

The Socialist Threat Against American Liberty and What You Need to be Doing About it.

In 2018, Economic War Room featured the 7 Deadly Sins of Socialism in Episodes [11](#) and [12](#). Your mission was focused on the importance of protecting western civilization and liberty. Unfortunately, the Bernie Sanders, Ocasio Cortez's and the radical left continue to march down the path of Socialism for America. The Communist have had a long-term plan to overthrow America's democracy and it has been executed for decades with success. Remember, they said not one shot will need to be fired. All this as America's boomer generation assumes America will always be America. With a crisis like the pandemic, however, there's a power grab and accelerant toward tyranny.

Howard Zinn has rewritten America's history books (see [Episode 83](#)) and much of the entertainment business is giving America's youth a false history of America (see [Episode 81](#)). The greatness of America (free markets and individual liberty) is not being communicated. At the same time crony "capitalists" have broken the golden rule of free markets for their own monetary gain. The socialist/communist plan to change America is being executed perfectly.

Now with a COVID-19 pandemic, the Government is experimenting with tools to protect citizens by shutting down the economy, and then applying extreme stimulus tools to restart the economy. The last time the Government experimented with the economy this much was during the Great Depression. It took us 10 years to recover and it created long-term damage.

It's time to bring truth and logic to America and reunite America on the principles that have improved lives so dramatically over the last 200 years.

This week your mission is similar to [Battle Plan 12](#). Now, more than ever it is mission critical that you do even more, and this provides additional tools to help:

Your Mission: To understand and provide the substance to the myths of Democratic Socialism. It is critical to understand the deceptions undermining America and your family. Also, how to implement action plan steps below that will protect America's economic infrastructure and freedoms. If it is to be, it is up to you to reset America back to its founding principles and help educate the next generation on the power of free markets and liberty.

Ep. 3-86 (OSINT) Open Sourced Intelligence Briefing. This includes quotes and summaries from Kevin Freeman and Glenn Beck. Glenn Beck has done a great job of documenting the socialist lies in his new book, *Arguing with Socialists*. Glenn Beck joins the Economic War Room for this week's briefing.

Lessons In History:

"If we don't turn to God, we are in real trouble because of the things that we are doing to the economy today. I was really struck with how reminiscent they are on all of the policies that caused the Great Depression. You know, everywhere else in the world, it was just the depression. But here we just started experimenting with things and it caused the Great Depression. It caused it to go on for more than a decade and I have a feeling we could be very close to losing a whole generation if we don't free up the people and free up the actual free market. We need to stop picking winners and losers and experimenting with the economy." -Glenn Beck

Burton Folsom highlighted ([in his book *New Deal or Raw Deal*](#)) the mistakes that prolonged the Great Depression. We are at risk of failing again by trying to pick winners and losers in the economy.

In addition, we are literally destroying our food distribution system and not considering its impact on farmers, or food supply and the threat to the worlds food supply. See Our [Special Episode on COVID-19 and Food Disruption](#).

PAGE 2

1. Today we have those that believe in the socialist collective. They do not believe in individual liberty.

Getting into the mind of perhaps a typical 25-year-old who says maybe socialism is alright:

- » They were born around the time of the Oklahoma City bombing.
- » Their first memory is 9/11.
- » They might remember war, economic instability, and fear.
- » In 2008, their mom and dad may have lost their house, or their job, or their savings.
- » Big banks got bailed out, crony capitalism and corruption moved on.
- » Politics became more divided between the major parties.
- » And now they face COVID-19 where we shut down the country and businesses are forced out of business. Possibly, their Mom and Dad are going to lose everything.

This generation has never really seen real Capitalism or true free markets:

“They’ve never seen this work. Now, you look at it from that perspective and wonder, **‘Who would like capitalism?’ But the problem is, it’s not capitalism. We haven’t done the free market in like forever. We are less free in business than they are in blessed Sweden. And blessed Sweden is not socialist. They even say that. The prime minister came out and said that their nation is not socialist.** Sweden tried it and it failed.

And they were they were one of the only ones that didn’t have to leave through revolution because, they’re Swedes. So they didn’t have a revolution to get rid of socialism. That’s a rare thing. As rare as us finding freedom and then holding onto it in the seventeen hundreds. It’s very rare.”

–Glenn Beck

Glenn reflects on why America is not a free market today:

- » We are sitting here at a time where you have to look at the free market and you have to say that there are real problems because it's not a free market.
- » Government is picking and choosing winners and losers, and those businesses are getting into bed with the government.
- » Big tech is the biggest example right now where they're looking for authoritative truth. What the heck does that even mean? Authoritative truth that should scare everybody to the bone.
- » When you have high tech that's controlling all of the news and then you have governments saying, **'Nope, this is the authoritative answer.'** They will protect it and make sure to silence any alternative voices. That's terrifying.

Arguing with Socialists is a book full of documentation. Glenn was careful to not quote himself or conservatives. If there was a fact or information and it was from the Heritage Foundation, Glenn sent his researchers back to find a source that somebody from the left would not immediately dismiss.

"You've written a book that grandparents and parents can pick up. They can read for themselves, improve their arguments for liberty, and then they could give it as a perfect graduation gift. And I love it because it's simple. It's easy to read. It's fun. It's got all those sidebars and little notes and fun facts. All the things that young people talk about, the way they use language. And you just completely destroy the lies and the arguments of the Bernie Sanders and Alexandria O'Cosio Cortez." –Kevin Freeman

“At the Economic War Room® our purpose is to help one generation pass on liberty to the next generation.”

“There is free market liberty (on one side) and then communism (one the other). The in-between vehicle to take you from one to another, is socialism. Socialism is the one where you need the gulags and the strong men in power and the corruption and everything else. Communism is the utopian dream that I think only will happen when Jesus is here, where everybody is on the same page and we all, you know, are not greedy and lie.” –Glenn Beck

2. Communism has never been done before, because it won't work.

According to Glenn, there are three types of Systems:

Free Markets--Socialism --Communism

We were built to have Free Markets but have developed a worldview of Communism.

Socialism is the system that is in between. It is one that comes with corruption, where you need the gulags and strong men in power.

- » Utopian communism has never been achieved and will never be done without Jesus.
- » Socialism is made to look like a nice thing, but it is not. It is a death squad.
- » Plymouth Colony tried communism and failed.
- » La Reunion (In Dallas, TX in the early 1900's) – tried and failed. It lasted only 18 months.

History of La Reunion (Dallas)

It was tried in the Dallas - French, Belgian, and Swiss colonists on the south bank of the Trinity River formed a utopian society in central Dallas.

It was one of the very first socialist communities (or claiming communist at the time) that was attempted here in America. Back in the late 1800s. And it was it was built by the best scholars on Marx in the world.

- They came over here. They tried to get it going.
- It was hit with financial insolvency.
- Shortage of skilled participants.
- Inclement weather.
- Inability to succeed at farming and rising cost.

The Results: You could work unless you were sick. If you were sick or old, you were kicked out of the community because they couldn't carry anyone else. So, it's just the same as Nazi Germany or communism.

"Once you get too old or if you're sick and you can't work, you're a burden. And when it's the whole country, they don't send you to another country. They just kill you (or let you starve). And that whole thing just ended exactly the same way they always had. It just collapsed on itself and it was over."

-Glenn Beck

3. What young people do not know that Socialists will not tell them!

A. You have to work, and we will tell you what you are going to do and buy.

If you go with a socialist system, you get told you have to work. If you don't contribute, you don't eat. That's in the Soviet constitution.

“And you’re going do the work we tell you. You have to do it. I don’t think young people grasp that. I don’t think they get the idea that they’re going to be told not only what work they have to do, when they work, how they work. They’re not going to like that. Then they’re going to be told what they can consume when they work. When they make money, they will be told what they get to buy.

The social credit system says if you’ve been good and done everything that we want you to do, then you get to buy things. But you only get to buy the one choice that’s available in the stores. I don’t think people understand those things about socialism. Young people would run if they did.”

–Kevin Freeman

B. Tech is another concern. It is not all designed to make life easier and better.

- » People don’t understand that what Big Tech is doing right now. They are setting things up to create the whole Chinese social credit system.
- » Once the government gets into something, and with all this personal information, it will want to continue to keep that information and power.
- » Big Tech is offering us all of this information now. But when the COVID crisis is over, they will not return to business as usual.

“We are making massive, massive mistakes, China is Orwell in *1984*, But the West is the *Brave New World*.”

–Glenn Beck

Orwell’s, **1984** – The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to [perpetual war](#), [omnipresent government surveillance](#), [historical negationism](#), and propaganda. *Wiki

Huxley's, **Brave New World** - Largely set in a futuristic [World State](#), whose citizens are environmentally engineered into an [intelligence-based social hierarchy](#), the novel anticipates huge scientific advancements in [reproductive technology](#), [sleep-learning](#), [psychological manipulation](#) and [classical conditioning](#) that are combined to make a [dystopian society](#) which is challenged by only a single individual. *Wiki

C. There are huge ramifications to printing all this money for social programs.

4. The Communist agenda plan in the USA is being executed perfectly.

A. The [KGB Soviet Union Playbook](#) was [documented in the Congressional Record in 1963 with 45 goals](#) that clearly are being followed. Examples include:

- » Permit free trade of all nations [regardless of communist affiliation.](#)
- » Provide American aid to all nations, regardless of communist domination.
- » We've we fought, we overlook Taiwan, the free Chinese people, and we favored most favored nation. The communist Chinese.
- » [Eliminate all laws governing obscenity by calling them censorship](#), breakdown, cultural standards of morality, and infiltrate the churches and replace revealed religion with social religion.
- » [Eliminate prayer from schools, discredit the Constitution, discredit the founding fathers, belittle all forms of American culture.](#)
- » [Capture one or more political parties. Get control of the schools](#) use student riots to foment public protest.
- » [Infiltrate the press. Gain control of key positions in radio, TV and motion pictures.](#) Continue discrediting American culture control art so that it's degraded.

45 Communist goals for America

All of the above have been carried out and continue to move forward while many Americans seem clueless.

B. The Power of Freedom to improve everyone's lifestyle.

"[The Making of America](#) is one of the best history books written by W. Cleon Skousen. The 5,000 Year Leap, which is gold, literal free market gold also written by him. And he was discredited. And, you know, they came after him. If we would just teach our children the 5,000 Year Leap and really understand what took us from fire to space in 200 years, we wouldn't have the problems that we have right now. Now, it's not a coincidence that man cooked with fire for thousands of years. And within a few hundred years we're cooking on stoves. We have indoor plumbing. A few years after that, we have microwave ovens. I mean, it's not a coincidence. It's freedom." **-Glenn Beck**

C. Capitalism Works – There is a Golden Rule to Free Markets

- » **Free Markets give society what they want.**
- » We built our economy recently on lots of debt and perversions of the free market.
- » **It is critical we educate the next generation.**
- » Americans need to understand the freedoms they may lose.
- » If we contrast the two systems honestly, we will have a very amazing group of young people in this nation see the truth.

"You realize that the free markets will just give you whatever society wants. And if your capitalists, if your free market entrepreneurs are moral people, they are thinking to themselves, what would get this job done faster, better? How can I help people? The free market is about making people's lives easier, better, and healthier. But if the people are free and healthy and pretty much spoiled, then your free market starts giving you diversions and it can get really, really corrupt and perverse as the people become more and more corrupt and perverse if they lose their moorings. But when capitalism and the free markets are done right, they help people because they incentivize people to help others."

D. Other Must Read Books on the risks of Communism and Freedom:

Cleon Skousen has multiple books that everyone should read, *The Making of America*, *The 5,000 Year Leap* and *The Naked Communist*.

In *Making of America*, Skousen highlights that there has been a gradual drifting away from the Founding Fathers' original success formula. This has resulted in some of their most unique contributions for a free and prosperous society becoming lost or misunderstood.

In the *Naked Communist*, Skousen distilled more than a hundred books and treatises on Communism. He looked at what was written by Marxist authors to understand the way the Communist sees himself without the propaganda and pretense.

In *The 5,000 Year Leap*: Skousen explains the "Miracle That Changed the World." He also covers the 28 Principles of Freedom. These are the principles our Founding Fathers said must be understood and perpetuated by all who desire peace, prosperity, and freedom. He shows adherence to these beliefs during the past 200 years has brought about more progress than was made in the previous 5,000 years.

Why you should care?

- The Socialist/Communists have been executing their 45-step plan for decades. What are those that stand for liberty doing?
- Liberty is at risk in America like never before. There is only a short time to protect Western Civilization.
- Young people in oppressed societies are yearning for freedom and liberty today.
- In America, we are spoiled, and our youth have been taught fake history. Socialism looks great to many of America's younger generation, but they are being taught lies from the communist agenda.
- Americans need to wake up to the Economic War being waged against us. It is an economic war, but it is also a war against our values of liberty.
- Your current investments may be funding China and their communist values.
