

What Will the New Year Bring?

In this celebratory season of Christmas, the miracle of Hanukkah, and a new calendar year, we are thankful for the many blessings of liberty we enjoy!

As we step into the first week of 2025, we see a landscape filled with both formidable challenges and promising opportunities that will come with the new administration. While many hope that the Trump administration will make the necessary changes and get our nation back on the right track, there are many hurdles the administration will face, and many who will stand in opposition. Navigating these policy changes, political and legal battles, and the financial and geopolitical landscapes of the next few years will require you to stay informed and to engineer plans for multiple scenarios.

In this briefing we will discuss the following:

- » Challenges and Opportunities in 2025
- » Strategic Financial Planning: The NSIC Institute
- » Inflation Countermeasures: Pirate Money

YOUR MISSION: Learn how to prepare for economic and geopolitical challenges in 2025 by leveraging strategic planning, ethical investments, and innovative financial tools.

WHY YOU SHOULD CARE

- » The economic and political changes under Trump's second term will directly influence national debt, regulation, and immigration policies, affecting everyone's economic environment.
- » With geopolitical events increasingly impacting investments, understanding how to align your financial strategy with national security and personal values can protect and potentially grow your wealth.

- » Strategic financial planning allows individuals to align their investments with personal values and global awareness, safeguarding their wealth.
- » As inflation poses a persistent threat, knowing about alternative currency solutions like Pirate Money could equip you with tools to maintain purchasing power.

Ep. 9-326 (OSINT) Open-Sourced Intelligence Report. This briefing includes a conversation between Kevin Freeman and Mike Carter. Mike is a producer of the Economic War Room® and an American Patriot.

Mike Carter, co-host of Pirate Money Radio, is a Co-Founder of the NSIC Institute, a producer of the Economic War Room, and the Economic War Room patriot leading state efforts considering transactional gold and silver.

The goal of Pirate Money Radio is to inform and provide economic solutions to listeners, emphasizing the importance of being faithful with money, which includes giving, spending, and investing based on liberty, security, and values (LSV). Each week, Kevin Freeman discusses various economic challenges and aims to help people prepare and protect themselves from potential cyber-attacks, inflation, and other financial crises, offering real-world solutions.

1. Challenges and Opportunities in 2025

In 2025, the U.S. faces an unprecedented debt crisis, with national debt exceeding \$36 trillion.

“Domestically, we have a serious debt problem. Our debt is over \$36 trillion and grew more than \$3 trillion in the last year.” –Kevin Freeman

The debt increase rate suggests continued inflation in 2025, though Trump promises to reduce inflation.

At the same time, we expect significant policy shifts under President Trump’s administration. These include:

- » Efforts towards government efficiency with the new DOGE department
- » Deregulation to boost economic growth
- » Stringent immigration policies

These changes could lead to economic volatility but also opportunities for those prepared to adapt.

Trump's tariff plan will likely increase costs for imported goods that are affected, but will encourage American industry to replace those goods, improving the job market in the long-term.

⚠ Attention: The economic strategies of 2025 will shape the financial landscape for years, necessitating proactive planning.

2. Strategic Financial Planning: The NSIC Institute

The National Security Investment Consultant Institute (NSIC) introduces a new paradigm in financial advising by linking investment strategies with national security implications.

The NSIC equips advisors to consider geopolitical risks and opportunities, moving toward a more hybrid investment approach that goes beyond the typical passive index fund investments.

By equipping financial advisors with insights into global dynamics, the Institute ensures clients can grow their wealth while investing in alignment with their American Liberty, Security, and Values (LSV).

“The NSIC Institute... helps financial advisors to understand what’s going on geopolitically, how that impacts investments... and how to help their clients align their money with their values.” –Mike Carter

By aligning investments with national security concerns, NSIC could help investors avoid funding adversarial nations or companies that do not share their values, thus promoting a more ethical and secure investment landscape.

The NSIC is working to ensure that American investors are given the necessary advice and tools to “put their money where their mouth is” and align their investment with their values.

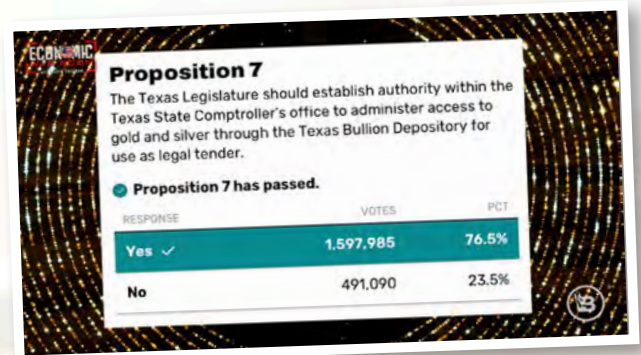

Attention: Understanding how to invest with national security in mind can transform your portfolio into a tool for both personal gain and national interest.

3. Inflation Countermeasures: Pirate Money

While investing can help overcome the long-term effects of inflation, you need a way to spend your money in the short term.

Pirate Money introduces a revolutionary approach to combating inflation by improving on the idea of gold-backed currencies.

This system allows individuals to hold gold securely in state-backed depositories and spend it as currency through debit card systems, providing an accessible and stable financial alternative.

“It makes gold functional currency... so I can actually spend it.” –Mike Carter

This approach not only provides an inflation hedge but also simplifies the process of owning and using gold, making it feasible for the average citizen to protect their financial assets against inflationary pressures.

This system democratizes financial security, granting individuals of all income levels access to a reliable store of value.

In the **Economic War Room**®, we encourage Americans to be the “little ships that make the difference.” You cannot solely rely on the government or the president to solve America’s problems. You have to make a difference. It is up to you to help take our country back and create a voice for economic liberty. [The little ships are based on Churchill’s Operation Dynamo that rescued the British Expeditionary Forces in the Miracle of Dunkirk.]
