

Turning Point Academy: Reaching the Youth with the Truth

In many places, the American education system has been hijacked by radicalized Marxist ideologues whose goal is to destroy the American experiment and crush the spirit of the American people. While this trend began years ago, it has become increasingly evident that many American children are no longer educated in truth but are instead indoctrinated with anti-American lies and seduced with anti-Christian values. This is a cultural war against the heart of American tradition and the hope for a life of liberty.

In this briefing we will discuss the following:

- » The State of Education and Indoctrination
- » The Role of Faith in Education
- » Turning Point Academy and Their 5 C's Approach

YOUR MISSION: Understand the current educational landscape, the importance of parental involvement and a faith-based curriculum, and how Turning Point Academy is pioneering a return to foundational educational values.

WHY YOU SHOULD CARE

- » The narrative of indoctrination in schools affects the moral, ethical, economic, and political education of future generations, potentially shaping societal values and the democratic process.
- » As a parent, guardian, or educator, knowing how to safeguard your child's education against ideologies that conflict with personal or familial values is crucial for their holistic development.
- » Turning Point Academy's approach provides alternatives for those seeking education that aligns with traditional American, Christian, and classical educational philosophies.
- » What the youth learn today will impact your future, your economic well-being, and the future of America.

Ep. 9-328 (OSINT) Open-Sourced Intelligence Report. This briefing includes a conversation between Kevin Freeman and Dr. Hutz Hertzberg. Dr. Hertzberg is a friend of the Economic War Room® and an American Patriot.

Dr. Hutz Hertzberg has served as the Chief Education Officer for Turning Point Academy since July 2022. Hutz gives leadership to all of the Academy's initiatives and staff. Prior to his current role, Hutz served at Christian Heritage Academy (PreK-12 college preparatory school) in Northfield, Illinois, appointed as President July 2017. During his tenure, Christian Heritage Academy was ranked each year as the number one Best Christian High School in Illinois by niche.com.

Hutz's organizational leadership experience includes serving as President of Christian Union, Director of the Orchard Network, and Executive Pastor of The Moody Church in Chicago. Hutz has also served for two decades in higher education administrative and faculty positions, including at Trinity International University, Trinity Evangelical Divinity School, Wheaton College, Judson University and the College of DuPage. For 20 years Hutz served as a Chaplain in the United States Naval Reserve serving mostly with the United States Marine Corps and he continues to give leadership to the Protestant Chaplaincy at Chicago O'Hare and Midway Airports. Hutz is a licensed and ordained minister with academic degrees from Wheaton (IL) College (BA, MA), and Trinity Evangelical Divinity School (MAR, DMin, PhD).

1. The State of Education and Indoctrination

Over the last century, there has been a clear shift in educational philosophy towards progressive and Marxist ideologies, leading to the indoctrination of students, particularly in areas like history, civics, economics, and social issues.

This shift in philosophy has transformed the typical worldview of many Americans who now hold a warped view of history.

“It’s purposeful. It’s methodical. It’s Gramsci’s long march through the institutions. It’s the idea we’ll take over the schools, the colleges that teach teachers. And then... elementary and middle school and high school.” –Kevin Freeman

To be clear, there is a systemic and deliberate nature to these changes, including the targeting of teacher training programs and unionized control over educational content. This was no accident. The teachers' unions are no longer about teachers. They are leftist activists and among the most potent political forces in America today.

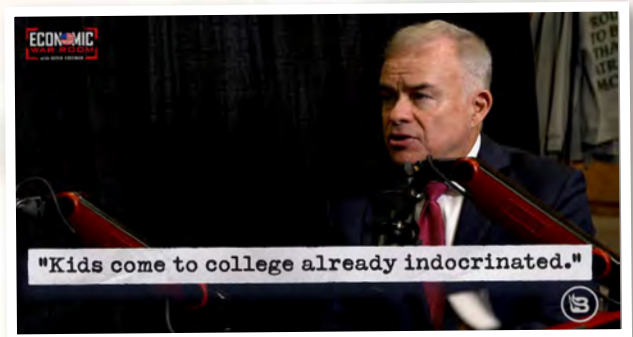

This shift has resulted in an educational system where students come to college already indoctrinated, lacking a balanced understanding of American history, economics, and personal identity, thereby affecting their worldview and civic participation.

Today's students aren't stupid or lazy, but they are indoctrinated by people who do not have their best interests at heart.

⚠ Attention: The education system's ideological direction is shaping the future of societal values and individual freedoms.

2. The Role of Faith in Education

Parental involvement is a critical response to this educational crisis. Especially when paired with a strong emphasis on integrating faith into education for moral grounding and worldview development.

Education begins in the home as an infant studies their parents' actions and begins to learn the languages spoken in the home. This process of learning never ends.

It is in the home that a child first develops their worldview and understanding of morality. Faith is critical to this process as it outlines a clear and robust moral foundation that can then continue to be developed over the coming years.

“Faith...is absolutely central. You take Christian out of education, and it's less than a complete education.” –Dr. Hutz Hertzberg

Education without a moral or spiritual foundation is incomplete, leading to a lack of wisdom in students.

Parents must not simply choose schools but must also remain actively involved in their children's educational journey to ensure alignment with family values.

As a parent, you are the only person who can inspire your child to adhere to your values. Other people, especially educators, may have a different worldview and will not assist you in properly raising your child up in their faith, or even educate them in truth.

A faith-based education is essential for personal formation, and this must be paired with direct parental involvement, so the correct lessons and values are reinforced when the child is home.

⚠ Attention: Parental involvement and faith-based education are vital for nurturing well-rounded, morally conscious individuals.

3. Turning Point Academy and Their 5 C's Approach

Turning Point Academy introduces a model based on Christian, Classical, Conservative, Collaborative, and Cost-affordable education, aiming to counteract the prevailing educational trends. This approach ensures students receive quality instruction while fostering parent and community involvement.

“We developed what we call our five C model. Christian first, that’s the foundation, non-negotiable. We lead with that.” –Dr. Hutz Hertzberg

The **5 Cs** discussed in the transcript as part of Turning Point Academy’s model are:

1. **Christian** - The foundation of the model, emphasizing faith-based education rooted in Christian principles.
2. **Classical** - A preference for classical education, focusing on timeless knowledge, critical thinking, and the great works of Western literature and philosophy.
3. **Conservative** - Not tied to political affiliations like Republican or Democrat but focused on conserving the foundational values upon which the United States was built.
4. **Collaborative** - A partnership-oriented approach, working closely with parents and local churches to create a supportive educational environment.

5. Cost-affordable - Prioritizing affordability to make quality education accessible to more families, addressing the financial barriers often associated with private schooling.

This approach not only provides an alternative educational pathway but also fosters community and affordability, ensuring that more families can access education that aligns with their beliefs and values.

This is Charlie Kirk's Turning Point building on the amazing gains of reaching young people with truth. He is taking on the education system in a powerful new way.

Attention: Turning Point Academy's 5 C's offer a replicable and effective blueprint for reforming education.
