

Thanksgiving: The True History of America

Thanksgiving is one of America's most beloved holidays as families across the nation gather to share a meal and celebrate the blessings of the past year. This tradition is centuries old as the first pilgrims celebrated the blessings of their liberty in the New World in the early 1620s.

This holiday has a rich history and serves as a reminder to be thankful for what we have as a nation and to remember the lessons learned by those who went before us to make the lives we lead today possible.

In this briefing we will discuss the following:

- » The Mayflower Society
- » America's Failed Socialist Experiment
- » The National Monument to the Forefathers

YOUR MISSION: Learn the true history of Thanksgiving and how the lessons learned by our forefathers can inspire us to build a greater nation today.

ATTENTION: Our forefathers made many sacrifices to build a home and a bright future for themselves and their children. We must not fail them by destroying what they built.

Ep. 7-268 (OSINT) Open-Sourced Intelligence Report. This briefing is an exclusive teaching by Kevin Freeman in honor of the Founding Fathers and the Pilgrims who celebrated the first Thanksgiving.

Kevin Freeman is considered one of the world's leading experts on the issues of Economic Warfare and Financial Terrorism. He has consulted for and briefed members of both the U.S. House and Senate, present and past CIA, DIA, FBI, SEC, Homeland Security, the Justice Department, as well as local and state law enforcement. His research has been presented in critical DoD studies on Economic Warfare, Iran, and Weapons of Mass Destruction presented to the Secretary of Defense and the Under Secretary of Defense, Intelligence. He has traveled extensively with research trips to Russia and China and throughout Europe and the Americas. He is also a *Contributing Editor to Tactics and Preparedness* magazine.

Kevin is a Co-Founder of the NSIC Institute; Speaker of the Cherokee Community of North Texas; a Senior Fellow at the Center for Security Policy; a former Trustee at Oklahoma Wesleyan University; and a member of the Advisory Board of First Liberty Institute.

1. The Mayflower Society

Not long after graduating college, Kevin was offered an opportunity to attend Oxford and get his doctorate degree. The first requirement for him to attend was for him to meet Dr. Uwe Kitzinger who was the president of the new college Sir John Templeton was funding.

The meeting took place at a reception in the penthouse of a Park & Fifth Avenue apartment in New York City. This is some of the most expensive real estate in New York (or the world for that matter).

When Kevin finally managed to convince the doorman that he was supposed to be at the event, he went up the elevator and was astounded at the beauty and size of this apartment.

The host of the event introduced himself to Kevin as William P. Carey. At the time William P. Carey was one of the most successful real estate investors in New York.

"I noticed he had a lapel pin. So, I asked him about it. I said, hey, that's a beautiful lapel pin. And he answered, would you like one? This is my Mayflower Society pin. I later learned that he was the governor-general of the Mayflower Society. Now I knew enough to know that I wouldn't qualify, but he kindly asked anyway, 'Are you a descendant of the Mayflower?' Now, I stole my swift answer straight from my sixth or seventh cousin, Will Rogers. 'No, sir, I said, but my ancestors were there to meet the boat.'"—Kevin Freeman

Kevin shared this story to illustrate the impact of the Pilgrims and how the descendants of those brave families have stewarded the nation and built incredible things. Those who descended from the Mayflower continue to lead in America.

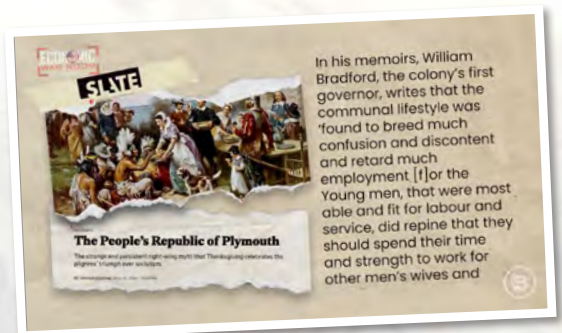

Attention: The great sacrifices made in the 1600s have not only produced great fruit for future generations of their own families but have also created the incredible nation we have all inherited today.

2. America's Failed Socialist Experiment

The story of the pilgrims is one most of us learned from a young age, but there were some key details and lessons to be learned from the lives and experiences of these great pioneers that are **not common knowledge but should be.**

The truth is that these pilgrims attempted socialism as they dreamed of creating a better life than what they had experienced in Europe.

"The Mayflower passengers were under contract to the Virginia Company, and the passengers had all signed the Mayflower Compact. That was supposed to be the basis of their government in the New World. Now, under the original rules, every member of the group was expected to work, and all members had an equal share, with profits to be given back to the original investors. So basically, they were indentured servants and they all

shared equally in kind of a socialistic framework. On the ground, it certainly functioned a lot like socialism. Even the left-leaning *Slate* magazine was forced to admit this in a November 25th, 2014 article. And I'm going to quote from it. They said, 'It is true that the Plymouth settlers abandoned a system of common ownership in favor of private property.'" –Kevin Freeman

Naturally, this system failed, and the fabric of their society began to crumble.

Their first year was very hard as most of the women who came with them died during the harsh winter. The very first Thanksgiving celebration was in honor of the survival of those who were still there, and the sacrifice of those who had been lost.

In such circumstances, people worked hard regardless of compensation because they knew the only way they would survive was by working together. However, once this year had been weathered and life was more consistent, the young workers felt they deserved to be compensated for the amount of work they performed.

"In his memoirs. William Bradford, the colony's first governor, writes that 'the communal lifestyle was found to breed much confusion and discontent and retard much employment.' That means work 'for the young men that were most able and fit for the labor and service did repine that they should spend their time and strength to work for other men's wives and children without any recompense. After that, every family was assigned its own parcel of land to farm, and Bradford wrote, this had very good success, for it made all hands very industrious, so as much more corn was planted than otherwise would have been.'" –Kevin Freeman

The solution to the problem was simple, yet incredibly effective. Private property rights. Once families had their own parcels of land, they had more incentive to work hard and ensure that their fields would have high yields.

The lesson is simple. Socialism always fails while private property rights produce higher yields and improve the standards of living for all the people.

MISSISSIPPI CENTER FOR
PUBLIC POLICY

The Mississippi Center for Public Policy wrote, "From Plymouth Rock all the way to the Soviet Union, socialism has been an unbroken record of failure. The successful American experiment rejected socialism from its very start, and an embrace of socialism would ultimately spell its end."

They continue by stating, "For the legacy of the Pilgrims and the Founding Fathers to continue, the lessons of history must be heeded and followed as families gather across the nation to thank God for the blessings of the year and look back on America's legacy. It is important to ensure that future generations will be able to reap the blessings of freedom, as the rise of socialism seeks to undermine the country's future. A return to America's foundation just might start by looking back to the lessons of Plymouth Rock."

Attention: America has already attempted socialism and it failed within a year. Socialism always fails because it does not reward hard work.

3. The National Monument to the Forefathers

Memorializing the efforts of our nation's forefathers, the National Monument to the Forefathers was constructed in 1889.

This monument literally stands as a story written in stone. Each aspect of this incredible monument represents a key philosophy of those who came before us which was formed by the lessons learned while building a new home on distant shores and founding a new nation.

“The monument was completed and dedicated on August 1st, 1889. It is 81ft tall and overlooks the Atlantic Ocean. Best of all, it captures the spirit of the forefathers and the important lessons that they taught us... To do justice to the monument, let me read from this booklet written by Kirk Cameron... ‘The National Monument to the Forefathers was built to represent the biblical worldview of the pilgrims... The pilgrims believed that a free and prosperous nation must begin with a true and living faith, that faith must be in the God of the Bible, and it manifests in four essential areas of life: morality, law, education, and liberty.’” –Kevin Freeman

The follow are excerpts from the Monument of our Forefathers from Patriot Academy and written by Kirk Cameron.

FAITH

“It is impossible to govern the world without God and the Bible.” –George Washington

“The largest of the five figures in the monument is Faith. Faith is depicted as a woman pointing up toward the God of heaven. She has a star on her forehead, representing wisdom, and a book in her hand. The book is the Bible with its pages being blown open as if by the wind of the Holy Spirit.”

MORALITY

“Of all the dispositions and habits which lead to political prosperity, religion and morality are indispensable supports. In vain would that man claim the tribute of patriotism who should labor to subvert these great pillars of human happiness -- these firmest props of the duties of men and citizens.” –George Washington

“The next figure, Morality, is portrayed as a woman seated on a chair. Morality’s eyes are closed as she is depicted looking inward and meditating on holiness. The pilgrims understood morality to be an internal quality, it could not be imposed externally by any governing force.”

According to Kirk Cameron, “They believed morality began internally with the transformation of the heart by the Spirit of God, in response to the gospel message of salvation.” For this reason, “Morality holds the Ten Commandments in her left hand and the scroll of Revelation in her right hand.”

LAW

“Where there is no law, there can be no liberty, and nothing deserves the name of law but that which is certain and universal in its operations upon all the members of the community.” –Benjamin Rush

Kirk Cameron explains that “The Man of Law is seated in a judge’s chair. He is holding the book of the law in his left hand, while his right hand is extended in mercy.”

The Book of Law is held directly beneath the Bible in Faith’s hand which indicates that the laws of men must always align with the laws of God and the teachings of Christ.

On the right side of the judge’s chair, there is an engraving of the Lady of Justice. She is shown holding weighing scales in one hand and a sword in the other. According to Kirk Cameron, “The sword represents that civil government is power and does not bear the sword in vain.” This is found in Romans 13:4.

To the left of the Judge is an engraving of God’s mercy. Kirk continues to write that “Good laws are not only just, but a divine blend of justice and mercy, just as God’s laws are both just and merciful. When a society secures good morality through faith and civility, through good laws, evil will be reasonably restrained, and children can be successfully educated.”

EDUCATION

“The only foundation for a useful education in a republic is to be laid in religion. Without this, there can be no virtue, and without virtue, there can be no liberty. And liberty is the object and life of all Republican governments.” –Benjamin Rush

Education is represented by a radiant woman holding a book of knowledge. She is seen wearing a laurel wreath of victory around her head. Education is not represented by a government authority but is instead depicted as a woman, likely a mother.

The Pilgrims believed that children were entrusted to the family, not the state. They believed that education was a God-given, parent-led privilege and sacred responsibility.

A civil, government-controlled education system (like what we have today) would have been viewed by the pilgrims as a great tyranny and an abuse of their sacred trust.

LIBERTY

“Those who can give up essential liberty to obtain a temporary safety deserve neither liberty nor safety.”
–Benjamin Franklin

Kirk writes that “Christianity, rightly understood and lived out, produces liberty. The liberty of man is the product. He’s been set free, both internally from the power of sin and externally from the power of tyrants and oppressive governments.”

The man of Liberty is dressed in the full armor of God found in Ephesians 6. He is clad with the breastplate of righteousness, the helmet of salvation, the belt of truth, and the sandals of peace.

He holds in his hand the sword of the Spirit. The weapon is resting in its sheath, symbolizing victory over the enemy. He is also adorned with broken chains on his ankles and feet, symbolizing that he has been set free.

On Liberty's shoulder, there is the claw and pelt of a lion which drapes over Liberty's back. The lion symbolizes England, the beast of tyranny that had been overthrown.

"On the right side of Liberty Man's chair is an engraving of tyranny overthrown. On the left side of Liberty Man's chair is an engraving of his wife. Her name is Peace, and she's holding a basket of gifts for her family and friends. Liberty Man's eyes are focused, he's ready to defend his faith, his morality, his laws, and the sacred responsibility to educate his children in a biblical worldview. And underneath liberty are the pilgrims landing at Plymouth Rock. We begin the journey around the monument with the embarkation, leaving Europe to find freedom and a new society based on biblical law. And we end by stepping on Plymouth Rock, the symbol of liberty and the New World."

Attention: The Forefathers of this great nation understood, often from lessons learned, that a good society must be built upon the foundation of Faith which manifests itself through Morality, Law, Education, and Liberty.
