional race. They put boots on the ground and knocked on doors accusing Lt. Col Allen West of being a bad guy. He lost by just 1300 votes because of a cellphone company’s ground game.” –Glenn Story Patriot Mobile Co-Founder

1. The Competition: How big corporations and the progressive left is leveraging their spending toward causes.

A) A look at Credo. They operate a cellphone, credit card and energy company to support their causes.

- » In business for 34 years.
- » 5.9 million Credo activists.
- » Almost \$90 million donated since 1988.

What the left is doing through products and their profits:

CREDO’S MISSION AND RESULTS

From their website:

“We provide great products that fund progressive causes and power social activism. Through the simple act of doing business with CREDO, our members live their values and fight for their ideals.

We started, in 1985, with the Working Assets Credit Card, expanded to long distance service and now operate CREDO Mobile and CREDO Energy. We commit a portion of our revenue and 10 cents of every credit card transaction to donations for progressive groups. We distribute these donations monthly, according to a vote by our members.”

“Credo added more power to their customers in this respect. They told their customers this is what we’re going to do. And they did what they said they’re going to do. That’s actually somewhat honest and honorable in that respect although I disagree with their values.” –Kevin Freeman

B) Progressive-left companies like Credo Mobile are doing more than giving money, they mobilize and provide activation!

Highlights of what they do (quoted from their website):

“CREDO Action organizes for progressive change.

- We mobilize millions of activists to speak out and pressure decision makers from the local to the national levels.
- Our customers and members have generated hundreds of millions of petition signatures and tens of millions of phone calls to key decision-makers across the country.
- Hundreds of thousands of CREDO members have poured into the streets to participate in hundreds of protests and rallies that CREDO staff have helped organize.
- As a result, our members have helped win historic victories for peace, women’s rights, environmental protection and economic justice.”

C) Big corporations are not immune to giving towards causes that could conflict with your values.

- AT&T, and other providers, for example, do not tell their customers about their social activism. When you are their customer, and pay a hundred dollars a month or 50 dollars a month, they take your money and give it somewhere. Patriot Mobile tells you up front that they give to conservative causes.
- Big corporations used to be more open about their giving, but have been quietly outsourcing their giving through other groups. The money satisfies the left and the conservative customers are none the wiser.

- AT&T gave millions to progressive organizations including supporting Obama and Hillary Clinton.
- If you're a customer and you happen to have their service, your money is being taken from you and a portion of it is going to causes you may or may not support.

“What really drove me to this business (Patriot Mobile) is when I learned that this Christian conservative Tea Party candidate (Lt. Colonel Allen West) was targeted for his beliefs from a group on the West Coast. Credo influenced an election in Florida. You think about it, they were going after him, not him as a man or a legislator, but for his Christian beliefs.

You look at him and you say, ‘OK, if they could do that to a gentleman like Allen West, I guarantee you we can do something like that, too.’ Well, as we dug into it, we found that not only did they go after Allen West, they went after ten Tea Party candidates and they beat five.” –Glenn Story Co-Founder Patriot Mobile

2. The Economic War and Your Cell phone - Patriot Mobile is taking a bold stance to supporting your values.

A) About Patriot Mobile:

Highlights from Glenn Story - Co-Founder Patriot Mobile

- » “When we looked at the business, we thought if there’s a Credo Mobile out there serving the left and there was not a a cell phone company serving the right, it was time for Patriot Mobile. There is no other cell phone representing conservative values.

I believe without a shadow of doubt, that Credo has had an influence on the country. I believe the country is still the greatest country to live in today. If the Liberals continue down the path and companies like Credo continue to fund the liberal side, where does the country go?"

» The name Patriot embodies who we are and what we do.

"I believe in our ability to influence the country. The U.S. Constitution is a document. It is not a living and breathing document. It is a document that was crafted by man through the wisdom of God. And the beauty of it is that it was written by some of the smartest people on the planet. And I think this company, Patriot Mobile, can have an influence on the future so that we continue to follow that Constitution."

» Patriot Mobile is a for-profit business. We are capitalist, red-blooded Americans.

» Patriot Mobile does not own cell towers, they are a Mobile Virtual Network Provider -MVNO. That is how the progressive-left carrier Credo works as well.

» Patriot Mobile owns the billing collections, customer care, everything except the towers.

» Patriot Mobile buys data, text and minutes at wholesale and sells them at the retail level.

» It offers coast to coast LTE, 4G LTE, and soon will be rolling out 5G.

» In the early days of cell phone service, coverage was a big issue, today it is ubiquitous. Every major company offers good coverage.

» Patriot Mobile rides the Sprint networks and with roaming agreements with Verizon creating a very efficient coverage platform.

» Patriot Mobile carves out a substantial portion of our profits to invest in supporting conservative Christian values and they are member-focused.

B) Patriot Mobile- A member-focused company focused on creating a positive experience for its users.

- » Patriot Mobile subscribers are considered members, which to them is more than customer.
- » From their website: "You are a member because you join us today, we don't just give cell phone service."
- » Patriot mobile is cell-phone service provider committed to giving a portion of your proceeds to organization that support your values.
- » In addition to that, they can also message members on critical topics/ issues that could threaten those values. One example:
 - o Patriot Mobile will be texting out a link to a video about Colonel West and what he's doing with the Texas GOP because it's important to educate their membership.
 - o Glenn said that what they do is similar to what we do with the *Economic War Room* because they are educating people.

Case Study: Why Mobile Activation/ Education make a difference:

- » For those that want to participate, Patriot Mobile will be uniquely positioned to get messages out to its members on critical issues.

Credo does this on the left:

Credo supported Wendy Davis filibuster as a State Senator in Texas. There efforts helped propel her into a short-term political star who eventually ran for Governor in 2014.

As she was filibustering a right-to-life bill, Credo sent a text to every customer in Texas telling them to inundate David Dewhurst (then Lt. Governor) down in the chamber. Basically they said if he ruled her out of order a third time, Credo was going after him.

Davis was not a good candidate, but Credo's grassroots efforts made a difference and propelled her filibuster and furthered her political ambitions.

PAGE 6

Think of Patriot Mobile as a modern day Paul Revere with the ability to communicate and mobilize what is happening quickly. Also, know that conservative values, not some other progressive views are being supported with a portion of the revenues each month from their mobile phone service.

C) How to sign up – If you think you would like to become a Patriot Mobile member, check out their website at PatriotMobile.com:

- » How it works, it is easy to change and start making a difference today!
- » You can purchase phones from Patriot Mobile or buy an unlocked phone from Apple and sign up with what you want to include: Apple, Samsung, and several models of Motorola are available. Even flip phones are available for those that have privacy concerns. It is still 10 percent of the business.
- » Changing phones and contacts is easier than you may think. If you have an iPhone, you go log into your Apple I.D. key and your password and that phone almost duplicates. It's amazing. the fact of the matter is, your contacts whether you have Samsung or an iPhone there in the cloud making it easy to switch. Plus, you can keep your same phone number.
- » You can call into Patriot Mobile's care center, which Glenn shared is Texas-based. You will not talk to somebody in foreign soil. Since [Patriot Mobile is a Texas-based company and all of their employees reside in the US.](http://PatriotMobile.com)

Patriot Mobile's Stated Values (from their website - PatriotMobile.com)

At Patriot Mobile, we love the United States of America and are proud of our heritage.

We believe in the fundamental principles as set forth by the Founding Fathers in the Constitution and the Bill of Rights including:

1. Individual liberty.
2. Limited representative government.
3. Ownership and control of private property.
4. Separation of powers with a system of checks and balances.
5. The rule of law.

The proper role of government is to protect equal rights, not provide equal things. Prosperity occurs when there is a free-market economy and a minimum of government regulation. The Founders were deeply influenced by Christian moral truths. With that foundation they mandated that religious liberty should be extensively protected.

To protect Freedom in this country we must remain morally strong. Faith and traditional family values provide the foundation for moral strength. To remain free, we must remain strong. Our armed forces must be properly resourced to protect our national interests and maintain the safety and security of the citizens.

We hold dear ideas like ... freedom, opportunity, life and liberty. We have been blessed by patriots in the past who have worked, fought and sometimes died to protect these ideas. We respect and appreciate the choice of every individual to align their values with whom they do business. We hold ourselves accountable to provide great service and are guided by the Golden Rule (Matthew 7:12).

We welcome everyone to become a member and help us become a unifying force for good.

Why you should care?

- A portion of the money you pay your cell phone company may be going to causes you do not support or endorse.
- There is a need to break through the clutter, and know what is going on and when to respond for maximum political impact.
- The left has almost a 30-year head start on values mobilization – it's time to make sure your money is going where you want it to go.
- Many want to know what else they can do besides vote. This may be an easy next step that can help make a real difference.

“Luke 16:11 says (paraphrased), ‘If you’re untrustworthy with worldly wealth, who will ever trust you with the true riches?’ So I guess to Christians, they’ve got to ask the question, ‘If you’re sending that big bill that you’re paying to the cell phone company every month, are you being trustworthy?’ Have you weaponized your money for the kingdom of God? Have you weaponized it for the future of America? It’s a fair question.” –Kevin Freeman

In the Economic War Room, we encourage Americans to be the “small ships that make the difference.” You cannot rely on the government or the president to solve your problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty.

Action Steps:

1. Think about ways you can impact America with your money. The left is doing it, how do you go on offense with the weaponization of your investments, spending and giving toward your values.
2. Go to Patriotmobile.com, learn more and see if this is a good fit for your cell phone needs. Also, feel free to call there member services number to learn more about Patriot Mobile.

Look for ways you can mobilize or weaponize your money toward things that strengthen America. Nominate your financial advisor for our advisor training classes at EconomicWarRoom.com/advisor.

- » If they're already brought up to speed on this, all is terrific. We want them to join our team and we want to work with them to help solve this great problem.
- » But if they're not, give us their name and we'll invite them to come in and join us. This is a huge opportunity for you to have your adviser learn how to protect you in the economic war.
- » These are strategies that you can undertake to protect your family. And there are things we can do as a nation to preserve the American dream, even if there's a financial crisis. The key is to be prepared and keep your eyes open to opportunity along the way.

We need more Economic Patriots on the team! Consider what you can do now to help strengthen America or even help someone in need. Keep in touch with your congressional representatives. Choose from the list or set your own goals:

- Get others to sign up on our website (<https://www.economicwarroom.com>) and review our free weekly Economic Battle Plans™. Each of these will address critical solutions to the threats highlighted in this briefing.
- Follow, like, comment, and share on [FB](#) and [Twitter](#). Look for short video segments on [FB](#) and make sure those are shared. (We recognize these tools may be compromised at times, but if they are not filtered, they are the major platforms available to reach out to the public. (Alternatives social platforms above are under EWR consideration)
- Check out [XOTV.me](#), a new free speech video platform Economic War Room is proud to partner with. It is free, but consider making a donation to help with Economic War Room's research and production.
- Share this battle plan and our short video segments on [FB](#) or [YouTube](#) with friends. We set up the Economic War Room to be your resource for information, preparation, and mobilization.
- Do this now! Have a financial action plan based on multiple geopolitical scenarios developed now. Advanced preparation is key. Trying to figure what to do when an economic event happens is usually too late.
- Talk with your financial advisor as it relates to your savings/investments. Ensure your advisor understand the potential impact economic/geo-political scenarios could have on your portfolio. [LOOK FOR ECONOMIC WAR ROOM'S ADVISOR AND INVESTOR ONLINE TRAINING COURSES LAUNCHING THIS FALL.](#)
