

The Rise of Mamdani

In an era marked by growing economic disparity and shifting political ideologies, the rise of socialist policies and the erosion of the American middle class pose significant challenges to the nation's future. This Economic Battle Plan™ explores the surge of socialist sentiment, particularly among young voters, as exemplified by the frontrunner status of Zoran Mamdani in New York City's mayoral race. The widening wealth gap is a serious problem, and we offer a free-market solution to restore economic justice. Drawing on critical insights, Kevin Freeman examines the cultural, educational, and economic forces driving these trends and offers actionable steps to preserve American prosperity through free-market principles.

In this briefing we will discuss the following:

- » The Rise of Mamdani: Socialism in Politics and Culture
- » Economic Inequality and the Decline of the Middle Class
- » The Economic Justice Board: A Free-Market Solution for Economic Justice

YOUR MISSION: This Economic Battle Plan™ equips you to recognize the threat of socialism, understand the economic forces driving its appeal, and apply free-market solutions to protect liberty and restore opportunity.

WHY YOU SHOULD CARE

- » The rise of socialism in America's largest city is not just a local matter; it signals a broader cultural and political shift that could reshape national policy, public safety, and foreign relations.
- » A declining middle class affects every American. If recent trends continue, your children and grandchildren will likely be worse off financially than you are.
- » By understanding free-market solutions to economic injustice, you can safeguard your family's prosperity, strengthen your community, and counter the false promises of socialism.

1. The Rise of Mamdani: Socialism in Politics and Culture

Zoran Mamdani, a 33-year-old socialist running as a Democrat, has emerged as the frontrunner in New York City's mayoral race, leading with 44% of the vote, driven largely by support from voters under 35. His platform includes fare-free buses, city-owned grocery stores, rent-controlled housing, a \$30 minimum wage by 2030, and comprehensive public safety reform, which critics argue equates to defunding the police.

Endorsed by figures like Bernie Sanders and Alexandria Ocasio-Cortez, Mamdani's appeal reflects a broader cultural shift among young Americans, with 62% of 18–29-year-olds viewing socialism favorably and 34% supporting communism, according to a Cato Institute survey.

That shift is reinforced by educational and institutional narratives: teachers' unions publicly condemning capitalism as exploitative, and some academics downplaying communism's historic atrocities. Some examples include the Colorado Education Association, which condemned capitalism, and a Michigan State professor who downplayed communism's atrocities.

The result is a generation shaped by economic frustration and classroom messaging that casts socialism as compassionate and capitalism as oppressive—despite the historical record that centralized control has repeatedly produced scarcity, repression, and stagnation.

Mamdani's anti-Israel stance and controversial family background—including his father, who sought to destigmatize suicide bombings—further highlight the risks of radical ideologies entering mainstream politics.

“62% of Americans aged 18 to 29 say they hold a favorable view of socialism. 34% [say the same] of communism. That’s shocking, given the fact that communism is responsible for 100 million deaths worldwide and is rooted in socialism, the same philosophy that spawned both Mussolini’s fascism and Hitler’s National Socialism. To favor socialism is to flirt with tyranny.” —Kevin Freeman

For clarity: socialism broadly entails government control over major industries and resources, often narrowing individual economic freedoms; communism goes further to impose total state control of production and distribution—historically resulting in mass poverty and severe human-rights abuses.

Taken together, Mamdani’s proposals and the cultural tailwinds behind them risk replicating the dynamics that have undermined prosperity and public safety elsewhere, with consequences that could extend well beyond New York City.

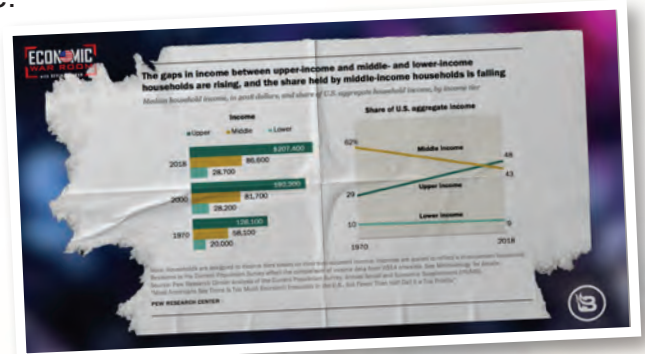

⚠ Attention: Socialism is gaining mainstream traction in America’s political, cultural, and educational systems, threatening the foundations of liberty.

2. Economic Inequality and the Decline of the Middle Class

Beneath socialism’s appeal lies a stubborn reality: widening economic inequality. Since the U.S. left the gold standard in 1971, the middle class’s share of national income has fallen from 62% to 43%, while the upper-income tier has grown from 14% to 20%. Over the

same period, the dollar's purchasing power—the amount of goods or services a dollar can buy—has eroded by roughly 90%. It's no surprise that 74% of Americans now believe their children will be financially worse off than they are.

“The wealth gap has widened sharply in the last 50 years... using fiat money, the rich get richer while the middle class shrank. This is why we must provide a path back to economic justice. It starts with just weights and measures available to everyone, not just the wealthy.” —Kevin Freeman

This isn't an inevitable byproduct of competitive markets; it's the consequence of a policy and incentive mix that rewards capital accumulation over broad-based production:

- » **Financialization:** When finance dominates the economy, returns flow disproportionately to asset owners and intermediaries. Corporate profits increasingly come from balance-sheet engineering (cheap debt, buybacks, financial arbitrage) rather than productivity gains. Wages lag, while asset prices surge.
- » **Offshoring & deindustrialization:** High-value production migrates overseas, erasing ladders into the middle class. Communities lose not just jobs but the local ecosystems—suppliers, skills training, small businesses—that sustain upward mobility.
- » **Inflation as a “hidden tax”:** Persistent price increases quietly tax wage earners. Essentials—food, fuel, housing, insurance—consume a larger share of take-home pay, even when headline wages tick up.
- » **Policy tilt:** Easy money and regulatory regimes that privilege large incumbents raise barriers to entry for small firms and entrepreneurs, shrinking the pathways into ownership.

For families, these macro forces translate into concrete losses:

- » **Housing:** Asset inflation prices first-time buyers out of the market, turning what used to be a savings engine into a moving target.
- » **Education & training:** Rising costs and credential inflation make career entry more expensive while offering fewer guarantees.
- » **Family formation & retirement:** Delayed milestones, higher debt loads, and thinner savings reduce resilience to shocks.

In biblical terms, this resembles “**unjust weights and measures**”—systems tilted toward those best positioned to leverage credit and assets, while ordinary wage earners struggle to keep up. Elites can hedge with diversified portfolios; middle- and lower-income households cannot.

Disillusioned and under pressure, many—especially young Americans—are drawn to promises of “economic equality.” But history shows that centralized, state-controlled systems deliver **shared scarcity, not shared prosperity**.

Concentrating decision-making in government doesn't reverse financialization; it often entrenches it by fusing political power with market power, leaving fewer exit ramps for innovators, small businesses, and workers.

QUICK GLOSSARY

- » **Purchasing power:** What your money can actually buy; it falls when prices rise faster than incomes.
- » **Financialization:** An economy where profits come more from financial maneuvers than from making goods and services.
- » **Fiat money:** Government-issued currency not backed by a physical commodity; its value depends on confidence and policy.
- » **Offshoring:** Relocating production and jobs abroad to cut costs, often hollowing out domestic supply chains.
- » **“Unjust weights and measures”:** A moral framing for distorted systems that advantage the few at the expense of the many.

Attention: A shrinking middle class and widening wealth gap are breeding economic despair—and with it, a turn toward radical “cures” that threaten our liberty and long-term stability.

1. The Economic Justice Board: The Free-Market Solution for Economic Justice

To counter the appeal of socialism and address economic inequality, a proposed Economic Justice Board would champion free-market solutions that restore fairness and opportunity. Inspired by policies like eliminating taxes on tips and Social Security, the board would develop initiatives that provide everyday Americans with practical relief and long-term prosperity.

This board would diagnose policy distortions that punish work and savings, surface practical free-market remedies, and help leaders prioritize reforms that lift the middle class without expanding government or the deficit.

“What about the American dream? This is what’s hurting. A median 57% [of Americans] say children will grow up to be financially worse off than their parents... This is why we need an economic justice board... The Bible says hope deferred makes the heart sick... young people have sick hearts because they don’t see a future and a hope... We have a solution, Mr. President.” –Kevin Freeman

The Economic Justice Board is a policy engine and scoreboard for **market-based economic justice**—convening economists, entrepreneurs, workers, and community leaders to craft proposals that expand opportunity while guarding liberty.

It is not a new regulator or entitlement program. The board recommends and pilots **limited, targeted, sunset-tested** reforms; it does not administer benefits or expand bureaucracy.

Potential Core pillars of the Economic Justice Board’s agenda

1. Honest Money (Sound Money)

- » Advance “**Pirate Money**”: Gold and silver, state-based currency that protects purchasing power for ordinary savers, not just sophisticated investors.
- » Encourage transparent monetary rules and state-level sound-money protections (e.g., removing tax frictions on legal precious-metal money where applicable).

2. Reward Work

- » Cement the President’s elimination of taxes on tips and stop taxing Social Security benefits, so take-home pay and retiree income reflect real effort and lifetime contributions.
- » Expand earnings shields for entry-level and service-sector workers to make extra hours worth more after tax.

3. Bring jobs back with fair trade.

- » The board would back fair-trade policies that counter predatory foreign practices and reverse financialization by reshoring production, bringing critical supply chains and jobs back to U.S. communities.
- » Rebuilding ladders into the middle class restores dignity through productive work.

4. Reinforce a moral economy.

- » A moral frame of radical generosity (earn, save, give) is the antidote to greed/financialization.
- » Make giving simpler and more rewarding (e.g., a universal charitable deduction), reinforcing civil society's role in solving local problems better than centralized programs.

5. Expand Ownership

- » Remove barriers to entrepreneurship (streamlined licensing, instant expensing for productive equipment).
- » Promote ownership opportunities for all Americans, including workers, through honest and open capital markets.
- » Access to private equity, and also making it easier for entrepreneurs to enter the public markets.

6. Build Household Resilience

- » Build on the Trump plan for childhood savings and investment.
- » Automatic rainy-day savings nudges; prize-linked savings; portable, low-fee retirement accounts by default.
- » De-risk the leap from W-2 to 1099 entrepreneurship with simplified quarterly tax tools and first-year safe harbors.

Why free-market justice beats centralized control

Centralized schemes **concentrate** economic power and politicize allocation. The board's approach **diffuses** power—through **choice, competition, and ownership**—so families benefit from compounding gains: higher after-tax earnings, assets that hold value, and more ladders into entrepreneurship. This aligns with the biblical standard of “**just weights and measures**”—transparent rules that don't tilt the field toward insiders.

What success looks like (scoreboard)

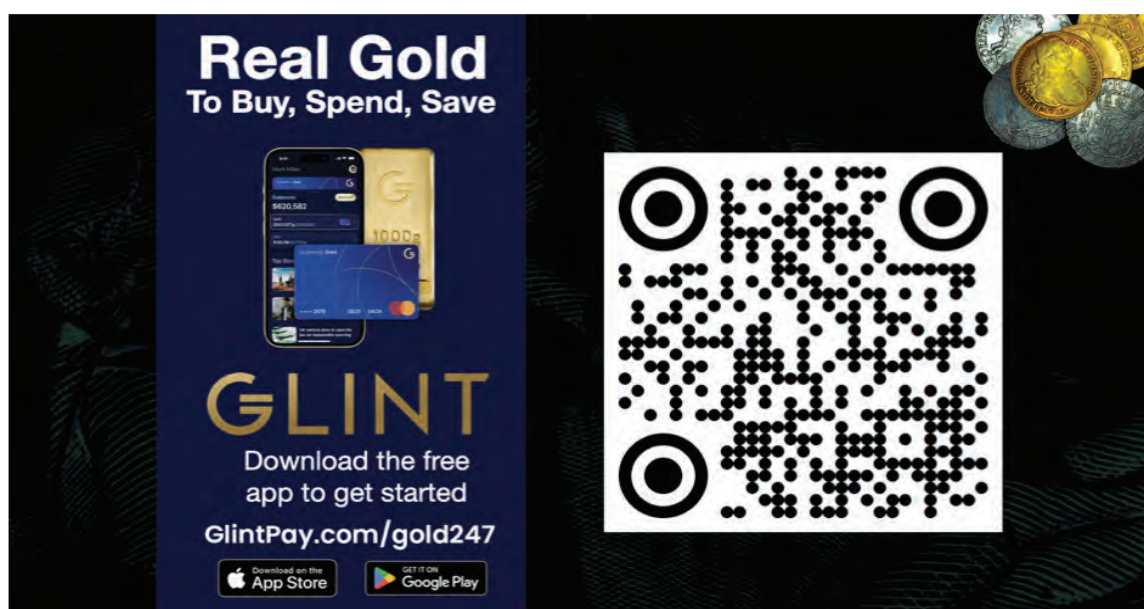

- » **Real median wage growth** outpacing inflation.
- » **Household savings rates** up; **consumer debt distress** down.
- » **Small-business formation** and **employee-ownership plans** rising year over year.
- » **Homeownership** among 25–40-year-olds recovering toward historical norms.
- » **Charitable giving participation** and community-level mutual aid trending up.
- » **Purchasing power** (for essentials) stabilizing or improving for most all Americans.

Socialism's appeal grows when inflation erodes paychecks and upward mobility stalls. By restoring just weights and measures—transparent, non-manipulated money and rules that don't tilt the field to insiders—free markets diffuse power, reward productivity, and channel capital back into productive work rather than financial engineering.

The solutions an Economic Justice Board could propose would result in broader ownership, stronger communities, and a culture of responsibility and generosity that outperforms redistribution at solving real human needs.

Attention: An Economic Justice Board focused on sound money, fair trade, and rewarded work provides a credible, transcript-aligned alternative to socialism—one that can rebuild the middle class, restore trust in markets, and give the next generation a future worth believing in.
