

Beware the Counteroffensive

America stands at a pivotal moment. Recent victories in the fight for liberty—such as state-level legislation recognizing gold and silver as legal tender—have sparked hope for a renewed era of freedom and stability. Yet history teaches us that the most dangerous moment often comes just after a major win.

The lessons from the Battle of the Bulge in December 1944 serve as a powerful warning. In that historic conflict, American troops, confident after a series of victories, were caught off guard by a massive German counteroffensive made possible by overconfidence and poor visibility. Likewise, today's Americans risk losing ground on liberty, security, and values by assuming that recent political and legislative successes have permanently secured the future.

This Economic Battle Plan™ explores the urgent and ongoing threats to America's foundational principles, the dangers of complacency, and the vital role of grassroots engagement in ensuring lasting victory. Drawing parallels between historical resilience and modern challenges, it calls for informed, active participation to counter emerging threats in the economic and cultural battlespace.

In this briefing we will discuss the following:

- » Complacency and the Ongoing Battle for Liberty
- » Persistent Threats to America's Stability and Values
- » Grassroots Engagement: The Key to Lasting Victory

YOUR MISSION: Stay vigilant and proactive in defending America's liberty, security, and values by recognizing and combating complacency, confronting hidden threats, and taking informed action through strong, lasting relationships with legislators and community leaders.

WHY YOU SHOULD CARE

- » Progress is never permanent. Without vigilance, political and legislative wins can be quickly reversed, threatening your economic independence and personal freedoms. Staying alert empowers you to protect your way of life from hidden counterattacks.
- » Rising debt, illegal immigration, and radical ideologies directly affect your financial security, community safety, and cultural foundations. Recognizing these threats allows you to act before they spiral out of control and permanently damage the nation.
- » Lasting change requires active participation. By engaging with legislators and grassroots movements, you ensure your voice is heard, safeguarding liberty while preventing opposing agendas from dominating the public square.

Ep. 10-363 (OSINT) Open-Sourced Intelligence Report. This briefing includes a conversation between Kevin Freeman and Mike Carter. Mike is a producer of the Economic War Room® and an American Patriot.

Mike Carter, co-host of Pirate Money Radio, is a Co-Founder of the NSIC Institute, a producer of the Economic War Room, and the Economic War Room patriot leading state efforts considering transactional gold and silver.

Pirate Money Radio aims to inform and provide economic solutions to listeners, emphasizing the importance of being faithful with money, which includes giving, spending, and investing based on liberty, security, and values (LSV). Each week, Kevin Freeman discusses various economic challenges and aims to help people prepare and protect themselves from potential cyber-attacks, inflation, and other financial crises, offering real-world solutions.

1. Complacency and the Ongoing Battle for Liberty

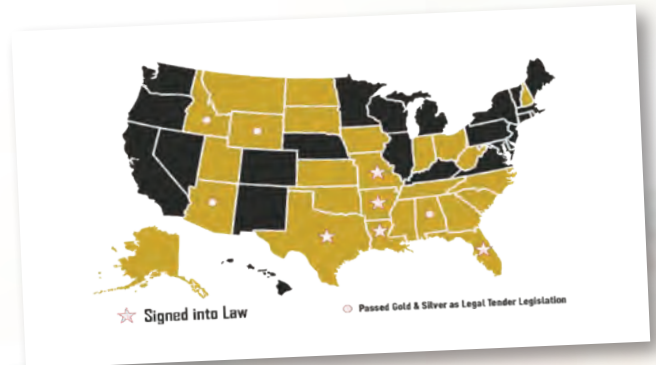

The greatest danger to liberty often comes not in the heat of battle but in the calm that follows a victory.

When Americans achieve a political or legislative win, it's easy to assume the fight is over.

However, history reminds us that progress is never permanent. Just as Allied forces were blindsided by the German counteroffensive during the Battle of the Bulge, today's victories can be swiftly undone if citizens grow complacent and lose focus.

“Many people believe the war to be over. But I’m here to tell you it’s not. And our complacency puts us at risk.” –Kevin Freeman

Recent achievements, such as the passage of laws in Arkansas, Florida, Louisiana, Texas, and Missouri recognizing gold and silver as legal tender, represent critical steps toward resisting central bank digital currencies (CBDCs)—a potential tool for government surveillance and centralized financial control.

These victories provide hope for greater economic freedom, but they are far from secure.

Implementation remains a major challenge. Debit cards and systems for transactional gold are still in development, and without continued pressure from the public, these initiatives risk stalling.

Worse, opposition groups are already strategizing to weaken, block, or overturn these efforts.

“The success of recent legislative wins... creates a false sense of security. Without continued action, opponents will regroup and launch a counter-offensive that can reverse these gains.” –Kevin Freeman

This warning underscores the peril of assuming a win today will last indefinitely.

Even executive actions, such as those targeting debanking—where financial institutions deny services based on political or ideological grounds—can be easily reversed by future administrations.

Similarly, legislative victories are meaningless without persistent engagement to ensure proper implementation and protection from repeal.

The passage of “Pirate Money” legislation marks a bold step forward, but until rules are finalized and tools like debit cards are available for practical use, these laws remain symbolic.

If Americans let down their guard, adversaries will exploit the moment, just as German forces used bad weather and low visibility to launch their surprise attack in 1944.

Attention: Complacency after political victories opens the door for counteroffensives, threatening hard-won gains in liberty and economic freedom. Staying vigilant and active is the only way to secure lasting progress and prepare for the challenges ahead.

2. Persistent Threats to America’s Stability and Values

Even as America celebrates certain victories, deep-rooted threats to the nation’s stability persist. Headlines may highlight progress, but beneath the surface, critical issues remain unresolved, threatening both the present and the future.

“Despite surface-level victories, real problems remain unresolved: U.S. debt has ballooned to \$37.5 trillion, illegal immigration remains at record highs, and inflation pressures continue.” –Kevin Freeman

Economic and Security Challenges

The national debt, now approaching \$37.5 trillion, drives long-term inflationary pressures that erode purchasing power and weaken the economic foundation of American families.

At the same time, illegal immigration surged to 14.2 million unauthorized immigrants in 2024, overwhelming communities and enabling devastating crimes like human trafficking—despite claims that the border is secure.

These intertwined economic and security crises create a volatile environment where families face rising costs, strained public resources, and threats to safety.

Cultural and Ideological Battles

Cultural victories, such as the reversal of *Roe v. Wade*, have not resolved underlying societal conflicts.

In fact, abortion rates rose to 1.14 million in 2024, demonstrating that legal changes alone cannot transform deeply rooted cultural issues.

“The number of abortions the U.S. continued to rise in 2024, totaling 1.14 million despite years of bans and restrictions on reproductive care, according to national report.” –Kevin Freeman

Simultaneously, radical ideologies are gaining ground.

Forty percent of Democrats now openly favor socialism, while leaders like Senator Tim Kaine assert that rights come from government, not God—a direct challenge to the U.S. Constitution’s foundation of inalienable rights.

These ideological shifts threaten to undermine the very principles that define America’s identity and freedoms.

Hidden and Evolving Threats

Even when harmful policies appear to be defeated, they often return under new forms.

Diversity, Equity, and Inclusion (DEI) programs continue covertly under rebranded titles, violating federal civil rights laws and promoting division by prioritizing quotas over merit.

Similarly, new technologies such as stablecoins could serve as backdoor mechanisms for centralized currency control, mirroring the risks posed by central bank digital currencies (CBDCs).

Attention: Persistent economic, cultural, and ideological threats are interconnected. Without continuous, informed engagement, these challenges will grow, eroding financial stability, community security, and the foundational values that have long protected American liberty.

3. Grassroots Engagement: The Key to Lasting Victory

The most important battles for America's future aren't fought in Washington—they happen in local communities, state legislatures, and through personal relationships with elected officials.

Legislative victories like the “pirate money” laws in Arkansas, Florida, Louisiana, Texas, and Missouri only became reality because of dedicated grassroots activism and strong, consistent engagement.

These relationships ensure that policies reflect liberty-minded priorities instead of ideological agendas that undermine freedom.

“Here's the problem. When we win, we say, ‘Oh, we elected them, they'll do their job,’ and go away. But if we don't maintain relationships, the only people they (those we elect) will see will be complainers.” –Kevin Freeman

When liberty-minded citizens disengage after a win, the vacuum is filled by opposing groups promoting policies such as Environmental, Social, and Governance (ESG) frameworks or Diversity, Equity, and Inclusion (DEI) mandates.

These initiatives prioritize political goals over free markets and individual merit, creating an imbalance that harms economic growth and personal choice.

Grassroots involvement is the antidote to this imbalance. By showing up and providing ongoing support, citizens ensure legislators continue to prioritize liberty, security, and values.

This engagement has already shown results—lawmakers who supported gold and silver legal tender legislation are now asking, “What else can we work on together?”

This kind of momentum can only grow when everyday Americans take the initiative to educate, encourage, and collaborate with their representatives.

“We have our American men and women defending our country, defending our freedoms. We have our Constitution. But I’m not sure we’ve got that unified vision anymore that we need to have.” –Mike Carter

Without this sustained and unified effort, temporary victories are at risk of being overturned.

Policies like centralized digital currencies (CBDCs) could be implemented quietly, granting government unprecedented control over personal finances.

Similarly, unchecked ESG and DEI mandates could reshape markets and culture in ways that erode freedom and fairness. Grassroots activists serve as the frontline defense, stopping these policies before they take root.

The lesson is clear: lasting change requires more than winning elections or passing laws. It demands constant vigilance and active participation.

Just as the Battle of the Bulge taught that complacency after victory invites devastating counterattacks, America today must heed that lesson and stay on guard.

Engaged citizens are the strongest defense against the forces seeking to undermine liberty.

By working together at the community and state level, they can transform fleeting wins into enduring legacies.

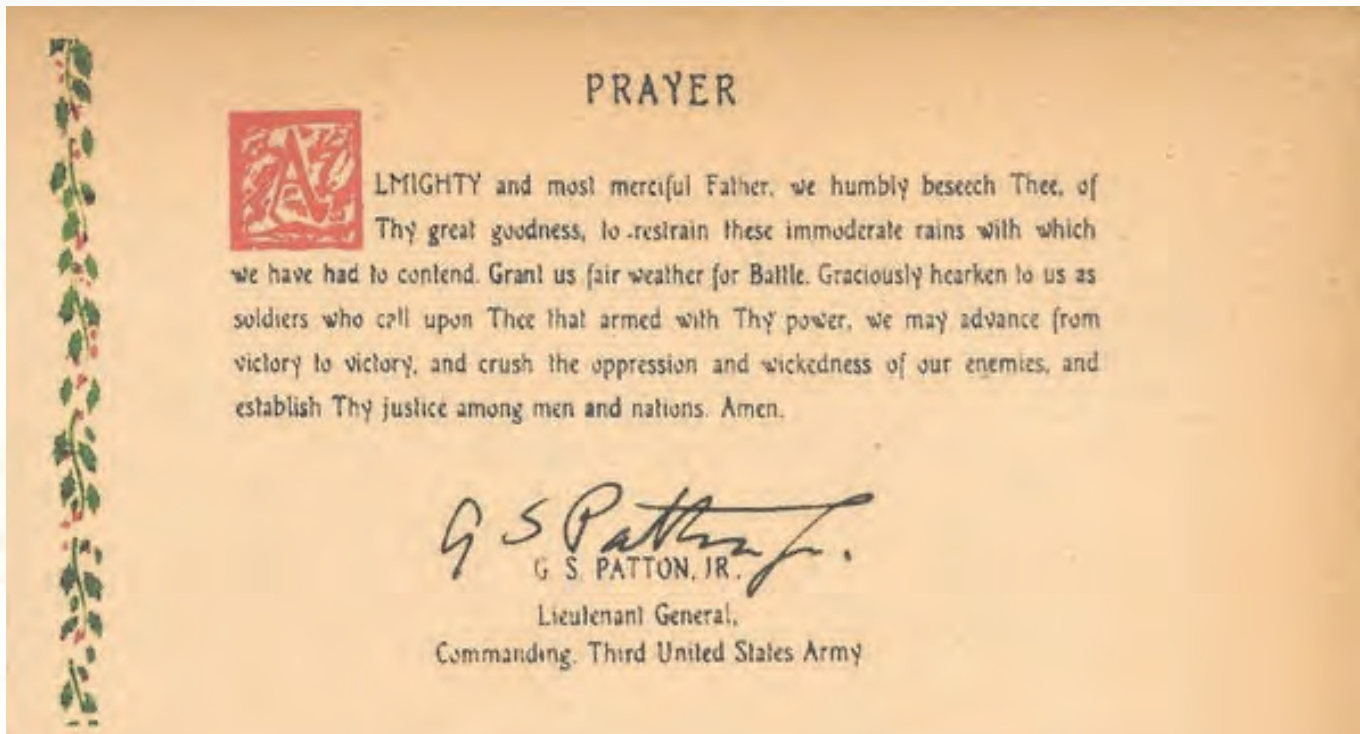

Grassroots engagement empowers individuals to shape policies, defend economic freedom, and preserve America’s foundational values for future generations.

Attention: Grassroots involvement is not optional—it is essential. Every American has a role to play in ensuring that liberty, security, and values endure.

1. The importance of persistent prayer.

Sometimes in a counteroffensive, prayer for clarity is required. This was true for Patton's army in the Battle of the Bulge. It is likewise true today.

ACTION STEPS:

1. **Visit TransactionalGold.com to learn more about the gold and silver alternative and what is happening in your state.**
2. **Stay Informed**
Visit EconomicWarRoom.com to access free battle plans and resources that keep you updated on threats to liberty, security, and values, as well as opportunities to defend them.
3. **Invest with Purpose**
Align your investments with your values by connecting with advisors who prioritize Liberty, Security, and Values. Visit NSIC.org to find an NSIC advisor.
4. **Stay Vigilant**
Monitor ongoing legislative efforts, especially those related to transactional gold laws and digital currencies like CBDCs, to prevent opponents from reversing progress and to protect economic freedom.
5. **Educate Yourself and Others**
Learn about key concepts such as CBDCs, ESG, and DEI to understand how these initiatives impact financial independence and personal freedoms. Share this knowledge to build awareness and resilience in your community.
6. **Engage with Legislators**
Build strong, ongoing relationships with local and state representatives. Encourage them to support liberty-focused policies like gold and silver legal tender laws, and resist harmful policies that undermine free markets and individual rights.
7. **Support Grassroots Movements**
Join or organize local groups dedicated to defending Liberty, Security, and Values (LSV) principles. A strong grassroots network amplifies your influence and ensures liberty-minded voices are heard.
8. **Combat Complacency**
Stay proactive by sharing information about threats like inflation, DEI mandates, and CBDCs with your network. Collective awareness builds momentum and helps prevent dangerous policies from advancing quietly.
9. **Promote Awareness**
Use social media, community events, and conversations to spread information about interconnected threats to economic stability and personal liberty, empowering others to join the fight.
10. **Pray for Guidance**
Inspired by General Patton's prayer during WWII, seek divine wisdom and strength to stand firm in defending America's foundational principles and to lead others with clarity and courage.

ONGOING ACTION STEPS:

1. Get the book [Pirate Money](#) to learn about the transactional gold and silver movement sweeping America. Legislation has now passed in Florida, Texas, Arkansas, Louisiana, and Missouri! This is the answer to inflation and the looming threat of CBDC.
2. Get a copy of [According to Plan](#) to better understand these domestic attacks on our Liberty as well as the overall Marxist plan to consume America.
3. Seek opportunities to inspire other Americans to stand up for what is right.
4. Send them this Economic Battle Plan™ and ask them what they are doing to stand for America and Liberty!
 - » Elect Politicians that understand the need to preserve American Liberty.
 - » Encourage and ask your elected officials to educate themselves.
 - » Ask them how they are working to strengthen our education system and reverse the push for Marxist indoctrination. These are big issues, if your representatives are not

aware and working toward solutions directly or indirectly based on their committees, hold them accountable!

Your support for Transactional Gold and Silver Currency is critical! We have legislation advancing in 20+ states! Learn about progress in your state at <https://transactionalgold.com/> and click the "Active States" button in the upper right-hand corner.

5. **Check your investments to see if they are helping fund the agendas of Globalist Elites. If you have a financial advisor insist that they give you an update and encourage them to become part of the NSIC.**

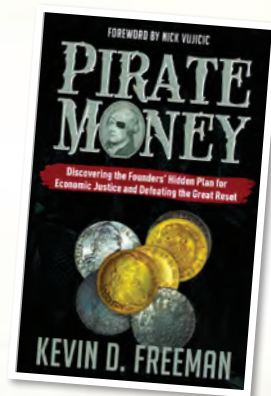

Seek out investment opportunities in patriotic innovations.

Financial Advisors can learn more at www.NSIC.org. Weaponize your money, your investing, spending, and giving!
